Sunday Classic Contemporaries:

Contemporary Reconfigurations of American Literary Classics Betina Entzminger, 2013 The number and popularity of novels that have overtly reconfigured aspects of classic American texts suggests a curious trend for both readers and writers an impulse to retell and reread books that have come to define American culture This book argues that by revising canonical American literature contemporary American writers are re writing an American myth of origins creating one that corresponds to the contemporary writer s understanding of self and society Informed by cognitive psychology evolutionary literary criticism and poststructuralism Entzminger reads texts by canonical authors Poe Hawthorne Melville Alcott Twain Chopin and Faulkner and by the contemporary writers that respond to them In highlighting the construction and cognitive function of narrative in their own and in their antecedent texts contemporary writers highlight the fact that such use of narrative is universal and essential to human beings This book suggests that by revising the classic texts that compose our cultural narrative contemporary writers mirror the way human individuals consistently revisit and refigure the past through language via self narration in order to manage and understand experience

Political Anxiety in Golden Age Children's Classics and Their Contemporary Adaptations Jasmin Sültemeyer, 2021-07-05 As striking counter intuitive and distasteful as the combination of children and anxiety may seem some of the most popular children s classics abound in depictions of traumatic relationships bloody wars and helpless heroes This book draws on Freudian and Lacanian anxiety models to investigate the psychological and political significance of this

curious juxtaposition as it stands out in Golden Age novels from both sides of the Atlantic and their present day adaptations. The stories discussed in detail so the argument goes identify specific anxieties and forms of anxiety management as integral elements of hegemonial middle class identity. Apart from its audacious link between psychoanalysis and Marxist feminist as well as postcolonial ideology criticism this study provides a nuanced analysis of the ways in which allegedly trivial texts negotiate questions of individual and trans national identities. In doing so it offers a fresh look at beloved tales like Alice's Adventures in Wonderland, The Wizard of Oz and Peter Pan, contributes to the dynamic field of adaptation studies and highlights the necessity to approach children's entertainment more seriously and more sensitively than it is generally the case.

Classical and Contemporary Sociological Theory Scott Appelrouth, Laura Desfor Edles, 2008. A unique hybrid of text and readings, this book combines the major writings of sociology's core classical and contemporary theorists with an historical as well as theoretical framework for understanding them. Laura Desfor Edles and Scott A. Appelrouth provide not just a biographical and theoretical summary of each theorist, reading but an overarching scaffolding which students can use to examine, compare and contrast each theorist's major themes and concepts. No other theory text combines such student friendly explanation and analysis with original theoretical works. Key features include pedagogical devices and visual aids: charts, figures and photographs to help summarize key concepts, illuminate complex ideas and provoke student interest. Chapters on well known figures such as Marx, Weber, Durkheim, Parsons and Foucault as well as an in depth discussion of lesser known voices such as Charlotte Perkins Gilman, WEB Du Bois and Leslie Sklair. Photos of not only the theorists but of the historical milieu from which the theories arose as well as a glossary at the back.

Contemporary Art and Classical Myth Jennie Hirsh, 2017-07-05. Contemporary art is deeply engaged with the subject of classical myth. Yet within the literature on contemporary art little has been said about this provocative relationship. Composed of fourteen original essays, *Contemporary Art and Classical Myth* addresses this scholarly gap, exploring and in large part establishing the multifaceted intersection of contemporary art and classical myth. Moving beyond the notion of art as illustration, the essays assembled here adopt a range of methodological frameworks from iconography to deconstruction and do so across an impressive range of artists and objects: Francis A. S. Ghada Amer, Wim Delvoye, Luciano Fabro, Joanna Frueh, Felix Gonzales Torres, Duane Hanson, Yayoi Kusama, Roy Lichtenstein, Kara Walker and an iconic photograph by Richard Drew subsequently entitled *The Falling Man*. Arranged so as to highlight both thematic and structural affinities, these essays manifest various aspects of the link between contemporary art and classical myth while offering novel insights into the artists and myths under consideration. Some essays concentrate on single works as they relate to specific myths while others take a broader approach, calling on myth as a means of grappling with dominant trends in contemporary art.

Classical and Contemporary Social Theory Tim Delaney, 2024-03-22. The second edition of *Classical and Contemporary Social Theory* provides wraparound coverage of the classical social theorists and influential sociological schools of thought in the contemporary period. Explained carefully

and clearly throughout Tim Delaney reviews the key concepts and contributions from brilliant classical social thinkers and recent sociological thought spanning over 500 years of source material He weaves together profiles of leading theorists thorough descriptions of major academic and intellectual perspectives and discussion of prevailing themes of interest that have concerned theorists and sociologists throughout time and will likely continue to do so in the future The book emphasizes methods of investigation and application in its overview of the field by challenging readers to think about problems critically and in relation to key sociological theories and to also apply their sociological understanding to real everyday events In this new edition Delaney revisits the classical period and highlights the special contributions of American social theorists and their impact on the diversity of thought leading into the contemporary era He attends to later schools of thought and weaves in important updates related to critical race theory and globalization With updated context and further applications the second edition of *Classical and Contemporary Social Theory* is a perfect addition to combined courses in social theory

From Classical to Contemporary Psychoanalysis Morris N. Eagle, 2011-03 To help make of the current pluralism in contemporary psychoanalysis Morris Eagle sets out to critically reevaluate fundamental psychoanalytic concepts of theory and practice He reintroduces notions of the mind object relations psychopathology and treatment from first Freudian and then contemporary psychoanalytic perspectives However there is an underlying emphasis on identification and integration of converging themes reemphasized and expanded in a final chapter Clinical vignettes and relevant empirical research are used throughout thus basic concepts are reexamined in the light of more contemporary developments

Classical Rhetoric and Contemporary Law Kirsten K. Davis, Brian N. Larson, Francis J. Mootz, Kristen K. Tiscione, 2024-04-30 From the twin birth of western rhetoric and law in the Greek speaking world in the first millennium BCE law and rhetoric were deeply connected in the ancient world In the modern era of legal practice the clear connections between law and classical rhetoric have largely been lost to both those trained in the law and those who study rhetoric This interdisciplinary reader reestablishes those lost connections by pairing primary source materials in classical rhetoric and contemporary law The chapters in this volume show that ancient rhetorical texts can deepen or disrupt contemporary notions about principles that lie at the root of western legal traditions and return to us our past making it possible for scholars across several disciplines to build on work accomplished centuries before Broken into four parts this volume first covers the historical development of rhetoric In Part Two volume editor Mootz and scholar David A Frank look at rhetorical theorists at bookends of an era when classical rhetoric was devalued as a mode of thought Mootz discusses the hegemonic wave of Enlightenment epistemology that separated law from rhetoric and Frank shows that where Cartesian rationality fails in the modern era the humanistic tradition of rhetoric allows law to respond to the needs of justice Part Three consists of ten chapters that each 1 introduce a classical rhetorical theorist to the reader 2 provide an excerpt from a text by that theorist and then 3 demonstrate the relevance of that work to a contemporary court case Moving from the Sophists through Aristotle and Plato and their Greek contemporaries to the Roman

rhetoricians Cicero and Quintilian and finally to the early medieval rhetorician St Augustine these reprinted classical texts are contextualized by leading scholars in law classics and rhetoric each with probing discussion questions for readers to engage and interact with the materials rhetorically This vital resource of primary texts demonstrates how rhetoric illuminates the operation of the legal system and reconnects law to its rhetorical roots Structured for use by scholars in critical inquiry and well suited for use in graduate or law school courses Classical Rhetoric and Contemporary Law will be of interest to law rhetoric English and communication scholars and as an interactive catalyst to examine the ways in which ancient rhetorical theory informs our understanding of law practice today *Audience Experience and Contemporary Classical Music* Gina Emerson, 2023-03-03 This book responds to recent debates on cultural participation and the relevance of music composed today with the first large scale audience experience study on contemporary classical music Through analysing how existing audience members experience live contemporary classical music this book seeks to make data informed contributions to future discussions on audience diversity and accessibility The author takes a multidimensional view of audience experience looking at how sociodemographic factors and the frames of social context and concert format shape aesthetic responses and experiences in the concert hall The book presents quantitative and qualitative audience data collected at twelve concerts in ten different European countries analysing general trends alongside case studies It also offers the first large scale comparisons between the concert experiences and tastes of contemporary classical and classical music audiences Contemporary classical music is critically discussed as a high art subculture rife with contradictions and conflicts around its cultural value This book sheds light on how audiences negotiate the tensions between experimentalism and accessibility that currently define this genre It provides insights relevant to academics from audience research in the performing arts and from musicology as well as to institutions practitioners and artists
