### **The Blue Angel An Authorized Translation Of The German Continuity:**

*The Blue Angel* Josef Von Sternberg,1968      *Der blaue Engel. The blue angel. An authorized translation of the German continuity* Josef von STERNBERG,1968      *The Blue Angel (Der Blaue Engel)* S.S. Prawer,2019-07-25 This comprehensive study reconstructs the production history of *The Blue Angel* 1930 showing how director Josef von Sternberg's virtuoso visual style was amply supported by an immensely talented team of actors and technicians It also analyzes the film's aesthetics and shows how the grave political situation in Germany reverberated in its seemingly airtight world One of the most famous images in cinema is to be found in the film *The Blue Angel* 1930 Lola Lola Marlene Dietrich in revealing black suspenders sits on a beer barrel clasping an upraised knee with both hands while she leans slightly back Though not Germany's first sound film it was at the time the most prestigious and expensive by far Sternberg had been lured back from Hollywood and together with acting star Emil Jannings and producer Erich Pommer he set about making an adaptation of Heinrich Mann's novel *Professor Unrat* The result is a subtly claustrophobic study of a man's downfall which is a milestone in European cinema

**Historical Dictionary of German Cinema** Robert C. Reimer,Carol J. Reimer,2019-07-15 The History of German film is diverse and multi faceted This volume can only suggest the richness of a film tradition that includes five distinct German governments Wilhelmine Germany the Weimar Republic the Third Reich the Federal Republic of Germany West Germany and the German Democratic Republic East Germany's as well as a reunited Germany two national industries Germany and Austria and a myriad of styles and production methods Paradoxically the political disruptions that have produced these distinct film eras as well as and the natural inclination of artists to rebel and create new styles allow for construction of a narrative of German film Disjuncture generates distinct points of separation and yet also highlights continuities between the ruptures This second edition of *Historical Dictionary of German Cinema* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on directors actors films cinematographers composers producers and major historical events that greatly affected the direction and development of German cinema This book is an excellent resource for students researchers and anyone wanting to know more about German cinema      *Moving Frames* Carrie Collenberg-González,Martin P. Sheehan,2022-02-14 As the building blocks of moving pictures photographs have played an integral role in cinema since the dawn of the medium a relationship that has grown more complexly connected even as the underlying technologies continue to evolve *Moving Frames* explores the use of photographs in German films from Expressionism to the Berlin School addressing the formal and narrative roles that photographs play as well as the cultural and historical contexts out of which these films emerged Looking beyond and within the canon the editors gather stimulating new insights into the politics of surveillance resistance representation and collective memory functioning through photographic rupture and affect in German cinema      *Nietzsche in Hollywood* Matthew Rukgaber,2022-09-01 *Nietzsche in Hollywood* offers a compelling and startling history of Hollywood film in which the

German philosopher Friedrich Nietzsche and his idea of the *Übermensch* looms large. Though Nietzsche's philosophy was attacked as egoistic and a sociopathic version of Darwinism in films from the 1910s it undergoes a series of cinematic and philosophical transformations in the 1920s and 1930s under the eye and pen of some of the most significant names in early Hollywood including Erich von Stroheim, Josef von Sternberg, Ben Hecht, Howard Hawks and Ernst Lubitsch. In addition to establishing historical connections between Nietzsche's philosophy and these filmmakers the book provides philosophical readings of many Hollywood films through the lens of the Nietzschean ideas of perspectivism and the critique of morality. Offering a new history of classic Hollywood films as well as a new approach to film philosophy, *Nietzsche in Hollywood* reveals a reading of the philosopher in American culture that has largely been ignored. This work examines the way in which the unique partnership of director Sternberg, star Marlene Dietrich, studio Paramount and designer Travis Banton created a series of films in which costume functions as a sign to structure each film's narrative and thematic design. Illustrated. [The A to Z of German Cinema](#) Robert C. Reimer, Carol J. Reimer, 2010-04-01. German film is diverse and multifaceted; its history includes five distinct German governments: Wilhelmine Germany, the Weimar Republic, the Third Reich, the Federal Republic of Germany, and the German Democratic Republic; two national industries: Germany and Austria; and a myriad of styles and production methods. Paradoxically, the political disruptions that have produced these distinct film eras as well as the natural inclination of artists to rebel and create new styles allow for the construction of a narrative of German film. While the disjuncture generates distinct points of separation, it also highlights continuities between the ruptures. Outlining the richness of German film, *The A to Z of German Cinema* covers mainstream, alternative, and experimental film from 1895 to the present through a chronology, introductory essay, appendix of the 100 most significant German films, a bibliography, and hundreds of cross-referenced dictionary entries on directors, actors, films, cinematographers, composers, producers, and major historical events that greatly affected the direction and development of German cinema. The book's broad canvas will lead students and scholars of cinema to appreciate the complex nature of German film. **National Union Catalog**, 1973. Includes entries for maps and atlases.
