Summitry In The Americas A Progress Report:

Summitry in the Americas Richard E. Feinberg, 1997 The 1994 Summit of the Americas the first such gathering of hemispheric leaders in over a generation defined a new substantive agenda and architecture for United States Latin American relations The summit committed participating countries to negotiate a Free Trade Area of the Americas by 2005 and to defending the region's democratic institutions This book whose author actively participated in planning the summit traces the White House's decision to convene the summit analyzes the administration's foreign affairs decision making and details the other countries diplomatic strategies for contributing to the summit agenda Feinberg critically assesses post summit implementation and makes specific recommendations for the second summit planned for 1998 and for maintaining the momentum for liberalization in the Americas *Reevaluating NAFTA* I. Hussain, 2012-12-05 Depicting NAFTA to be but a stepping stone rather than final product of regional economic integrative efforts a chapter specific 15 year assessment conveys the upsides and downsides of North America's Camelot moment

Summits & Regional Governance Gordon Mace, Jean-Philippe Therien, Diana Tussie, Olivier Dabène, 2015-10-30 Despite the large number of regional and global summits there is very little known about the functioning and impact of this particular type of diplomatic practice While recognizing that the growing importance of summits is a universal phenomenon this volume takes advantage of the richness of the Americas experiment to offer a theoretically grounded comparative analysis of contemporary summitry The book addresses questions such as How effective have summits been How have civil society and other non state actors been involved in summits How have summits impacted on the management of regional affairs Filling a significant void in the literature this volume offers an original contribution helping to understand how summitry has become a central feature of world politics It will be of great interest to students and scholars of diplomacy international organizations and global regional governance

North American Homeland Security Imtiaz Hussain, Satya R. Pattnayak, Anil Hira, 2008-10-30 Did 9 11 revive a North American guns butter trade off Established in the largest administrative overhaul since World War II the Department of Homeland Security was charged with keeping the United States safe within a wider security community but confronted the Washington Consensus based Western Hemisphere free trade movement beginning with the North American Free Trade Agreement NAFTA and extending to the Central American Free Trade Agreement CAFTA in 2003 to materialize a Free Trade Area of the Americas FTAA compact Whether 9 11 restrictions impeded these trade related thrusts or not embracing neoliberalism permitted Canada and Mexico to pursue their own initiatives such as proposing free trade to the US Canada in 1985 Mexico in 1990 but as during the Cold War security imperatives ultimately prevailed This work investigates Canada's and Mexico's Department of Homeland Security responses through three bilateral studies of policy responses along comparative lines case studies of security and intelligence apparatuses in each of the three countries and a post 9 11 trilateral assessment Ultimately they raise a broader and more critical North American question Will regional economic

integration continue to be trumped by security considerations as during the Cold War era and thereby elevate second best outcomes or rise above the constraints to reassert the unquenchable post Cold War thirst for unfettered markets replete with private enterprises liberal policies and full fledged competitiveness **The New Politics of American Trade** I. M.

Destler, Peter J. Balint, 1999 Imports pour into the United States up by 79 percent in six years The trade deficit more than doubles The House of Representatives solidly rejects a bill that would liberalize global and regional trade and endorses import quotas for a major manufactured product by a two to one margin Although at first glance these events of the 1990s might sound like past chapters of US trade politics in fact the political dynamics have changed in significant ways As the impact of globalization comes into focus politically important constituencies have begun to resist trade liberalization Labor and environmental groups in particular demanding that their concerns be addressed have succeeded in fracturing the long standing bipartisan protrade coalition in Congress and in the process have undercut US leadership in liberalizing global trade This new study reexamines the landscape of trade politics It shows how trade advocates and labor and environmental skeptics differ significantly in both their substantive views and their political and organizational cultures The authors demonstrate how this new challenge differs from that of traditional trade protectionism likening it instead to the debate a century ago over whether and how to regulate American capitalism for social purposes The analysis leads to a set of recommendations aimed at constructive compromise and a new political foundation for US trade policy leadership The

New Millennium: Challenges and Strategies for a Globalizing World Sai Felicia Krishna-Hensel, 2017-11-22 This title was first published in 2000 An important look at the complexity of the challenges faced by the international system at the beginning of the new millennium The shape of the New World Order is being driven largely by forces unleashed through factors such as economic globalization and technological development The book emphasizes the importance of interdisciplinary analysis in order to understand the extent and diversity of the factors which condition the dynamics of this transformation Essential reading for students of human rights security finance and technology **Continent at a Crossroads** Frances K. Bush II, Obama, and the Decline of U.S. Hegemony in the Western Hemisphere Thomas Andrew O'Keefe, 2018-02-20 Bush II Obama and the Decline of U S Hegemony in the Western Hemisphere applies competing definitions and conceptions of hegemony to various foreign policy initiatives and events during the administrations of George W Bush and Barack H Obama to test whether they manifest a decline in traditional United States dominance and leadership in the Western Hemisphere In particular the book examines the continued relevancy of the Inter American system the failure to establish a Free Trade Area of the Americas FTAA and the stillborn Energy and Climate Partnership of the Americas ECPA It also discusses the implications of the People s Republic of China becoming a major trading partner and important source of financing and investment capital throughout Latin America and the Caribbean The book provides critical reviews of Plan Colombia the Merida Initiative Pathways to Prosperity in the Americas the Central American Regional Security Initiative CARSI the

Caribbean Basin Security Initiative CBSI 100 000 Strong in the Americas and the restoration of normal U S diplomatic relations with Cuba There are extensive analyses unusual for a work in English on the Alianza Bolivariana para los Pueblos de Nuestra Am rica ALBA Comunidad de Estados Latinoamericanos y del Caribe CELAC and Uni n de Naciones Suramericanas UNASUR A History of the FTAA Marcel Nelson,2015-02-19 Providing a critical account of the collapse of the FTAA negotiations and alterations to power relations in the Americas this book argues that the collapse was rooted in a crisis of authority prompted by growing opposition in the Americas to US leadership and the neo liberal reforms that had been promoted by Washington since the 1980s **Special Bibliography Series** ,1957
