government's role in reorganizing Southern life Like Radical Republicans black and white women studied here advocated land reform political and civil rights and an activist federal government They worked closely with the military the Freedmen's Bureau and Northern aid societies to provide food clothes housing education and employment to former slaves These abolitionist feminists embraced the Freedmen's Bureau seeing it as both a shield for freedpeople and a vehicle for women's rights But Faulkner rebuts historians who depict a community united by faith in free labor ideology describing a movement torn by internal tensions The author explores how gender conventions undermined women's efforts as military personnel and many male reformers saw female reformers as encroaching on their territory threatening their vision of a wage labor economy and impeding the economic independence of former slaves She notes the opportunities afforded to some middle class black women while also acknowledging the difficult ground they occupied between freed slaves and whites Through compelling individual examples she traces how female reformers found their commitment to gender solidarity across racial lines tested in the face of disagreements regarding the benefits of charity and the merits of paid employment
