Understanding Energy Security in Central and Eastern Europe Wojciech Ostrowski,Eamonn Butler,2018-04-09 The purpose of this book is to move beyond the approach which views energy as a purely geopolitical tool of the Russian state and assumes a one size fits all approach to energy security in Central and Eastern Europe CEE It argues that in order to fully understand Russian involvement in the regional energy complex the CEE Russian energy relationship should be analysed in the context of the political and economic transitions that Russia and the CEE states underwent The chapters on individual countries in the book demonstrate that although Russia has and will continue to play a substantial role in the CEE energy sector the scope of its possible influence has been overstated

Eastern European Capitalism in the Making Elena A. Iankova,2002-09-09 Publisher Description *Property in East Central Europe* Hannes Siegrist,Dietmar Müller,2014-11-01 Property is a complex phenomenon comprising cultural social and legal rules During the twentieth century property rights in land suffered massive interference in Central and Eastern Europe The promise of universal and formally equal rights of land ownership ensuring predictability of social processes and

individual autonomy was largely not fulfilled The national appropriation of property in the interwar period and the communist era represent an onerous legacy for the postcommunist re construction of a liberal individualist property regime However as the scholars in this collection show after the demise of communism in Eastern Europe property is again a major factor in shaping individual identity and in providing the political order and culture with a foundational institution This volume analyzes both historical and contemporary forms of land ownership in Poland Romania and Yugoslavia in a multidisciplinary framework including economic history legal and political studies and social anthropology Welfare State Reform in Southern Europe Maurizio Ferrera, 2005-02-07 This book offers a detailed analysis of the efforts made to reduce poverty and social exclusion in Portugal Spain Italy and Greece **Social Theory and Postcommunism** William Outhwaite, Larry Ray, 2008-04-15 Social Theory and Postcommunism undertakes a thorough study of the implications of post communism for sociological theory Written by two leading social theorists the book discusses the thesis that the fall of communism has decimated alternative conceptions of social organizations other than capitalism Analyzes the implications of the fall of communism on social theory Discusses alternative ideas of social organizations other than capitalism in the wake of the collapse of communism Covers state civil society globalization the future of modernity and post socialism **Three Decades of Transformation in the East-Central European Countryside** Jerzy Bański, 2019-06-26 This book identifies diagnoses and evaluates social and economic processes taking place in the rural areas of Central and Eastern Europe CEE states in the last 25 years and affecting the immediate future with a particular focus on their spatial diversity It addresses questions related to the rationality of the current development policy and possible results in the future Contemporary processes of socio economic development are typified by the fact that spatial and regional disparities are tending to increase This unfavourable phenomenon manifested both in society and in terms of polarised space needs to be counteracted using an effective development policy The book highlights issues concerning demography functional structure and non agricultural activity and identifies new challenges arising from membership of the European Union EU Accession to the EU and the opportunity to implement support measures has further increased the dynamism of transformation a process that proceeded under various scenarios and different regulations and assumptions that have yet to be identified and evaluated Furthermore the current internal policies of individual CEE states concerning rural areas are diverse and likely to affect differential future development The book is based on the knowledge and experience of scientists from countries in the region investigated who have the best understanding of the subject matter and have observed the transformations It is intended for researchers exploring the development of the countryside and practitioners dealing with regional and national development policies targeting rural areas Constructing Capitalisms Roderick Martin, 2013-03-28 This book provides an analysis of the changes in business systems of four Central and Eastern European countries Poland Hungary the Czech Republic and Romania since the fall of Communism in 1989 drawing on the Varieties of Capitalism debate The Political Economy of Hungary Adam

Fabry,2019-04-03 This book explores the political economy of Hungary from the mid 1970s to the present Widely considered a poster boy of neoliberal transformation in post communist Eastern Europe until the mid 2000s Hungary has in recent years developed into a model illiberal regime Constitutional checks and balances are non functioning the independent media trade unions and civil society groups are constantly attacked by the authorities there is widespread intolerance against minorities and refugees and the governing FIDESZ party led by Prime Minister Viktor Orb n controls all public institutions and increasingly large parts of the country s economy To make sense of the politico economical roller coaster that Hungary has experienced in the last four decades Fabry employs a Marxian political economy approach emphasising competitive accumulation class struggle both between capital and labour as well as different fractions of capital and uneven and combined development The author analyses the neoliberal transformation of the Hungarian political economy and argues that the drift to authoritarianism under the Orb n regime cannot be explained as a case of Hungarian exceptionalism but rather represents an outcome of the inherent contradictions of the variety of neoliberalism that emerged in Hungary after 1989

Reflections on 1989 in Eastern Europe Terry Cox,2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe It offers a mix of detailed examinations of the events of 1989 in Eastern Europe thoughtful and considered appraisals of developments and middle range theoretical discussions of patterns of cause and effect The authors range in their approaches from detailed examinations of government and ruling party papers from the archives some of it originally labelled top secret to personal observations and oral history based on interviews with participants to analysis of survey data and official statistics In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989 This book was published as a special issue of Europe Asia Studies
