## **The Booming Fifties 1950/1960:**

*Legends in Their Time* George Sherwood, 2006-02-03 This book chronicles the early lives of 18 young people who influenced the direction of the history of Canada

**The Booming Fifties, 1950/1960** Alexander Ross, 1977 *Whatever Happened to Mary Janeway?* Mary Pettit, 2012-06-30 Home child Mary Janeway runs away from her farm placement grows into adulthood and ultimately comes to terms with life in Hamilton Ontario Sixteen year old Mary Janeway a home child is desperate to escape from her rural home child placement and flees to London Ontario to find a domestic position When conditions become unbearable she moves on vowing never to relinquish her freedom again After she arrives in Hamilton as a young bride she quickly adapts to the urban conveniences and the marvels of new inventions that include electric sewing machines sulphur matches street stoplights a one horsepower Brunswick refrigerator the advent of the zipper and the beginning of radio But even the latest technology can't stop the ravages of disease and other family tragedies Mary lives through two world wars the Spanish Influenza and the Great Depression In spite of many hardships she remains a strong resilient woman well into her senior years and makes many contributions to Hamilton the city she calls home

*You Had to Be There* Robert Collins, 2012-11-13 They gained their maturity in an age of monumental and unprecedented change from horse and buggy Model T Ford and crank telephone to moonwalks space shuttles and the Internet They are better educated more affluent more vigorous and longer lived than any generation before them yet obstinately cling to a forthright simplicity no generation is likely to regain They are proudly old fashioned in their outlook hardworking and frugal in their ways They are the last enthusiastic patriots the last to accept authority with respect They are the last generation to have reached adulthood without television credit cards computers or the Pill Their younger critics may call them old fogies Robert Collins calls them Generation M for mature In *You Had to Be There* Robert Collins gives us the entire history of this extraordinary and hugely influential generation Through this fascinating story he weaves the voices of Canadians from across the country who speak with humour regret and passion about the hardships and triumphs of their lives and about the widening gap between themselves and the rest of Canada Generation gaps are as old as humankind but rarely has there been as much misunderstanding and veiled animosity as there is between young and old today Robert Collins accounts for the prejudices pokes fun at the rivalries and with humour and sympathy invites younger Canadians to re-examine their parents or grandparents lives and consider maybe for the first time the true proportion of their legacy

*Fifty Years of Causes of Delinquency, Volume 25* James C. Oleson, Barbara J. Costello, 2019-11-19 This volume marks the 50th anniversary of the publication of Travis Hirschi's seminal work *Causes of Delinquency* The influence of Hirschi's book and the theory of social control it described can scarcely be overstated Social control theory has been empirically tested or commented on by hundreds of scholars and is generally regarded as one of the three dominant theories of crime The current work highlights the impact that social control theory has had on criminological theory and research to date Agnew's contribution highlights

the role that Hirschi's tests of control versus strain theory had in contributing to the near demise of classic strain theories and to the subsequent development of general strain theory Serrano Maillo relates control to drift and Todor and Hope compare the human nature assumptions of control theory to the current psychological literature Other contributions return to Hirschi's original Richmond Youth Survey RYS data and demonstrate the robustness of Hirschi's major findings Costello and Anderson find strong support for Hirschi's predictions in an analysis of a diverse group of youths in Fayetteville Arkansas in 1999 Nofziger similarly finds support for Hirschi's predictions with an analysis of the girls in the RYS and explores the criticisms of social control theory that were the result of Hirschi's failure to analyze the data from the girls in the sample Kempf Leonard revisits her seminal 1993 survey of control theory and reviews the current empirical status of control theory Other contributions explore new directions for both social control theory and self control theory The contribution by Cullen Lee and Butler holds that one element of the social bond commitment was under theorized by Hirschi and the authors present a more in depth development of the concept Quist explores the possibility of expanding social control theory to explicitly incorporate exchange theory concepts Ueda and Tsutomi apply control theory cross culturally to a sample of Japanese students and Felson uses control theory to organize criminological ideas Vazsonyi and Javakhishvili's contribution is an empirical analysis of the connections between social control in early childhood and self control later in life Chapple and McQuillan's contribution suggests that the gender gap in delinquency is better explained by increased controls in girls than by gendered pathways to offending Oleson traces the evolution of Hirschi's control theory and suggests that given the relationships between fact and theory a biosocial model of control might be a promising line of inquiry Fifty Years of Causes of Delinquency The Criminology of Travis Hirschi describes the current state of control theory and suggests its future directions as well as demonstrates its enduring importance for criminological theory and research The volume will be of interest to scholars working in the control theory tradition as well as those critical of the perspective and is suitable for use in graduate courses in criminological theory

Home Children Bundle Mary Pettit, Gail H. Corbett, Marjorie Kohli, Kenneth Bagnell, 2013-12-26 In the early years after Confederation in Canada the rising nation needed workers that could take advantage of the abundant resources Until the time of the Depression 100 000 impoverished children from the British Isles were sent overseas by well meaning philanthropists to solve the colony's farm labour shortage They were known as the home children and they were lonely and frightened youngsters to whom a new life in Canada meant only hardship and abuse This bundle of titles tells the entire story from many angles and in its many facets from historical recounting to genealogical information to the personal story one such child Mary Janeway Includes The Golden Bridge The Little Immigrants Mary Janeway Nation Builders Whatever Happened to Mary Janeway

**Beaver Bites Back?** David H. Flaherty, Frank E. Manning, 1993-12-01 The contributing authors explore three aspects of American culture its transmission by means of print and broadcast media and through live events in sport entertainment religious evangelism and other public productions its

influence on Canadian popular culture and the variety of Canadian responses They suggest that the Canadian version of American popular culture is far more than a copy Instead it is frequently a creative response often parodic in tone and subversive in intent that gives public expression to Canadian sentiment and sensibility and provides protection from and resistance to American domination Ironically it may be in responding to American culture that Canadian sovereignty finds its most meaningful and potent articulation Specialists and scholars from a wide variety of disciplines the contributors discuss a range of cultural forms and performances Each example while made in Canada is related to an American alternative but has a large Canadian audience Taking a rich variety of perspectives on this complex relationship *The Beaver Bites Back* demands that Canadian popular culture be accorded its proper status The contributors are G Stuart Adam Michael M Ames Robert Knight Barney Seth Feldman Bruce Feldhusen David H Flaherty Reid Gilbert Andrew Lyons Harriet Lyons John MacAloon Frank E Manning Thelma McCormack Mary Jane Miller Bernard Ostry Charline Poirier Paul Rutherford Robert A Stebbins Michael Taft Geoffrey Wall and Andrew Wernick

*At Odds* Suzanne Morton, 2003-01-01 Using a rich variety of historical sources Suzanne Morton traces the history of gambling regulation in five Canadian provinces Nova Scotia Quebec Ontario Manitoba and B C from the First World War to the federal legalization in 1969 This regulatory legislation designed to control gambling ended a long period of paradox and pretence during which gambling was common but still illegal Morton skilfully shows the relationship between gambling and the wider social mores of the time as evinced by labour governance and the regulation of vice Her focus on the ways in which race class and gender structured the meaning of gambling underpins and illuminates the historical data she presents She shows for example as Old Canada the Protestant Anglo Celtic establishment declined in influence gambling took on a less deviant connotation a process that continued as charity became secularized and gambling became a lucrative fundraising activity eventually linked to the welfare state *At Odds* is the first Canadian historical examination of gambling a complex topic which is still met by moral ambivalence legal proscription and volatile opinion This highly original study will be of interest to the undergraduate history or social science student but will also hold the attention of a more general reader

**No Choice** The Childbirth by Choice Trust, 2023-05-24 Twenty five years after its publication in 1998 *No Choice* remains an essential read in Canada and around the world where abortion rights are still under threat These stories spanning six decades illustrate the terrifyingly dangerous means that people will resort to in order to end a pregnancy This digital edition includes the original foreword from Doris Anderson a new foreword and a review from Michele Landsberg *No Choice* should be required reading for every student every daughter every elected man or woman who dares to think of meddling ever again with women s reproductive rights

Couture & Commerce Alexandra Palmer, Royal Ontario Museum, 2001 The 1950s were the golden years of haute couture captured by iconic images of glamorous models wearing dramatic clothes Yet the real women who wore these clothes adapted them to suit their own tastes altered them to extend their life and often could not bear to part with them long after the dresses had outlived their use This gorgeously

illustrated book demonstrates why so many of these designs are still in existence and why we are fascinated by them fifty years later Couture and Commerce investigates how and why postwar couture fashion was important in its own day The Paris couture houses survived due to the enthusiasm of the North American fashion press and commercial buyers Alexandra Palmer traces the European haute couture trade with North America by following actual surviving couture dresses from the design house sketch through the model used in New York fashion shows and as a template for copies and knock offs and finally to the consumer Couture and Commerce is a remarkable mixture of accessible text color photographs of the original garments design house sketches and photographs retailers advertisements and society page images Weaving together analysis of the clothes and interviews with those who traded sold and wore couture Alexandra Palmer vividly recreates the 1950s fashion world

**American Literature in Transition, 1950-1960** Steven Belletto,2017-12-28 American Literature in Transition 1950 1960 explores the under recognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts institutions cultures and social phenomena important to the decade The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s The second section demonstrates the range of subject positions important in the 1950s but still not visible in many accounts of the era The third section explores key literary schools or movements associated with the decade and explains how and why they developed at this particular cultural moment The final section focuses on specific forms or genres that grew to special prominence during the 1950s Taken together the chapters in the

four sections not only encourage us to rethink familiar texts and figures in new lights but they also propose new archives for future study of the decade     Maryland's Future-- the Next Fifty Years ,1984     Toronto Since 1918 James T. Lemon,1985 During the twentieth century Torontonians have gone from pitying Cabbagetowners to envying them from watching Lionel Conacher at a sandlot to watching the Blue Jays at the SkyDome This book chronicles the immense changes that Canada s largest city has undergone in this frenetic period In 1918 Toronto was a provincial city with a half million inhabitants overwhelmingly British Protestant and Tory Today the city is undeniably world class its three million inhabitants gathered from all over the polyglot globe Despite this metamorphosis however Toronto s resilient social fabric endures Urban planners consider Toronto the city that works other Canadians know it works sometimes perhaps too hard and too well Toronto Since 1918 gathers the manifold strands of this great urban tapestry bringing the city to life with an incisive engaging text illustrated with more than 150 historical photographs     **Social Security Bulletin** ,2012     **The Schools of Ontario, 1876-1976** Robert M.
