Smuggling of illegal drugs into the U S is a major problem The three major drugs of foreign source cocaine heroin and marijuana are the products traded by a criminal enterprise whose sales total 50 billion annually Federal efforts to stop or deter international narcotics trafficking have met with limited success This report analyzes Federal drug interdiction efforts and reports on future technological improvements Describes technologies in use and potentially available for countering smuggling by the various modes private vessels private aircraft land vehicles commercial carriers and through official ports of entry Photos     [The Three U.S.-Mexico Border Wars](#) Tony Payan,2016-10-11 This book addresses the three central issues that continue to dominate the U S Mexico relationship today drugs immigration and security Nowhere is this more palpable than at the 2 000 mile border shared by the two countries The U S Mexico border remains a hot topic in the news and a contentious one This second edition of a popular work brings readers up to date on what is really going on at the U S Mexico border and why The book offers a detailed history based examination of the evolution of current conditions on the border arguing that they exist due to a steady growth in the security concerns of the United States over almost two centuries The author shows how the border has gone through four historical stages that ultimately have crippled the region sacrificing its ability to produce prosperity in exchange for greater security Combining depth and breadth the book covers the economic relationship between Mexico and the United States the deployment of technology the bureaucratic interests that control the border landscape the democratic deficit and a detrimental lack of policy coordination Issues such as drug trafficking and homeland security are considered as well Demonstrating the internal and contradictory logic of American policy toward the border the author argues that current conditions could lead to a return of authoritarianism in Mexico and a concurrent rise in anti American sentiment     **The Border War on Drugs** ,1987     *Covering the Border War* Sang Hea Kil,2019-11-08

*Covering the Border War* How the News Media Create Crime Race Nation and the USA Mexico Divide examines the notion of the body politic in border newspaper coverage of the USA Mexico divide and how the nation and immigration are racially imagined in crime news discourse where whiteness is associated with order and brownness is associated with disorder in a variety of imaginative nativist ways By applying critical discourse analysis methodology to the Los Angeles Times Arizona Republic Albuquerque Journal and Houston Chronicle during a peak epoch of border militarization policies 1993 2006 brownness emerges through a news crime frame that reflexively shows the values and meanings of whiteness and the nation At the body scale border crossings threaten the whiteness of the national body through suggestions of rape and disfigurement Border news discourse feminizes the nation with nurturing resources and services under threat of immigrant rape as well as expresses racial anxiety about a changing face of the nation Border news coverage constructs immigrants as home intruders at the house scale both human and animal Whiteness at this scale reflexively signifies a law abiding rightful

owner of property protecting against criminal trespassing Brown immigrants are also seen as wild animals which constructs whiteness burdened with the task of animal management Whiteness at the regional scale suggests a masculinized militarized battleground or a settled region threatened by a brown cataclysmic flood Finally the nation scale complements the body scale but in a more contemporary and scientific way Whiteness reflects a body politic fighting the disease of cancer immigration in two ways with an imagined militaristic immune system and with hi tech aggressive operations This diseased body politic communicates whiteness and nativism about the border through discursive border symptoms and border operations that represent the intersection of immunology discourse the racial construction of the body politic and anxiety about postmodern economic transformation and its impact on national borders

**The New Border Wars** Klaus Dodds, 2021-09-28 An enlightening look at contemporary border tensions from the Gaza Strip to the space race by one of the world's leading experts in geopolitics Border expert Klaus Dodds journeys into the geopolitical clashes of tomorrow in an eye opening tour of border walls both literal and figurative In the Himalayas the Mediterranean and elsewhere the tension inherent to trying to divide the world into separate parcels has not gone away And with climate change shifting our natural borders from mountains to glaciers to rivers the question of how we live in a world that's becoming warmer and wetter and growing in population looms large With wide ranging insight and provocative analysis Dodds shows why we are more likely to see more walls barriers and securitization in our daily lives The New Border Wars examines just what borders truly mean in the modern world How are they built what do they signify for citizens and governments and how do they help us understand our political past and most importantly our diplomatic future

**Run for the Border** Steven Bender, 2012-05-13 Arguing for immigration reform based on negotiation and cross border accord offers an historical analysis of border crossings both Mexico to the United States and the United States to Mexico revealing the symbiotic relationship between the two countries and their shared economic and cultural legacy

The Immigration Law Death Penalty Sarah Tosh, 2023-10-10 Traces the role of the aggravated felony in today's deportation regime In immigration courts across America a non citizen convicted of an aggravated felony will almost certainly face deportation with no access to asylum However despite the ominous sounding name aggravated felonies need not be either aggravated or felonies The term encompasses more than thirty offenses ranging from check fraud and shoplifting to filing a false tax return The recent expansion in the list of such offenses has resulted in astronomical rates of deportation This book chronicles the rise of the use of the aggravated felony known by lawyers as the immigration law death penalty to criminalize and then deport immigrants Immigrants convicted of aggravated felonies are subject to mandatory detention and almost certain deportation and are ineligible for almost all forms of legal relief from removal Furthermore immigrants convicted of aggravated felonies can be detained for months or even years without bond are not guaranteed lawyers and can even be deported without an opportunity to plead their case in court Sarah Tosh provides the first in depth understanding of how aggravated felonies have been used to deport thousands of documented and

undocumented immigrants and how the severe expansive and racially disparate outcomes have been met with innovative legal responses bolstered by networks of community based resistance The Immigration Law Death Penalty is an urgent read for anyone committed to protecting the rights of immigrants nationwide

**Social Justice in the U.S.-Mexico Border Region** Mark Lusk,Kathleen Staudt,Eva Moya,2012-06-12 The U S Mexico Border Region is among the poorest geographical areas in the United States The region has been long characterized by dual development poor infrastructure weak schools health disparities and low wage employment More recently the region has been affected by the violence associated with a drug and crime war in Mexico The premise of this book is that the U S Mexico Border Region is subject to systematic oppression and that the so called social pathologies that we see in the region are by products of social and economic injustice in the form of labor exploitation environmental racism immigration militarism institutional sexism and discrimination health inequities a political economy based on low wage labor and the globalization of labor and capital The chapters address a variety of examples of injustice in the areas of environment health disparity migration unemployment citizenship women and gender violence mental health and drug violence The book proposes a pathway to development

*A War that Can't Be Won* Tony Payan,Kathleen Staudt,Z. Anthony Kruszewski,2013-10-17 More than forty years have passed since President Richard Nixon described illegal drugs as public enemy number one and declared a War on Drugs Recently the United Nations Global Commission on Drug Policy declared that the global war on drugs has failed with devastating consequences for individuals and societies around the world Arguably no other country has suffered as much from the War on Drugs as Mexico From 2006 to 2012 alone at least sixty thousand people have died Some experts have said that the actual number is more than one hundred thousand Because the war was conceived and structured by US policymakers and officials many commentators believe that the United States is deeply implicated in the bloodshed *A War that Can't Be Won* is the first book to include contributions from scholars on both sides of the US Mexico border It provides a unique breadth of perspective on the many dimensions of the societal crisis that affects residents of both nations particularly those who live and work in the borderlands It also proposes practical steps toward solving a crisis that shows no signs of abating under current policies Each chapter is based on well documented data including previously unavailable evidence that was obtained through freedom of information inquiries in Mexico By bringing together views from both sides of the border as well as from various academic disciplines this volume offers a much wider view of a complex problem and possible solutions

**Drug Wars** Claudia Martin,2017-12-15 The violence that surrounds drug dealing and drug trafficking has decimated whole communities and in some cases reshaped daily life in entire countries This volume takes a closer look at the people affected by the drug trade and the efforts being made to combat it The book includes firsthand stories critical thinking questions and a summative activity all with the aim of showing the human toll of the drug economy

**A War that Can't Be Won** Tony Payan,Kathleen Staudt,Z. Anthony Kruszewski,2013-10-17 Forty years after Richard Nixon declared a War on Drugs this sobering book offers views of the narco

wars from scholars on both sides of the US Mexico border With evidence newly obtained through freedom of information inquiries in Mexico it proposes practical solutions to a seemingly intractable crisis      Border Politics in a Global Era Kathleen Staudt,2017-06-16 Initially research in border studies relied mainly on generalizations from cases in the US Mexico borderlands before subsequently burgeoning in Europe Border Politics in a Global Era seeks to expand the study further to include the post colonial South in response to the major challenge of interdisciplinary border studies to explore borderlands in many contexts with and across a variety of states including the so called developing post colonial states Culled from decades of firsthand observations of borders from around the world and written with a critical and gender lens the text is framed with attention to history geography and the power of films and travelogues to represent people as others Professor Kathleen Staudt advances border concepts categories and theories to focus on trade migration and security highlighting the importance of states their length of time since independence and border bureaucrats discretionary practices Drawing on her Border Inequalities Database for a global perspective Staudt calls for reducing inequalities and building institutions in the common grounds of borderlands The book features maps and other visuals with lists of links at the close of most chapters Broadly comparative in nature Border Politics in a Global Era will appeal not only to students of border studies it will also stimulate attention in comparative politics international studies and political geography      The Borderlands Andrew Grant Wood,2008-01-30 The more than 2 000 mile U S Mexico border is a focus of intense interest today as immigration security and environmental issues dominate the headlines This is the first A to Z encyclopedia to overview the unique and vibrant elements that make up the borderlands More than 150 essay entries provide students and general readers with a solid sense of the U S Mexico border history culture and politics Coverage runs the gamut from key historical and contemporary figures art cuisine sports and religion to education environment legislation radio rhetoric slavery tourism and women in Ciudad Juarez The more than 2 000 mile U S Mexico border is a focus of intense interest today as immigration security and environmental issues dominate the headlines This is the first A to Z encyclopedia to overview the unique and vibrant elements that make up the borderlands More than 150 essay entries provide students and general readers with a solid sense of the U S Mexico border history culture and politics Coverage runs the gamut from key historical and contemporary figures art cuisine sports and religion to education environment legislation radio rhetoric slavery tourism and women in Ciudad Juarez Alphabetical and topical lists of entries in the frontmatter allow readers to find topics of interest quickly as does the index Those looking for more in depth coverage will find many helpful suggestions in the Further Reading section per entry as well as in the Selected Bibliography A chronology and historical photos also complement the text      *Good-Bye Hegemony!* Simon Reich,Richard Ned Lebow,2014-03-23 Many policymakers journalists and scholars insist that U S hegemony is essential for warding off global chaos Good Bye Hegemony argues that hegemony is a fiction propagated to support a large defense establishment justify American claims to world leadership and buttress the self esteem of voters It is

also contrary to American interests and the global order Simon Reich and Richard Ned Lebow argue that hegemony should instead find expression in agenda setting economic custodianship and the sponsorship of global initiatives Today these functions are diffused through the system with European countries China and lesser powers making important contributions In contrast the United States has often been a source of political and economic instability Rejecting the focus on power common to American realists and liberals the authors offer a novel analysis of influence In the process they differentiate influence from power and power from material resources Their analysis shows why the United States the greatest power the world has ever seen is increasingly incapable of translating its power into influence Reich and Lebow use their analysis to formulate a more realistic place for America in world affairs *A New Leaf* Alyson Martin,Nushin Rashidian,2015-02-03 Two award winning journalists offer a cogent well sourced and ambitious analysis of the slow decline of cannabis prohibition in the United States Kirkus Reviews In November 2012 voters in Colorado and Washington passed landmark measures to legalize the production and sale of cannabis for social use a first in the United States and the world Once vilified as a gateway drug cannabis is now legal for medical use in eighteen states and Washington DC Yet the federal government refuses to acknowledge these broader societal shifts 49 5 percent of all drug related arrests involve the sale manufacture or possession of cannabis In the first book to explore the new landscape of cannabis in the United States investigative journalists Alyson Martin and Nushin Rashidian demonstrate how recent cultural and legal developments tie into cannabis s complex history and thorny politics Reporting from nearly every state with a medical cannabis law Martin and Rashidian interview patients growers doctors entrepreneurs politicians activists and regulators *A New Leaf* moves from the federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon s World Famous Cannabis Caf The result is a lucid account of how cannabis legalization is changing the lives of millions of Americans and easing the burden of the war on drugs both domestically and internationally **Congressional Record** United States. Congress,2008 *Human Rights Along the U.S.-Mexico Border* Kathleen A. Staudt,Tony Payan,Z. Anthony Kruszewski,2009-11-15 Much political oratory has been devoted to safeguarding America s boundary with Mexico but policies that militarize the border and criminalize immigrants have overshadowed the region s widespread violence against women the increase in crossing deaths and the lingering poverty that spurs people to set out on dangerous northward treks This book addresses those concerns by focusing on gender based violence security and human rights from the perspective of women who live with both violence and poverty From the Pacific to the Gulf of Mexico scholars from both sides of the 2 000 mile border reflect expertise in disciplines ranging from international relations to criminal justice conveying a more complex picture of the region than that presented in other studies Initial chapters offer an overview of routine sexual assaults on women migrants the harassment of Central American immigrants at the hands of authorities and residents corruption and counterfeiting along the border and near death experiences of border crossers Subsequent chapters then connect analysis with solutions in the form of

institutional change social movement activism policy reform and the spread of international norms that respect human rights as well as good governance These chapters show how all facets of the border situation globalization NAFTA economic inequality organized crime political corruption rampant patriarchy promote gendered violence and other expressions of hyper masculinity They also show that U S immigration policy exacerbates the problems of border violence in marked contrast to the border policies of European countries By focusing on women s everyday experiences in order to understand human security issues these contributions offer broad based alternative approaches and solutions that address everyday violence and inattention to public safety inequalities poverty and human rights And by presenting a social and democratic international feminist framework to address these issues they offer the opportunity to transform today s security debate in constructive ways

**The Politics of Drug Violence** Angélica Durán-Martínez, 2018 Over the last few decades drug trafficking organizations in Latin America became infamous for their shocking public crimes from narcoterrorist assaults on the Colombian political system in the 1980s to the more recent wave of beheadings in Mexico However while these highly visible forms of public violence dominate headlines they are neither the most common form of drug violence nor simply the result of brutality Rather they stem from structural conditions that vary from country to country and from era to era In *The Politics of Drug Violence* Angelica Dur n Mart nez shows how variation in drug violence results from the complex relationship between state power and criminal competition Drawing on remarkably extensive fieldwork this book compares five cities that have been home to major trafficking organizations for the past four decades Cali and Medellín in Colombia and Ciudad Juárez Culiacán and Tijuana in Mexico She shows that violence escalates when trafficking organizations compete and the state security apparatus is fragmented However when the criminal market is monopolized and the state security apparatus cohesive violence tends to be more hidden and less frequent The size of drug profits does not determine violence levels and neither does the degree of state weakness Rather the forms and scale of violent crime derive primarily from the interplay between marketplace competition and state cohesiveness An unprecedentedly rich empirical account of one of the worst problems of our era the book will reshape our understanding of the forces driving organized criminal violence in Latin America and elsewhere
