Summa Poetica:

Without Hatreds Or Fears Laurence Emmanuel Prescott, 2000 A study of Tambores en la Noche two volumes of verse by Jorge Artel black poet of 20th century Colombia It analyzes his work within the context of Colombian history and culture modern Spanish American literature and the poet's own career *Blazing the Trail* Victor Turner, 2022-08-30 A collection of Turner's writings that gathers seven late pieces that reflect his thoughts on such subjects as pilgrimage sacrifice and liminal processes The essays reveal a passionate struggle between a committed conceptualization and a dedication to the telling detail Turner is willing to address the moral and spiritual dimensions of being human which are all too easily set aside by much social science Anthropos Carnival and National Identity in the Poetry of Afrocubanismo Thomas F. Anderson, 2017-04-03 Traces the ways that Cuban poets dealt with issues of national identity reflected in their views of Afrocubanismo often in response to historical changes in public and official opinions on the most visible manifestation of Afro-Cuban culture carnival Choice Uncovers a wealth of literary texts primarily poems that chart the impact of las comparsas Afro-Cuban festival dances on mainstream Cuban life Investigates the ways in which the relationship between racial and ethnic divisions and between castes and classes created a literary movement full to the brim with emotional and sensational resonances Wasafiri Underscores the sociopolitical and historical contexts of these poems which have shaped the literary production and message of the Afrocubanismo movement A tour de force Callaloo Successfully plumbs the position of the Afro-Cuban performer and brings into sharp relief the way politicians historically sought to affect all elements of Cuban culture New West Indian Guide Carnival and National Identity in the Poetry of Afrocubanismo offers thought provoking new readings of poems by seminal Cuban poets demonstrating how their writings affected the development of a recognizable Afro-Cuban identity Thomas Anderson examines the long running debate between the proponents of Afro-Cuban cultural manifestations and the predominantly white Cuban intelligentsia who viewed these traditions as backward and counter to the interests of the young Republic Including analyses of the work of Felipe Pichardo Moya Alejo Carpentier Nicol's Guill'n Emilio Ballagas Jos Zacar'as Tallet Felix B Caignet Marcelino Arozarena and Alfonso Cam'n this rigorous interdisciplinary volume offers a fresh look at the canon of Afrocubanismo and offers surprising insights into Cuban culture during the early years of the Republic *Rise and Fall of the Cosmic Race* Marilyn Grace Miller, 2009-07-21 Latin America is characterized by a uniquely rich history of cultural and racial mixtures known collectively as mestizaje These mixtures reflect the influences of indigenous peoples from Latin America Europeans and Africans and spawn a fascinating and often volatile blend of cultural practices and products Yet no scholarly study to date has provided an articulate context for fully appreciating and exploring the profound effects of distinct local invocations of syncretism and hybridity Rise and Fall of the Cosmic Race fills this void by charting the history of Latin America's experience of mestizaje through the prisms of literature the visual and performing arts social commentary and music In accessible jargon free prose Marilyn Grace Miller brings to life the varied

perspectives of a vast region in a tour that stretches from Mexico and the Caribbean to Brazil Ecuador and Argentina She explores the repercussions of mestizo identity in the United States and reveals the key moments in the story of Latin America s cult of synthesis Rise and Fall of the Cosmic Race examines the inextricable links between aesthetics and politics and unravels the threads of colonialism woven throughout national narratives in which mestizos serve as primary protagonists Illuminating the ways in which regional engagements with mestizaje represent contentious sites of nation building and racial politics Miller uncovers a rich and multivalent self portrait of Latin America s diverse populations

Renaissance psychologies Robert Lanier Reid,2017-01-06 A thorough and scholarly study of Spenser and Shakespeare and their contrary artistry covering themes of theology psychology the depictions of passion and intellect moral counsel family hierarchy self love temptation folly allegory female heroism the supernatural and much more Renaissance psychologies examines the distinct and polarised emphasis of these two towering intellects and writers of the early modern period It demonstrates how pervasive was the influence of Spenser on Shakespeare as in the playful metamorphosis of Gloriana into Titania in A Midsummer Night s Dream and its return from Spenser s moralizing allegory to the Ovidian spirit of Shakespeare s comedy It will appeal to students and lecturers in Spenser studies Renaissance poetry and the wider fields of British literature social and cultural history ethics and theology

Rhetoric, Rhetoricians, and Poets Marijke Spies,A. van Strien,1999 The Netherlandish rhetoricians of the sixteenth century have in the course of the last decades shed their image of third rate poets who lacking all sense of true beauty were capable only of pompous verbosity and a shallow manipulation of form The new scholarly assessment has also shed light on the role they played in the cultural and literary life of their time and it now

appears that many of their dramas are well worth staging Once the sixteenth century was freed from the stigma of being the preparatory phase for the Golden Age the way was clear for thorough studies of the literature produced during the most turbulent period in the history of the Low Countries This volume contains essays which deal with works written not only in Dutch but also in French and in New Latin with topics ranging from the effects of poetic principles on literary practice to the use of poetry as a means for improving society and developing the individual The unifying thread in these studies is the pivotal importance of rhetoric in all forms of literary expression

Expectation Jean-Luc Nancy, 2021-05-20 A courtship between philosophy and literature that has never been presented with such wit grace and finesse from one of France's leading thinkers Jean Michel Rabat from the Introduction *Expectation* is a major volume of Jean Luc Nancy's writings on literature written across three decades but for the most part previously unavailable in English More substantial than literary criticism these essays collectively negotiate literature's relation to philosophy Nancy pursues such questions as literature's claims to truth the status of narrative the relation of poetry and prose and the unity of a book or of a text and he addresses a number of major European writers including Dante Sterne Rousseau Herderlin Proust Joyce and Blanchot The final section offers a number of impressive pieces by Nancy that completely merge his concerns for philosophy and literature and philosophy as literature These include a lengthy parody of Valéry's *La Jeune Parque* several original poems by Nancy and a beautiful prose poetic discourse on an installation by Italian artist Claudio Parmiggiani that incorporates the Faust theme Opening with a substantial Introduction by Jean Michel Rabat that elaborates Nancy's importance as a literary thinker this book constitutes the most substantial statement to date by one of today's leading philosophers on a discipline that has been central to his work across his career Among Nancy's many distinguished writings *Expectation* demands recognition Choice
