Rakhunwana, 2014-09-26 Our worst enemies are those we least suspect ourselves That was the statement said by one of the world wisest man that ever lived Ivan Panin I can now safely say that I agree with him They say prevention is better than cure That is true but when you have lived long enough you begin to understand that in life there are circumstances you may find yourself in but with no control over them No matter how wise or clever you may be you will find that they can't be solved in a day I call that the dark side of life Continue reading because I will take you step by step until you break free from the dark side and the trauma it causes You may be a life planner and everything has been going according to plan Yes you need this book If your life is running smoothly then just put it in a drawer or somewhere safe because I assure you that when the dark hits you you won't see it coming Life has a way of being its own school master Life has principles and timeframe that no one controls With no degrees diplomas or PhD life will teach you something Our grandfathers and grandmothers never went that far with education but if you listen to them they will teach you things we were never taught at school I believe that God will help you as he helped me when I was in my darkest hours of my life and the same methods and strategies I give to you

Locke's Religious Epistemology and Its Critics Nathan Rockwood, 2025-10-21 This book offers a sustained defense of Locke's religious epistemology It puts Locke into conversation with leading figures in contemporary religious epistemology and shows that Locke's views are more plausible than many philosophers of religion and epistemologists realize Locke has become the villain in contemporary religious epistemology In recent years Locke has often been singled out and criticized for insisting that religious belief requires evidence and for failing to provide adequate evidence that would support rational belief in God and Christianity This book defends a broadly Lockean religious epistemology The author argues that we need evidence for religion and that there is good evidence supporting belief in God and Christianity He discusses Locke's views on the evidence from natural theology religious experience the testimony of miracles and scripture In each chapter the author contrasts Locke's view on a type of evidence with one of his critics Michael Bergmann David Hume Alvin Plantinga Richard Swinburne and Linda Zagzebski At the end of each chapter the author shows how a Bayesian analysis of evidence can support Locke's evidence for religious belief specifically a belief in Christianity This defense of Locke's position shows how his religious epistemology continues to be relevant in contemporary debates *Locke's Religious Epistemology and Its Critics* is a historically informed contribution to religious epistemology It will appeal to researchers and graduate students working in

epistemology philosophy of religion and history of philosophy
