The Blind Geometer

Christopher P. Stephens

The Blind Geometer:

The Blind Geometer Kim Stanley Robinson, Ursula K. Le Guin, 1989 Two classic tales of near future politics and skulduggery are twice the bargain in this newest Tor Double Superior reading by award winning authors **The Blind Geometer** Kim Stanley Robinson, 1986 *Prospectus* Kim Stanley Robinson, 1986* Individuation and Identity in Early Modern Philosophy Kenneth F. Barber, Jorge J. E. Gracia, 1994-07-01 Philosophy in the sixteenth through eighteenth centuries has traditionally been characterized as being primarily concerned with epistemological issues This book is not intended to overturn this characterization but rather to balance it through an examination of equally important metaphysical or ontological positions held explicitly or implicitly by philosophers in this period Major philosophers whose views are discussed in this book include Descartes Malebranche Spinoza Locke Berkeley Hume Leibniz Wolff and Kant In addition the contributors of minor Cartesians especially Regis and Desgabets are analyzed in a separate chapter Although the views of early modern philosophers on individuation and identity have been discussed before these discussions have usually been treated as asides in a larger context This book is the first to concentrate on the problems of individuation and identity in early modern philosophy and to trace their philosophical development through the period in a coherent way *A Checklist of Kim Stanley Robinson* Christopher P. Stephens, 1992 **Paratexts** James Gunn, 2013-04-18 In the mid 1980s Easton Press began publishing a series of leather bound collector editions called Masterpieces of Science Fiction and Masterpieces of Fantasy which featured some of the most important works in these genres James Gunn was commissioned to write introductions to these works which allowed him to pay tribute to many authors who inspired and influenced his own work In Paratexts Introductions to Science Fiction and Fantasy Gunn has collected the most significant essays produced for the Easton series along with prefaces he wrote for reprints of his own novels Cited here are some of the most significant works of 19th and 20th century science fiction and fantasy such as *The Island of Dr Moreau* 1984 *Stranger in a Strange Land* *A Clockwork Orange* *Speaker for the Dead* *The Postman* *Do Androids Dream of Electric Sheep* *The Hitchhiker's Guide to the Universe* *The Dead Zone* *The Mists of Avalon* *Dragon's Eye* *Nine Princes in Amber* *Blue Mars* *The Last Unicorn* and *The Lord of the Rings* Drawing upon Gunn's lifetime of work in the field these introductions include analyses of the individual works and the fields in which they were written Gunn also briefly discusses each novel's significance in the science fiction canon Collected here for the first time these prefaces and introductions provide readers with insight into more than seventy novels making Paratexts a must read for science fiction and fantasy aficionados Lenses on Blindness Sharon Packer, M.D., 2023-02-24 Blindness or vision loss is a major medical concern that has also drawn the attention of artists writers musicians mythologists filmmakers religions philosophers and others Covering everything from pop culture to high culture this text is an illuminating anthology of essays examining various representations of blindness Comprehensive in scope this collection of essays analyzes depictions and explorations of blindness in many pieces of media Essays explore blindness in horror films science fiction

literature high art superhero fiction Jewish and indigenous traditions music and more This book aims to show how a world of darkness can hold so much light *More Than Meets the Eye* Georgina Kleege, 2018 *More Than Meets the Eye* seeks to dismantle traditional understandings of blindness through scrutiny of philosophical speculation scientific case studies literary depictions and museum access programs for the blind It introduces blind and visually impaired artists whose work has shattered stereotypes and opened up new aesthetic possibilities for everyone **Asexuality and Sexual Normativity** Mark Carrigan, Kristina Gupta, Todd Morrison, 2024-11-01 The last decade has seen the emergence of an increasingly high profile and politically active asexual community united around a common identity as people who do not experience sexual attraction This unique volume collects a diverse range of interdisciplinary empirical and theoretical work which addresses this emergence raising important and timely questions about asexuality and its broader implications for sexual culture One of the most pressing and contentious issues within academic and public debates about asexuality is what relationship if any it has to sexual dysfunction As well as collecting cutting edge scholarship in the emerging field of asexuality studies rendering it indispensable to any sexualities course across the range of disciplines this anthology also addresses this urgent debate offering a variety of perspectives on how and why some have pathologised asexuality This includes a range of chapters addressing the broader issues of sexual normativity within which these contemporary debates about asexuality are taking place This book was originally published as a special issue of *Psychology and Sexuality* **The First Frame** Pannill Camp, 2014-12-04 In the late eighteenth century a movement to transform France's theatre architecture united the nation Playwrights philosophers and powerful agents including King Louis XV rejected the modified structures that had housed the plays of Racine and Molière and debated which playhouse form should support the future of French stagecraft In *The First Frame* Pannill Camp argues that these reforms helped to lay down the theoretical and practical foundations of modern theatre space Examining dramatic theory architecture and philosophy Camp explores how architects dramatists and spectators began to see theatre and scientific experimentation as parallel enterprises During this period of modernisation physicists began to cite dramatic theory and adopt theatrical staging techniques while playwrights sought to reveal observable truths of human nature Camp goes on to show that these reforms had consequences for the way we understand both modern theatrical aesthetics and the production of scientific knowledge in the present day *The Sight Sickness* Christine Faltz Grassman, 2009-03-05 It was an epidemic It was a plague that shocked both those who got it and those who did not It was coined the white sickness For inexplicable reasons random citizens became blind and the sickness was believed to be contagious Instead of teaching people to manage their disability the government rounded up the newly blind and caged them like animals The quarantine facilities had no organization no plumbing no electricity and no law and order Both the blind and the seeing were terrified When the crisis subsided the officials in charge were tried for their role in the inhumane treatment of the citizens they were acquitted One vigilante group is not satisfied with the verdict Calling

themselves the Cellmates they kidnap seven people and hold them hostage keeping them blinded so they can experience the same fears as those who were blinded in the plague A blend of social commentary criticism parody and polemic author Christine Faltz Grassman offers an anti sequel to *Blindness* a psychological thriller written by Jos Saramago *The Sight Sick* Grassmans personal response to the publics fear of blindness works to show that with the right attitude the right tools and the right techniques blindness is manageable

Science-Fiction Rebels: The Story of the Science-Fiction Magazines from 1981 to 1990 Mike Ashley, 2016-01-28 Fourth volume in Mike Ashley s acclaimed set on the history of science fiction magazines This volume looks at the 1980s

[Science Fiction Literature through History](#) Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics authors works and subgenres written by a distinguished scholar This encyclopedia deals with written science fiction in all of its forms not only novels and short stories but also mediums often ignored in other reference books such as plays poems comic books and graphic novels Some science fiction films television programs and video games are also mentioned particularly when they are relevant to written texts Its focus is on science fiction in the English language though due attention is given to international authors whose works have been frequently translated into English Since science fiction became a recognized genre and greatly expanded in the 20th century works published in the 20th and 21st centuries are most frequently discussed though important earlier works are not neglected The texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field

[The Philosophy of the Enlightenment](#) Ernst Cassirer, 2009-08-10 In this classic work of intellectual history Ernst Cassirer provides both a cogent synthesis and a penetrating analysis of one of history s greatest intellectual epochs the Enlightenment Arguing that there was a common foundation beneath the diverse strands of thought of this period he shows how Enlightenment philosophers drew upon the ideas of the preceding centuries even while radically transforming them to fit the modern world In Cassirer s view the Enlightenment liberated philosophy from the realm of pure thought and restored it to its true place as an active and creative force through which knowledge of the world is achieved In a new foreword Peter Gay considers *The Philosophy of the Enlightenment* in the context in which it was written Germany in 1932 on the precipice of the Nazi seizure of power and one of the greatest assaults on the ideals of the Enlightenment He also argues that Cassirer s work remains a trenchant defense against enemies of the Enlightenment in the twenty first century

[The History of the Science-fiction Magazine](#) Michael Ashley, 2000 Fourth volume in Mike Ashley s acclaimed set on the history of science fiction magazines This volume looks at the 1980s

Science Fiction Rebels Michael Ashley, 2016 Fourth volume in Mike Ashley s acclaimed set on the history of science fiction magazines This volume looks at the 1980s

The Best of Kim Stanley Robinson Kim Stanley Robinson, 2010-08-01 Kim Stanley Robinson has been an ongoing force

in the Science Fiction genre for over twenty years with his novels *Year s of Rice* and *Salt Forty Signs of Rain* crossing over to the mainstream and routinely appearing on the New York Times best sellers list During the 80s and early nineties his short fiction continued to push the boundaries of science fiction defining the science focused side of the science fiction genre Award winning editor Jonathan Strahan worked with Kim Stanley Robinson to select the stories that make up this landmark volume In addition to these reprints *The Best of Kim Stanley Robinson* features a brand new short story *The Timpanist of the Berlin Philharmonic* 1942 *Knowledge and Error* Ernst Mach, 2012-12-06 **Diderot and the Art of Dialogue** Carol Sherman, 1976
