Borneo one of the most imperiled ecosystems on earth Insatiable demand for the palm oil ubiquitous in consumer goods is wiping out the world's most ancient and species rich rain forest home to the orangutan and countless other life forms including the Penan people with whom Alex and Davie camp The Penan have been living in Borneo's rain forest for millennia but 90 percent of the lowland rain forest has already been logged and burned to make way for vast oil palm plantations Among the most endangered tribal people on earth the Penan are fighting for their right to exist Shoumatoff condenses a lifetime of learning about what binds humans to animals nature and each other culminating in a celebration of the Penan and a call for Westerners to address the palm oil crisis and protect the biodiversity that sustains us all Encyclopedia of the Blues Gérard Herzhaft,1997-01-01 The popular Encyclopedia of the Blues first published by the University of Arkansas Press in 1992 and reprinted six times has become an indispensable reference source for all involved with or intrigued by the music The work alphabetizes hundreds of biographical entries presenting detailed examinations of the performers and of the instruments trends recordings and producers who have created and popularized this truly American art form **Finding the Groove** Robert Gelinas,2009-05-26 A jazz shaped faith balances freedom with boundaries the individual with the group and traditions with the pursuit of what might be I have discovered in jazz a way of thinking living communicating a way of being a groove You don't have to be a jazz musician or even a jazz connoisseur for this book to speak to you If you love God and his Word and if you've longed to follow Jesus Christ outside the slick corporate structures that some American churches erect this book is for you If you want to discover a freer more genuine expression of Christianity Finding the Groove will be music to your ears your heart and your mind Using brilliant metaphors from the world of jazz Robert Gelinas reveals breathtaking possibilities for the body of Christ What might a jazz shaped faith look like and how could it help us fulfill the message of the gospel in a way no method movement or structured program ever could How can understanding the beauty of jazz help you better understand Jesus his vision for those who follow him and his heartbeat for a world that is badly out of sync But this book isn't about music It is about a passionate biblical fully integrated way of looking at life and salvation that will free you to find your own unique groove in the kingdom of God **Best of 2015** ,2015-10-17 Selections from Trinity University Press's best books of 2015 Bird Songs from Around the World Les Beletsky,2007-09-20 Introduces two hundred birds from six continents with brief descriptions color illustrations and audio recordings of songs and calls which can be played with the attached digital audio player **The Way of Music** Robin Maconie,2007 Here at last is a listener's guide to the hidden meanings of western classical music expressed in accessible jargon free language and drawing on universal listening experiences and skills The Way of Music is six booklets in one volume it is a study guide in attention training listening skills and music appreciation for students teachers and the general reader Each book is complete in itself to be read and used as part of a multilayered database of musical meaning Alternating aphorism and explanation Books 1 and 2 inquire into hearing and communication processes using the example of a barking dog while Books 3 and 4 extend the

So You Want to Sing Music by Women Matthew Hoch, Linda Lister, 2019-03-15 *So You Want to Sing Music by Women* opens wide a vast repertoire of vocal music written by women to advocate for widespread inclusion of this too often neglected work in performance repertoire Hoch and Lister provide a historical and contemporary

perspective chronicling the Western art music canon while also addressing contemporary trends in music theater and CCM. In addition to providing a historical overview and social context in which women created music, this volume explores the music of hundreds of historical and contemporary women composers such as Hildegard von Bingen, Clara Schumann, Lili Boulanger, Cathy Berberian, Erykah Badu, and Sara Bareilles. In addition to discussions of art song, opera, choral music, and avant garde experimental music, Erin Guinup and Amanda Wansa Morgan also contribute chapters devoted to music theater, CCM, and advocacy for women composers. Interviews with high profile composers including Lori Laitman, Rosephanye Powell, Meredith Monk, and Georgia Stitt provide accounts from the frontlines of today's composing world. Additional chapters by Scott McCoy and Wendy LeBorgne address vocal technique and health, and Matthew Edwards provides guidance for working with sound technology. The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing. Like all books in the series, *So You Want to Sing: Music by Women* features online supplemental material on the NATS website.
