Summary Justice Judges Address Juries:

Summary Justice Paul Robertshaw, 1998-07-01 This is a study of the practice of judicial summing up to juries and of the language of persuasion and rhetoric in the English criminal process The book examines those statements normally occurring in criminal courts but also in the High Court in defamation trials and in civil liberty torts in the county courts The text of these summaries can vary in length and are significant in that they break the flow between advocates turn taking especially their final speeches In addition to its linguistic concerns the book considers the practice of summing up as a legal problem as unrecognized advocacy and examines alternatives such as the North American and Scottish minimalist legal model and a reformed summing up of patterned structure

Syntactic Analysis and Description David Lockwood, 2005-12-07 This book is designed to teach undergraduate and beginning graduate students how to understand analyse and describe syntactic phenomena in different languages The book covers every aspect of syntax from the basics to more specialised topics such as clitics which have grammatical importance but cannot be used in isolation and negation in which a construction contradicts the meaning of a sentence The approach taken combines concepts from different theoretical schools which view syntax differently These include M A K Halliday s systemic functional linguistics the stratificational school advocated by Sydney Lamb and Kenneth L Pike s tagmemic model The emphasis of the book is on syntactic structures rather than linguistic meaning and the book stresses the difference between a well formed sentence and a meaningful one The final chapter brings these two aspects together to show the connections between syntax and semology Each chapter concludes with exercises from a diverse range of languages and a list of major technical terms The book also includes a glossary as an essential resource for students approaching this difficult subject for the first time

Classroom Discourse Analysis Frances Christie, 2005-01-01 This book offers a model of classroom discourse analysis that uses systemic functional linguistic theory and associated genre theory to develop a view of classroom episodes as curriculum genres some of which operate in turn as part of larger unities of work called curriculum macrogenres Drawing on Bernstein s work Christie argues that two registers operate in pedagogic discourse a regulative register to do with the goals and directions of the discourse and an instructional register to do with the particular content or knowledge at issue Each can be shown to be realized in distinctive clusters of choices in the grammar The operation of the regulative register determines the initiation pacing sequencing and evaluation of the overall pedagogic activity The book sets out its methodology in detail by reference to a number of classroom texts and a range of school subjects Overall schools emerge as sites of symbolic control in a culture

The Business of Words Crispin Thurlow, 2019-07-30 *The Business of Words* examines the practices of high end language workers or wordsmiths where we find words being professionally designed institutionally managed and inevitably objectified for status and profit Aligned with existing work on language and political economy in critical sociolinguistics and discourse studies the volume offers a novel complementary insight into the relatively elite practices of language workers such as advertisers dialect

coaches publishers judges translators public relations officers fine artists journalists and linguists themselves In fact the book considers what academics might learn about language from other wordsmiths opening a space for dialogue between those researching language and those who also stake a claim to linguistic expertise and a way with words Bringing together an array of leading international scholars from the cognate fields of discourse studies sociolinguistics and linguistic anthropology this book is an essential resource for researchers advanced undergraduate and postgraduate students of English language linguistics and applied linguistics communication and media studies and anthropology National Criminal Justice Thesaurus ,1992 **Multimodal Discourse Analysis** Kay O'Halloran,2004-03-01 This book brings together cutting edge research on multimodal texts and the discourses generated through the interaction of two or more modes of communication for example pictures of language typography and layout body movement and camera movement The contributors collected within this volume use systemic functional linguistics to analyze how meaning is generated within a series of case studies The result is a comprehensive survey of the ways in which enhanced meaning emerges through the interaction of more than one mode of communication Multimodal Discourse Analysis will be useful to researchers interested in the application of systemic functional linguistics to media studies discourse analysis and cognitive linguistics Should Juries in Criminal Cases be Judges of the Law and Fact? Martin Lehmayr,1886 *Civil Justice Reform Act of 1990* United States. District Court (Wisconsin : Western District),1991 **Analysing Academic Writing** Louise Ravelli,Robert A. Ellis,2005-12-07 This volume covers the writing not only of native speakers of the language in which they are being taught but also that of those to whom the language of pedagogy is secondary Australian editors *Language, Education and Discourse* Joseph Foley,2005-12-05 This collection of essays by leading functional linguists presents the latest perspectives on language and discourse in educational settings The book questions the idea of discourse to reveal that the social processes of learning are imbued with the ideologies of the society and education system within which learning takes place The contributors take into account the historical and cross cultural perspectives of both classroom practices and the student's own awareness of the ideological meanings of language activities Language Education and Discourse is divided into two sections Part one covers early childhood and the growing development of a language system from the basic semiotic system of the infant This is followed by an analysis of the beginnings of literacy in kindergarten the introduction to writing in primary school and the ideological content of reading material Part two furthers this analysis by looking at discourse in secondary and tertiary education The contributors pose questions about the role and importance of teaching grammar in the school system and finally examine how to refine the discourse of education This book will be useful to academics interested in the latest functional perspectives on language as it is used in education
