Dead Days of Summer Carolyn Hart, 2006

The Archetypal Feminine in the Mystery Stream of Humanity Manfred Schmidt-Brabant, Virginia Sease, 2010 In ancient times, people's experience of the divine was imbued with the feminine archetype. The world of spirit was seen to be populated by goddesses, and women were honored as priestesses and guardians of sacred rites. The later Greek and Roman civilizations, in contrast, were characterized by the principle of patriarchy, which still dominates our culture despite the political and social emancipation of women in the West. This unique book goes way beyond the usual studies on gender. The authors maintain that during ancient times, people experienced the divine as imbued with the archetypal feminine. The world of spirit was seen populated by goddesses, and this perception was reflected by honoring women as priestesses and guardians of sacred rites. The Greeks and Romans, on the other hand, were led largely by the principle of patriarchy. More recently, however, we have seen the political and social emancipation of women, but patriarchal thinking continues to dominate our Western culture. The authors' survey of the feminine archetype attempts to illuminate the spiritual significance and meaning of the feminine principle today as well as its future destiny. By considering the mystery behind human and earthly evolution, they arrive at clear and accessible perspectives that can help to transform human life today, especially the culture of family. Beginning with Eve in tradition and legend, the authors comment on the Queen of Sheba, the image of the Virgin in esoteric Christianity, Isis, Sophia, and the Great Mother, the birth of art from the primal feminine, and the importance of women for modern esotericism.

Cosmic Mysteries Carol E. Parrish-Harra, 2019-03-05 Cosmic Mysteries By Carol E. Parrish-Harra In her newest book, Cosmic Mysteries, author Carol E. Parrish-Harra provides deep insights for the exploration of the inner path that can only be detailed by the one who has gleaned awareness through a personal journal. Carol's work has long been noted for clarity and the details of the path dreamed of by many and traveled by the few. Mysticism within the Occult Tradition is held close, realizing how delicately

balanced it is With many years of esoteric studies Carol shares her understanding of invisible qualities to be explored and the tests each element Fire Air Water and Earth presents to be mastered as they are integrated into human life The importance of daily mindfulness prepares us to move ourselves into the Christ Mind brought about by both our choices and Karma as we go forward with little awareness in life **The Girl Through Whom Sweet Mysteries Flow** Robin Calvert, 2011-06-28

Most of the main characters in the story are in the early twenties While some of the plot deals with their romantic problems the main thing is their attempt to solve the mystery of the murder of Nancy Bonwit a former girlfriend of Mark Forbes They come to believe the poems Mark Forbes wrote about Jean Bauer while they were separated have hidden meanings They believe they can be read as parts of a puzzle a solution of which will help lead the police to Nancys killer Mark Forbes is the earnest but flawed main male character in the story Jean Bauer is the main female character She and Mark went steady during her Junior and Senior years in high school Marks clueless indifference to important things like Jeans birthday and Christmas finally result in a dramatic break up on Jeans Prom Night Jean decides to attend college in New Jersey to get away from Marks and his indifferent ways After her sophomore year she comes back home to her parents house in Maryland feeling that she has severed her ties with Mark She transfers to another college near her home where she is befriended by Brenda Cranston who like Jean is in her junior years It proves to be a faithful meeting It is Brenda who first notices the dual meaning of Marks poems about Jeans and the mystical chemistry that seems to flow between them And it is Brendas experiments with Jean acting as the guinea pig that prompts Jean to explore caverns visit Marks first girlfriend and come dangerously close to a hooded young man who maybe Nancys killer **Man and the World of the Stars** Rudolf

Steiner, 1982-05 12 lectures Dornach November 26 December 31 1922 CW 219 Think of the earth with the air around it farther outward is the cosmic ether gradually passing over into the spiritual sphere Here on Earth we inhale and exhale the air This is the rhythm of breathing But out yonder we pour our being into the cosmos receiving into ourselves the Logos and the cosmic thoughts There we let the world the universe speak to us This too takes place in rhythm in a rhythm determined by the world of the stars Out in the universe we live in a cosmic rhythm in that we breathe in as it were the moral ethereal world we are then within ourselves And when we breathe it out again we are united with the beings of the higher hierarchies Rudolf Steiner Nov 26 1922 The actions of spiritual beings in relation to the rhythm of the course of the year are brought to light in these inspiring lectures showing how we are challenged to consciously integrate these rhythms into our earthly life Steiner reveals that the concepts of spiritual science serve as our eyes in the spiritual world after death He shows that we change the world when we communicate with it out of our spiritual nature which is the true spiritual communion of humanity This volume is a translation of *Das Verh ltnis der Sternwelt zum Menschen und des Menschen zur Sternwelt Die geistige Kommunion der Menschheit* GA 219
