The Hidden Third Secret of Fatima
Manfred Kolb, 2025-07-02 The third secret of Fatima was to be published by the Vatican in 1960 according to the visionary Lucia. However this was not done. It was not until 2000 that it was announced in Rome in the form of a symbolic vision the interpretation of which was also supplied. Experts immediately objected that the secret had only been partially revealed and that there must still be an unpublished text. Allegedly the Vatican's claim that the third secret had been fully revealed has been confirmed by Sister Lucia. The consecration of Russia would also have been valid in 1984. The latter must be contradicted today in view of the world situation. Was there a double involved? And if the true third secret has not been revealed what is its probable content? Did it warn in time against an ill fated Council? Were the Second Vatican Council and the liturgical reform that followed it the cause of the decline in Christian life? Is scientific theology undermining faith? Where is the church heading? Who will be the last pope in history? Such questions are examined in detail in this book on the basis of a wealth of information. Topics related to the Fatima message in Church theology. Faith and politics are also dealt with. This book contains the events and messages and how they are dealt with in the Church and the world in chronological order. It presents facts events considerations and remarks that enable conclusions to be drawn on the Fatima issue and can contribute to orientation in these confusing times.

Estrada i Cuadras, Albert, 2017-03-17 La existencia de la pena estatal es un continuo en el devenir de la humanidad. También lo son los estudios que se encargan de su análisis y de su justificación. Sin embargo tras tanto esfuerzo las soluciones a los problemas de la teoría de la pena son tan variadas como variados son los autores que se han aproximado intelectualmente a ellos. Además de entre todas las posiciones dogmáticas ninguna parece llevar la delantera en la dialéctica académica actual. Frente a aquel fenómeno esta obra pretende arrancar el acercamiento a la institución punitiva desde su base que no es otra que el comportamiento humano. Si aceptamos que el castigo estatal es una de las formas de control social de conductas resulta interesante comenzar conociendo cómo se comporta el ser humano con relación a los fenómenos punitivos. Desde ese punto inicial se pueden confirmar empíricamente las intuiciones que se esconden tras una gran parte de las teorías de la pena y construir una justificación propia de la misma que aceptando tanto la complejidad del comportamiento humano como la de los efectos del castigo en el mismo reconozca una vigencia todavía muy fuerte aunque también muy diversa de las teorías tradicionalmente denominadas como prevención general negativa y positiva. Además este modo de aproximación también consigue explicar la pervivencia del irracional.

pensamiento retributivo y el encaje de las m s modernas teor as del fair play En suma facilita construir un modelo de justificaci n de la pena complejo y netamente consecuencialista fundamentado en realidades emp ricamente constatables lo que por un lado vacuna a esta posici n frente a cr ticas puramente valorativas y por otro pretende que la discusi n general se desarrolle sin perder de vista el mundo de lo f ctico
