Social Change And Womens Reproductive Health Care:

Social Change and Women's Reproductive Health Care Nada Logan Stotland, 1988 Changing attitudes and social behavior as well as rapid technological progress are having great impact on women's reproductive health care. In addition to addressing the clinical implications of these new issues, this volume provides a useful and concise text for practitioners of obstetrics and gynecology. Because it deals with the ubiquitous emotional aspects of reproductive health care, it will also be of interest to nonspecialists and interested lay readers. Thirty Years of Reform and Social Changes in China Qiang Li, 2010-08-03 *Thirty Years of Reform and Social Changes in China* is translated from the original Chinese to provide a look into how scholars in China have been assessing their country's recent societal and political history. This volume and the others in the SSRC series provide western scholars with an accessible English language look at the state of current scholarship in China and as such does not simply provide information for the direct study of socio-political issues but also for meta-level analysis of how the domestic scholarship in China is developing and assessing the interplay of the country's political and economic reforms with the society and daily life of its people. Marketing Public Health: Strategies to Promote Social Change Michael Siegel, Lynne Doner Lotenberg, 2006-12-21 *Health Care for Women* Loretta D. Ulincy, 1994-10 The development of financial access barriers, lifestyle considerations, health care provider concerns, a broad range of issues pertaining to maternal infant health, reproductive health, health behaviors, e.g., smoking, substance abuse, health conditions, e.g., cancer, HIV/AIDS. This bibliography lists references in English language literature on women's health care issues published as monographs, journal articles, govt reports, tech reports, hearings, news items from Jan 1990 through July 1993. *Women's Sexual and Reproductive Health* Karen J. Leong, Kathy Nakagawa, Aggie J. Yellow Horse, 2024-07-22 *Women's Sexual and Reproductive Health* addresses the sexual and reproductive health needs of Asian American, Native Hawaiian, and Pacific Islander AANHPI women from a structural and intersectional perspective. AANHPI women in the United States have often been grouped together due to their race and gender, regardless of their specific communities' diverse histories with the United States and different educational and economic opportunities. The authors argue that AANHPI women are misunderstood by health professionals and researchers and foregrounds AANHPI women's experiences to demonstrate the challenges they face when seeking health care. The book highlights the diversity of AANHPI women by drawing on their first-hand experiences and argues for the disaggregation of health data on AANHPI women. *Women's Sexual and Reproductive Health* is of value to college classrooms that address racial disparities, health disparities, and women's experiences as well as for health care professionals. *Redeveloping Communication for Social Change* Karin Gwinn Wilkins, 2000 Proposes situating theory and practice within contexts of power, recognizing both the ability of dominant groups to control and the potential for marginal communities to resist.
