Nastasi, Massimiliano Manfren, Michel Noussan, 2020-06-25 Open data and policy implications coming from data aware planning entail collection and pre and postprocessing as operations of primary interest Before these steps making data available to people and their decision makers is a crucial point Referring to the relationship between data and energy public administrations governments and research bodies are promoting the construction of reliable and robust datasets to pursue policies coherent with the Sustainable Development Goals as well as to allow citizens to make informed choices Energy engineers and planners must provide the simplest and most robust tools to collect process and analyze data in order to offer solid data based evidence for future projections in building district and regional systems planning This Special Issue aims at providing the state of the art on open energy data analytics its availability in the different contexts i.e. country peculiarities and its availability at different scales i.e. building district and regional for data aware planning and policy making For all the aforementioned reasons we encourage researchers to share their original works on the field of open data and energy analytics Topics of primary interest include but are not limited to the following 1 Open data and energy sustainability 2 Open data science and energy planning 3 Open science and open governance for sustainable development goals 4 Key performance indicators of data aware energy modelling planning and policy 5 Energy water and sustainability database for building district and regional systems 6 Best practices and case studies *Beneath the Bottom Line*, 1990 **The Bottom Line-**

Back to Basics Ray Cizco, 2005 Many businesses fail today but not because of poor financing outdated technology or lack of qualified employees They fail because they lack the very basic elements that are characteristic of all successful businesses They have become reliant on high priced consultants to advise them on a course of action to make their companies profitable without looking internally for the answers that are already there Businesses look to technology as the answer for many of all of their financial shortcomings Rather than increasing revenues through aggressive and creative sales programs they opt for the short sighted approach of cutting expenses and dispensing with valuable experienced employees But there is another option As a struggling golfer must step back and reexamine his setup approach and follow through so too must company owners step back and reexamine the mechanics of their business They do not need to reinvent the wheel they need to use the wheel It is time for businesses to concentrate on The Bottom Line and get Back to Basics **Life at the Bottom of**

Babylonian Society Jonathan S. Tenney, 2011-07-12 Life at the Bottom of Babylonian Society is a study of the population dynamics family structure and legal status of publicly controlled servile workers in Kassite Babylonia It compares some of the demographic aspects proper to this group with other intensively studied past populations such as Roman Egypt Medieval

Tuscany and American slave plantations It suggests that families especially those headed by single mothers acted as a counter measure against population reduction flight and death and as a means for the state to control this labor force The work marks a step forward in the use of quantitative measures in conjunction with cuneiform sources to achieve a better understanding of the social and economic forces that affected ancient Near Eastern populations *Attention and Performance in Computational Vision* Lucas Paletta,2005-01-21 This book constitutes the thoroughly refereed post proceedings of the Second International Workshop on Attention and Performance in Computational Vision WAPCV 2004 held in Prague Czech Republic in May 2004 The 16 revised full papers presented together with an invited paper were carefully selected during two rounds of reviewing and improvement The papers are organized in topical sections on attention in object and scene recognition architectures for sequential attention biologically plausible models for attention and applications of attentive vision The Churchman ,1918 **Fourth Revolution and the Bottom Four Billion** Nir Kshetri,2023-04-18 Products and services based on advanced technologies such as artificial intelligence and blockchain are normally considered to be for rich consumers in advanced countries Fourth Revolution and the Bottom Four Billion demonstrates how marginalized and vulnerable groups with limited resources can also benefit from these technologies Nir Kshetri suggests that the falling costs and the increased ease of developing and deploying applications based on these technologies are making them more accessible He illustrates how key emerging technologies are transforming major industries and application areas such as healthcare and pandemic preparedness agriculture finance banking and insurance The book also looks at how these transformations are affecting the lives of low income people in low and middle income countries and highlights the areas needing regulatory attention to adequately protect marginalized and vulnerable groups from the abuse and misuse of these technologies Kshetri discusses how various barriers such as the lack of data low resource languages underdeveloped technology infrastructures lack of computing power and shortage of skill and talent have hindered the adoption of these technologies among marginalized and vulnerable groups Fourth Revolution and the Bottom Four Billion suggests that it is the responsibility of diverse stakeholders governments NGOs international development organizations academic institutions the private sector and others to ensure that marginal groups also benefit from these transformative innovations A Small Celestial Atlas, Or, Maps of the Visible Heavens .. 3rd Ed., Corr. and Improved Moses Holden,1834 **A Small Celestial Atlas, Or, Maps of the Visible Heavens; Designed ... for the Young Student, Etc** Moses Holden,1818 The World Map Project Mary Koller,Margaret Legowski,1995 This handbook can be used by anyone with an interest in mapmaking The step by step guide shows how to draw plan and color a one of a kind world map There is a list of materials supplies worksheets and a trouble shooting appendix for special situations The guide also provides a variety of enrichment activities to promote continued involvement with the world map The activities stress cooperative problem solving for participants of all ages There are three parts in the guide 1 How to Make Your World Map 2 How to Use Your World Map and 3 Resources for
