Men In The Labour Room Anthony Ekanem, 2016-09-27 The pending arrival of a baby is a wonderful time It doesn't matter what the circumstances when a new baby comes into the world it is a true miracle As is expected much of the focus in the delivery room is on the woman After all she is the one who is enduring the pain of childbirth What many people don't consider is that the men in the delivery room have their own issues as well Years ago men weren't allowed in the delivery room Men were relegated to the waiting room left to pace a hole in the floor as they waited for their offspring to be born Obviously you cannot know exactly what it feels like to carry and birth a new born however you can learn as much as possible about all the stages of pregnancy labour delivery and new born bonding Perhaps once you understand the prenatal class basics you might start having doubts about how you will be able to handle it all Try to set those uncomfortable thoughts aside Studies show that men are more likely to get and stay involved in the care and nurturing of their children if they are present at the births So what's a man to do If you're the father to be you have probably heard the horror stories It's like a pain you as a man can never know Research shows that when a woman has a supportive birth partner this reduces her need for pain killing drugs and increases her satisfaction with the birth experience This also can reduce her stresses and worries about being a mother and make her more confident after the baby is born Having a familiar face can be very reassuring There are many things you can do to help the momma to be along the way to becoming a full fledged mother You may be confused especially when things start getting a little frantic and they will With the help of this book you'll be much more prepared for the birthing experience **The Thirteen Months of Pregnancy** Bill M.
