Sundials At An Oxford College:

Sundials at an Oxford College Philip Pattenden, 1979 *Oxford Figures* John Fauvel, Raymond Flood, Robin J. Wilson, 2000 This is the story of the intellectual and social life of a community and of its interactions with the wider world For 800 years mathematics has been researched and studied at Oxford and the subject and its teaching have undergone profound changes during that time This highly readable and beautifully illustrated book reveals the richness and influence of Oxford's mathematical tradition and the fascinating characters who helped to shape it The story begins with the founding of the university of Oxford and the establishing of the medieval curriculum in which mathematics had an important role The Black Death the advent of printing the founding of the university of Cambridge and the Newtonian revolution all had a great influence on the later development of mathematics at Oxford So too did many well known figures Robert Boyle Christopher Wren Edmond Halley Benjamin Jowett Charles Lutwidge Dodgson G H Hardy to name but a few Later chapters bring us to the twentieth century and the book ends with some entertaining reminiscences by Sir Michael Atiyah of the thirty years he spent as an Oxford mathematician *Oxford's College Gardens* Eleanor Sinclair Rohde, 1932 Monks, Manuscripts and Sundials Catherine Eagleton, 2010 Bringing together the surviving material and manuscript evidence this book looks closely at a fascinating medieval sundial in the form of a ship It considers who made and used the surviving instruments as well as studying the scholars who wrote about it History of Universities Mordechai Feingold, John Watts, 2019-08-21 This issue of History of Universities Volume XXXII 1 2 contains the customary mix of learned articles and book reviews which makes this publication such an indispensable tool for the historian of higher education Guest edited by Professor John Watts this volume focuses on the history of Corpus Christi College Oxford Corpus Christi College Oxford was founded in 1517 to advance humanistic learning in the service of God This collection of essays by some of the leading historians of late medieval and early modern England takes the early history of the College as a starting point to explore the intellectual social religious political and cultural trends of the era of Renaissance and Reformation Ranging from the fifteenth century to the seventeenth and taking in the study of Greek and Hebrew the practices of antiquarianism charity and divine worship the experience of music punishment and the built environment the networks that connected the college to London and the government and the interactions of scholars with royal policy on religion these fifteen essays and three commentaries aim to expose the multiple perspectives from which an early modern college can be viewed and understood The relationship between Renaissance and Reformation and the social and cultural realities that accompanied these familiar concepts form one central theme in the papers the relationship between religious or educational institutions and the state form another Corpus Christi itself emerges as less innovative than its historic reputation as the first collegium trilingue might suggest but it becomes the gateway to a richer appreciation of the overlapping worlds of learning religion and public life in a time of rapid change Creating Places of Power Nigel Pennick, 2022-11-29 An exploration of the traditional rites of auspicious building and crafting Explains the

ceremonial beginnings and Hermetic principles in the laying out of foundations not only for sacred buildings like temples but also for homes and barns Examines the principles and ceremonies of electional astrology and details how to compute natural time as opposed to clock time Shares examples from ancient Egypt Iran India and Europe that range from the Stone Age to the Renaissance and include secret societies When we make things whether a building a sacred space or a magical object there is a precise moment when the artifact comes into being as a separate entity That moment in time possesses its own unique quality and because of this there is a right time to do something and a wrong time And as Nigel Pennick reveals we have the power to select favorable moments for our creations just as our ancestors did Illustrating ancient principles of divination chronomancy and electional astrology Pennick examines all the factors behind the ancestral art of geomancy the auspicious creation and alignment of sacred buildings as places of power Sharing examples from ancient Egypt Iran India and Europe that range from the Stone Age to the modern day including secret societies like the Rosicrucians and the Freemasons he explains how many cities were constructed on specially selected sites and founded ritually at precise predetermined moments Looking at the traditional rites of creating places of power Pennick explains the ceremonial beginnings and Hermetic principles in the laying out of foundations as well as the use of sacrifice in the building of many notable structures Examining the role of sacred geometry in geomancy Pennick explains the Hermetic meaning assigned to each direction in traditional European cultures as well as the principles of natural measures and the science of understanding lucky and unlucky days Revealing how geomantic principles are rooted in the structure of the world and the cosmic patterns of space and time the author shows how they transcend the ages and are just as meaningful today as they were to our ancestors

A General History of Horology Anthony Turner, James Nye, Jonathan Betts, 2022-07-28 *A General History of Horology* describes instruments used for the finding and measurement of time from Antiquity to the 21st century In geographical scope it ranges from East Asia to the Americas The instruments described are set in their technical and social contexts and there is also discussion of the literature the historiography and the collecting of the subject The book features the use of case studies to represent larger topics that cannot be completely covered in a single book The international body of authors have endeavoured to offer a fully world wide survey accessible to students historians collectors and the general reader based on a firm understanding of the technical basis of the subject At the same time as the work offers a synthesis of current knowledge of the subject it also incorporates the results of some fundamental new and original research

The Mathematician's Apprenticeship Mordechai Feingold, 1984 **Bishop Richard Fox of Winchester** Clayton J. Drees, 2014-07-18 Bishop Richard Fox of Winchester 1448 1528 was an important early modern English prelate whose tireless service to his church to his king and to humanist studies single him out as one of the great shapers of the Tudor age This book explores the life and career of Bishop Fox as an architect of his world not only literally physically designing chapels and colleges but also figuratively building the careers of other important Tudor personalities such as

Thomas Wolsey and John Fisher Fox also laid the foundation for humanist learning in England by establishing Corpus Christi College at Oxford and he negotiated the treaties and marriages that in time produced the Tudor and Stuart successions
