Suitable Piece Of Real Estate American:

Rebalancing U.S. Forces Andrew Sven Erickson, Carnes Lord, 2014-05-15 As the U S military presence in the Middle East winds down Asia and the Pacific are receiving increased attention from the American national security community The Obama administration has announced a rebalancing of the U S military posture in the region in reaction primarily to the startling improvement in Chinese air and naval capabilities over the last decade or so This timely study sets out to assess the implications of this shift for the long established U S military presence in Asia and the Pacific This presence is anchored in a complex basing infrastructure that scholars and Americans generally too often take for granted In remedying this state of affairs this volume offers a detailed survey and analysis of this infrastructure its history the political complications it has frequently given rise to and its recent and likely future evolution American seapower requires a robust constellation of bases to support global power projection Given the rise of China and the emergence of the Asia Pacific as the center of global economic growth and strategic contention nowhere is American basing access more important than in this region Yet manifold political and military challenges stemming not least of which from rapidly improving Chinese long range precision strike capabilities complicate the future of American access and security here This book addresses what will be needed to maintain the fundamentals of U S seapower and force projection in the Asia Pacific and where the key trend lines are headed in that regard This book demonstrates that U S Asia Pacific basing and access is increasingly vital yet increasingly vulnerable It demands far more attention than the limited coverage it has received to date and cannot be taken for granted More must be done to preserve capabilities and access upon which American and allied security and prosperity depend **A Suitable Piece of Real Estate** Desmond Ball, 1980 *A Little America in Western Australia* Anthony J. Barker, 2015 In 1963 the US Naval Communication Station at North West Cape in Western Australia became the first US defense facility to be established on Australian soil in peacetime During America s Cold War struggle against communism North West Cape s primary function was to communicate with the US fleet in the Indian and Western Pacific Oceans especially nuclear missile submarines the Navy s most powerful deterrent force Seen as a vital outpost of US defense throughout the 1960s and 1970s the whole venture was just as monumental for Australia This book represents an important and long overdue history of the significance of North West Cape for Australia US relations and Australian politics paying special attention to the town of Exmouth that was uniquely created to support the base Drawing on archival records and oral interviews *A Little America in Western Australia* brings to light the experiences of Australian civilians and US Navy personnel in a fascinating and often humorous portrait of life at the Cape Librarians ebook available on ProQuest and EBSCO welcome addition to military and nautical history collections highly recommended especially for college library shelves Midwest Book Review Library Bookwatch September 2015 The Nautical Shelf Subject Military History Naval Studies US Studies Australian Studies Politics *Killing Hope* William Blum, 2003-07-31 Is the United States a force for democracy From China in the 1940s to Guatemala today

William Blum presents a comprehensive study of American covert and overt interference by one means or another in the internal affairs of other countries Each chapter of the book covers a year in which the author takes one particular country case and tells the story and each case throws light on particular US tactics of intervention **India's Ocean** David Brewster,2014-03-26 This book assesses India s role as a major power in the Indian Ocean Many see the Indian Ocean as naturally falling within India s sphere of influence but as this book demonstrates India has a long way to go before it could achieve regional dominance The book outlines the development of Indian thinking on its role in the Indian Ocean and examines India s strategic relationships in the region including with maritime South Asia the Indian Ocean islands East Africa the Middle East Southeast Asia and Australia The book then discusses India s ambivalent relationship with the United States and explores its attitude towards China s growing power in the Indian Ocean It concludes by discussing the region s evolving strategic order does India have what it takes to become the leading power in the region *The Puzzle Palace* James Bamford,2020-06-11 The first book ever written on the National Security Agency from the New York Times bestselling author of *Body of Secrets* and *The Shadow Factory* In this groundbreaking award winning book James Bamford traces the NSA s origins details its inner workings and explores its far flung operations He describes the city of fifty thousand people and nearly twenty buildings that is the Fort Meade headquarters of the NSA where there are close to a dozen underground acres of computers where a significant part of the world s communications are monitored and where reports from a number of super sophisticated satellite eavesdropping systems are analyzed He also gives a detailed account of NSA s complex network of listening posts both in the United States and throughout much of the rest of the world When a Soviet general picks up his car telephone to call headquarters when a New York businessman wires his branch in London when a Chinese trade official makes an overseas call when the British Admiralty urgently wants to know the plans and movements of Argentina s fleet in the South Atlantic all of these messages become NSA targets James Bamford s illuminating book reveals how NSA s mission of Signals Intelligence SIGINT has made the human espionage agent almost a romantic figure of the past Winner Best Investigative Book of the Year Award from Investigative Reporters Editors *The Puzzle Palace* has the feel of an artifact the darkly revealing kind Though published during the Reagan years the book is coolly subversive and powerfully prescient *The New Yorker* Mr Bamford has emerged with everything except the combination to the director s safe *The New York Times Book Review* *Insurgent Intellectual* Brendan Taylor,2003-08-01 With a distinguished career spanning more than four decades Professor Desmond Ball is one of the world s greatest scholars of strategy and defence Australia s home grown giant In this collection of essays leading political media and academic figures including former United States President Jimmy Carter pay tribute to his remarkable contributions From a base at the Australian National University in Canberra Professor Ball has unflinchingly researched topics from Cold War nuclear strategy and the defence of Australia to spy scandals and Southeast Asian paramilitaries His roaming intellect appetite for getting the facts and commitment to publishing on sensitive

Clements,2015-12-21 *Back from the Brink* is a history of New Zealand policy on nuclear power and the growth of the anti nuclear movement culminating in the 1984 Labour Government's No Nukes policy Kevin Clements a sociology lecturer and peace activist provides a thorough meticulously researched examination of the implications of New Zealand's stance Tracing the history of the country's involvement in the nuclear arms race he thoughtfully analyses the questions facing New Zealand in an age dominated by nuclear power *The Australian Nexus* Randall Doyle,2018-06-18 In 2018 Australia finds itself at the center of a geopolitical storm within the Indo Pacific region With the meteoric rise of China and the perceived decline of U S influence and power in East Asia Australia is faced with some rather difficult and uncomfortable questions concerning its economic future and its national security Historically Australia has always had a major power as its key ally especially in terms of its national security In 1901 Australia became a self governing nation However Great Britain continued to protect Australia from potential external enemies because Australia remained an important and valued commonwealth nation within the British empire However at the beginning of the Pacific War during WWII Australia reached out to America after the British colony Singapore collapsed in the face of the oncoming and powerful Japanese imperial military forces in February 1942 With the empire of Japan marching southward in the Pacific region Australian prime minister John Curtin anxiously requested in late December 1941 that America come save the nation from being invaded by the Japanese imperial army and naval forces Due to its own strategic needs against Japan the U S agreed to send its military forces to Australia Thus began a geostrategic relationship that has lasted for seventy five years Hence Australia has remained one of America's most reliable allies throughout the post WWII era But at the end of the second decade of the 21st century the geostrategic dynamics of the Indo Pacific have changed dramatically China's unprecedented rise to power economically militarily and diplomatically has forced Australia to reevaluate its policies and position within the East Asian hemisphere And to further complicate Australia's current predicament America itself is experiencing a major political upheaval with the stunning election of Donald Trump as its new president in 2016 Henceforth Australia increasingly finds itself in uncharted waters geopolitically Australians are confronted with the irrefutable reality that they are living not only in the most pivotal region of the world but one that is in the midst of an historic transformation In essence Australia finds itself at the center of a geostrategic storm
