Suicide in Asia Paul S.F. YIP, 2008-09-01 Over one million people worldwide commit suicide every year and more than 60% of suicide deaths occur in Asia However very little reliable information is available to permit a good understanding of the multifaceted and complex issues involved in suicide prevention in the region This book provides

detailed analyses of suicide in eight Asian societies While each society has its own unique characteristics Asia as a whole is under rapid transition and transformation and the associated stress and depression are both closely linked to suicide Hopefully a better evidence based understanding of suicide will enable governments and non government organizations to establish effective and culturally sensitive suicide prevention strategies for the region
