Sun-Face Buddha Cheng Chien, 1992-01-01 **Chan Buddhism** Peter D. Herschok, 2004-09-30 Chan Buddhism has become paradigmatic of Buddhist spirituality Known in Japan as Zen and in Korea as Son it is one of the most strikingly iconoclastic spiritual traditions in the world This succinct and lively work clearly expresses the meaning of Chan as it developed in China more than a thousand years ago and provides useful insights into the distinctive aims and forms of practice associated with the tradition including its emphasis on the unity of wisdom and practice the reality of sudden awakening the importance of meditation the use of shock tactics the centrality of the teacher student relationship and the celebration of enlightenment narratives or koans Unlike many scholarly studies which offer detailed perspectives on historical development or guides for personal practice written by contemporary Buddhist teachers this volume takes a middle path between these two approaches weaving together both history and insight to convey to the general reader the conditions energy and creativity that characterize Chan Following a survey of the birth and development of Chan its practices and spirituality are fleshed out through stories and teachings drawn from the lives of four masters Bodhidharma Huineng Mazu and Linji Finally the meaning of Chan as a living spiritual tradition is addressed through a philosophical reading of its practice as the realization of wisdom attentive mastery and moral clarity **The Hongzhou School of Chan Buddhism in Eighth- through Tenth-Century China** Jinhua Jia, 2012-02-01 This book provides a wide ranging examination of the Hongzhou school of Chan Buddhism the precursor to Zen Buddhism under Mazu Daoyi 709 788 and his successors in eighth through tenth century China which was credited with creating a Golden Age or classical tradition Jinhua Jia uses stele inscriptions and other previously ignored texts to explore the school's teachings and history Defending the school as a full fledged significant lineage Jia reconstructs Mazu's biography and resolves controversies about his disciples In contrast to the many scholars who either accept or reject the traditional Chan histories and discourse records she thoroughly examines the Hongzhou literature to differentiate the original authentic portions from later layers of modification and recreation The book describes the emergence and maturity of encounter dialogue and analyzes the new doctrines and practices of the school to revise the traditional notion of Mazu and his followers as iconoclasts It also depicts the strivings of Mazu's disciples for orthodoxy and how the criticisms of and reflections on Hongzhou doctrine led to the schism of this line and the rise of the Shitou line and various houses during the late Tang and Five Dynasties periods Jia refutes the traditional Chan genealogy of two lines and five houses and calls for new frameworks in the study of Chan history An annotated translation of datable discourses of Mazu is also included **The ^ARecords of Mazu and the Making of Classical Chan Literature** Mario

Poceski,2015-08-12 The Records of Mazu and the Making of Classical Chan Literature explores the historical growth and transformation of Chan Zen Buddhist literature in medieval China focusing especially on the earliest records of Mazu Daoyi 709 788 It presents important primary materials about classical Chan Buddhism some of them translated for the first time into English *The Koan* Steven Heine,Dale S. 788 and his numerous disciples the Hongzhou School emerged as the dominant tradition of Chan Zen Buddhism in China during the middle part of the Tang dynasty 618 907 Mario Poceski offers a systematic examination of the Hongzhou School's momentous growth and rise to preeminence as the bearer of Chan orthodoxy and analyzes its doctrines against the backdrop of the intellectual and religious milieu of Tang China Poceski demonstrates that the Hongzhou School represented the first emergence of an empire wide Chan tradition that had strongholds throughout China and replaced the various fragmented Schools of early Chan with an inclusive orthodoxy Poceski's study is based on the earliest strata of permanent sources rather than on the later apocryphal encounter dialogue stories regularly used to construe widely accepted but historically unwarranted interpretations about the nature of Chan in the Tang dynasty He challenges the traditional and popularly accepted view of the Hongzhou School as a revolutionary movement that rejected mainstream mores and teachings charting a new path for Chan's independent growth as a unique Buddhist tradition This view he argues rests on a misreading of key elements of the Hongzhou School's history Rather than acting as an unorthodox movement the Hongzhou School's success was actually based largely on its ability to mediate tensions between traditionalist and iconoclastic tendencies Going beyond conventional romanticized interpretations that highlight the radical character of the Hongzhou School Poceski shows that there was much greater continuity between early and classical Chan and between the Hongzhou School and the rest of Tang Buddhism than previously thought The Zen Canon Steven Heine, Dale S. Wright, Dale Stuart Wright, 2004-03-25 Presents a collection of essays which argue that Zen Buddhism actually has a rich and varied literary heritage Among the significant texts are hagiographic accounts and recorded sayings of individual Zen masters koan collections and commentaries and rules for monastic life
