The Sun and the Serpent Charles Frederick Oldham,1905 The Sun and the Serpent A Contribution to the History of Serpent Worship by Charles Frederick Oldham first published in 1905 is a rare manuscript the original residing in one of the great libraries of the world This book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation Restoration Editors mission is to bring long out of print manuscripts back to life Some smudges annotations or unclear text may still exist due to permanent damage to the original work We believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it

**The Sun And The Serpent** Charles Frederick Oldham,2020-03-05 THIS work which is based upon papers read before the Royal Asiatic Society in 1901 was at first intended to refer only to Indian Serpent worship It was soon found however that the Serpent worship of India did not originate in that country but was in fact a branch of the worship of the Sun and the Serpent which was once well nigh universal It became evident therefore that a history of the Indian cult would go far to explain the nature and origin of serpent worship in other countries and in other times It will be seen that some of the views expressed in this volume differ from those which have been held by some Oriental scholars of great eminence These views however have not been put forward without due consideration They are the result of much reflection observation and inquiry combined with a careful study of local tradition and folklore For this a long residence in India and an intimate acquaintance with the people afforded many facilities
