The Sixth Book of Virgil's Aeneid Translated and Commented on by Sir John Harington (1604) Virgil, 1991-01-31 A scholarly edition of the Sixth Book of Virgil's Aeneid translated by Sir John Harington. The edition presents an authoritative text together with an introduction, commentary, notes, and scholarly apparatus. But be his personal predilection, what it may for the reader who considers the Aeneid as a whole and regards it as something more than a mere literary epic, the Sixth Book must hold a unique place.

A masterpiece from one of the greatest poets of the century In a momentous publication Seamus Heaney's translation of Book VI of the Aeneid Virgil's epic poem composed sometime between 29 and 19 BC follows the hero Aeneas on his descent into the underworld In *Stepping Stones* a book of interviews conducted by Dennis O Driscoll Heaney acknowledged the significance of the poem to his writing noting that there's one Virgilian journey that has indeed been a constant presence and that is Aeneas's venture into the underworld The motifs in Book VI have been in my head for years the golden bough Charon's barge the quest to meet the shade of the father In this new translation Heaney employs the same deft handling of the original combined with the immediacy of language and sophisticated poetic voice as was on show in his translation of *Beowulf* a reimagining which in the words of James Wood created something imperishable and great that is stainless stainless because its force as poetry makes it untouchable by the claw of literalism it lives singly as an English language poem
