against History Antoon De Baets, 2018-12-13 Crimes against History takes a global approach to the extreme forms of censorship to which history and historians have been subjected through the ages The book opens by considering the varieties of censorship from suppression dismissal and defamation to persecution and murder Part I Kill switch tells the tragic story of how the censorship of history has sometimes turned into deadly crimes against history with chapters looking at topics such as historians and archivists being killed for political reasons attacks by political leaders on historians iconoclastic breaks with the past and fake news Part II Fragile freedom reverses the perspective and examines how the censorship of history has backfired Chapters consider the subversive power of historical analogies and resistance to the censorship of history The book also contains a Provisional memorial for history producers killed for political reasons from ancient times until 2017 It is a double tribute to the history producers who were killed and to those who mustered the courage to resist the blows of censorship History, 1928 **The Arnoldian**, 1984 **Trail of Madness** Ken Stichter, 2018-01-03 It is 1966 in the Sierra Nevada backcountry Allison Connors has been waiting years to carry out her plan As darkness falls and a drunken

Heroines and History Colin MacMillan Coates,Cecilia Louise Morgan,2002-01-01 This is a fascinating comparison of the histories of Ontario and Quebec as seen through the handling of their best known heroines Most Canadians are familiar with stories of Madeleine de Vercheres defending Montreal against the Iroquois in 1692 and of Laura Secord and her cow bravely crossing the American lines to warn the British during the War of 1812

Religion and the Rise of History Leonard S. Smith,2009-04-01 As a historical inquiry and synthesis this intellectual history is the first study to apply the ideal type or model building methodology of Otto Hintze 1861 1940 to Western historical thought or to what R G Collingwood called The Idea of History for it contains succinct and useful models for seeing and teaching classical Christian and modern professional historiography Religion and the Rise of History is also the first work to suggest that in addition to his well known paradoxical simul and or at the same time way of thinking and viewing life Martin Luther also held to a way that was deeply incarnational dynamic and or in with and under This dual vision and a Lutheran ethos strongly influenced Leibniz Hamann and Herder and was therefore a matter of considerable significance for the rise of a distinctly modern form of historical consciousness commonly called historicism in Protestant Germany Smith s essay suggests a new time period for the formative age of modern German thought culture and education The Cultural Revolution in Germany This age began in the early 1760s and culminated in 1810 with the founding of the University of Berlin the first fully modern and modernizing university This university first became the recognized center for the study of history however through the work of Leopold von Ranke 1795 1886 Here the story shows how a young Ranke derived his individualizing way of thinking and viewing life mainly from Luther how his life work is the best example in Western literature of the rise of history from a calling to a profession and how the three way discussion between Troeltsch Meinecke and Hintze concerning the nature of modern historical thought was of central importance for the reorientation of Western social historical thought in the twentieth century

In the Kingdom of Shoes Zachary Austin Doleshal,2021-10-01 One of the world s largest sellers of footwear the Bata Company of Zl n Moravia has a remarkable history that touches on crucial aspects of what made the world modern In the twilight of the Habsburg Empire the company Americanized its

production model while also trying to Americanize its workforce. It promised a technocratic form of governance in the chaos of postwar Czechoslovakia and during the Roaring Twenties it became synonymous with rationalization across Europe and thus a flashpoint for a continent-wide debate. While other companies contracted in response to the Great Depression, Bata did the opposite, becoming the first shoe company to unlock the potential of globalization. As Bata expanded worldwide, it became an example of corporate national indifference where company personnel were trained to be able to slip into and out of national identifications with ease. Such indifference, however, was seriously challenged by the geopolitical crisis of the 1930s and by the cusp of the Second World War. Bata management had turned nationalist, even fascist. In the Kingdom of Shoes, unravels the way the Bata project swept away tradition and enmeshed the lives of thousands of people around the world in the industrial production of shoes. Using a rich array of archival materials from two continents, the book answers how Bata's rise to the world's largest producer of shoes challenged the nation-state, democracy, and Americanization. **Generational**

Key to History Michael A. Susko, 2025-01-17 *Generational Key to History: Tracing Phases From Ancient Egypt to America*. This work reveals how generations form the hidden rhythm of history. By charting time in 15-year generational intervals, an approach first used by the medieval historian Bede and later championed by the twentieth-century philosopher José Ortega y Gasset, the author uncovers distinct phases that recur across civilizations. Rather than relying solely on yearly dating, which can fragment historical awareness, this generational lens exposes history's deeper coherence. The phases found are: 1. Beginnings and testing (0-15 generations), 2. Establishment and unifying image (beginning at 15, 20 generations), 3. Consolidation and opening up (30 generations), 4. Crisis and creativity (40 generations), 5. Universalization and inclusion (50 generations), and 6. Renewal or rigidification (60 generations). Through detailed case studies of Egypt, Israel, Judah, Rome, the Medieval Modern era, and the United States, the author shows how each culture moves through these generational arcs, revealing a pattern that mirrors the human life cycle. The 30th generation, often neglected by historians, emerges as a pivotal phase of openness, justice, and illumination. In sum, *A Rosetta Key for History* does not merely present a new way to measure time; it reveals the living architecture of history itself. Across continents and centuries, generations become the Rosetta key for understanding time's unfolding design. *New Perspectives on the History and Historiography of Southeast Asia* Michael Arthur

Aung-Thwin, Kenneth Hall, 2011-05-13 *Using a unique old new treatment, this book presents new perspectives on several important topics in Southeast Asian history and historiography. Based on original primary research, it reinterprets and revises several long-held conventional views in the field, covering the period from the classical age to the twentieth century. Chapters share the approach to Southeast Asian history and historiography, namely giving agency to Southeast Asia in all research, analysis, writing, and interpretation. The book honours John K. Whitmore, a senior historian in the field of Southeast Asian history today, by demonstrating the scope and breadth of the scholar's influence on two generations of historians trained in the West. In addition to providing new information and insights on the field of Southeast Asia, this book stimulates new debate.*
