Case method in Management Education (Vol 1) , Management, Conflict Resolution and Strategy Magdalena Kraczkla, Anna Wziątek-Staśko, 2024-08-02 Managers are key people in building the success of any organization Business results depend on their efficiency in the implementation of the power entrusted to them This efficiency on the other hand largely depends on psychosocial competences and personality predispositions One of the main factors affecting destructively on managers is stress destroying the level of their motivation to work the level of commitment and ultimately resulting in premature professional burnout and a significant reduction in the level of efficiency Ultimately instead of efficient and motivated specialists companies are struggling with employees suffering from depression Exploration of the issue of identifying the sources of stress draws attention to conflict as one of the main research categories that are closely related to the category of stress It is worth emphasizing that this relationship is two way conflict determines the level of stress stress may determine

the scale of conflict situations This recommended monograph provides the latest knowledge on what contemporary managers use conflict resolution styles and what strategies they choose to deal with in stressful situations A particular advantage of the study is the presentation of the links between both research categories which are so paramount nowadays The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Any third party material in this book is not included in the OA Creative Commons license unless indicated otherwise in a credit line to the material Please direct any permissions enquiries to the original rightsholder

Never be a late bloomer Edward Lu, 2023-11-05 13 years old is an embarrassing age There is a psychological study that says that 13 year old children's outlook on life is being rebuilt and disintegrating One of the reasons for disintegration is that before the age of 13 children look to their parents as life models Around the age of 13 they feel that the last thing they want to be when they grow up is to be like their parents The reason they are being rebuilt is because the world they are exposed to has become a jungle They can no longer stay in the pasture and continue to be docile lambs So they must rebuild their outlook on life to face a world full of competition So 13 is an embarrassing age It is also a newer age This book is written for a specific audience The general reader may be a parent a scholar a professional a school teacher or most likely the child himself This group of readers has different ages different occupations and different workplaces but the only thing they have in common is that they care about the growth of themselves and their children and want to equip themselves to face future challenges The usage of this book is very flexible If you are reading it for the first time you can read it chapter by chapter in order There are some issues worthy of reflection in the book Please take a moment to write down your thoughts If you don't have much time you can also browse through the catalog to find the abilities you want to enrich After reading it several times you can also just read the key tips of each chapter As a clue to review the past and learn new things Most of the material in this book comes from Viewing Business Management and was inspired by Mr Junming Chairman of the Wufeng Lin Family Gongbao Dilin As a co author Chairman Lin promotes Situational Management in a Mencius spirit of Though there are thousands of people I will go on Viewing Management uses a super three dimensional

thinking mode combined with Sinological philosophy to manage the successful principles of life Viewing Business believes that there must be a reason for things to go well and there must be reasons for things to go wrong The starting point of Viewing the Situation Management is to know yourself and emanate from knowing yourself Only by knowing yourself clearly can you know what is best for you and only then can you know others and know what is best for others In this way you will be able to establish good relationships with others and create a smooth life The future may be changeable but we should equip ourselves with the basic capabilities to create the future with a fearless attitude Then the starting point of this ability is know yourself Words have their limits for expressing deep concepts So we started with this book and made a lot of videos I look forward to meeting you in the video and discussing the reasonable principles of Situational Management together If you have more feedback you are welcome to leave a message directly on our official website <https://gameplaner.com> Or Email me xinde250@gmail.com May the Non resistance be with you
