## **The Blackbird Papers:**

The Blackbird Papers Ian Smith, 2004-06-15 A rainy night A stranded motorist A Good Samaritan passerby a Nobel Prize winning professor The setup for a shocking murder designed to cover up an even more sinister crime The Blackbird Papers marks the debut of Ian Smith a major new talent in crime fiction and of Sterling Bledsoe his smart and occasionally combative sleuth World renowned Dartmouth professor Wilson Bledsoe is returning from a party celebrating his latest honor when he encounters a broken down pickup on the secluded country road to his home The next day the discovery of his body with a vicious racist epithet carved into his chest leads to the quick arrest of two loathsome white supremacists The local authorities seem ready to accept the case at face value as a racial hate crime But the murdered professor's brother FBI agent Sterling Bledsoe has inserted himself into the investigation and isn't ready to buy into this pat solution A look around his brother's lab and brief interviews with his students and colleagues pique Sterling's curiosity about Wilson's pet project a nearly completed paper on the mysterious deaths of hundreds of local blackbirds Fast paced and cleverly constructed The Blackbird Papers introduces a major new talent in mystery and crime fiction

**Country** Jon K. Lauck, Gleaves Whitney, 2023-05-04 Travel north from the upper Midwest's metropolises and before long you're Up North a region that's hard to define but unmistakable to any resident or tourist Crops give way to forests mines or their remains mark the landscape and lakes multiply becoming ever clearer until you reach the vastness of the Great Lakes How to characterize this region as distinct from the agrarian Midwest is the question North Country seeks to answer as a congenial group of scholars journalists and public intellectuals explores the distinctive landscape culture and history that

define the northern margins of the American Midwest From the glacial past to the present day these essays range across the histories of the Dakota and Ojibwe people colonial imperial rivalries and immigration and conflicts between the economic imperatives of resource extraction and the stewardship of nature The book also considers literary treatments of the area and arguably makes its own contributions to that literature as some of the authors search for the North Country through personal essays while others highlight individuals who are identified with the area like Sigurd Olson John Barlow Martin and Russell Kirk From the fur trade to tourism fisheries to supper clubs Finnish settlers to Native treaty rights the nature of the North Country emerges here in all its variety and particularity as clearly distinct from the greater Midwest as it is part of the American heartland **Jet** ,2004-04-19 The weekly source of African American political and entertainment news **U.S.**
