A History of German Jewish Bible Translation Abigail Gillman, 2018-04-27 Between 1780 and 1937 Jews in Germany produced numerous new translations of the Hebrew Bible into German Intended for Jews who were trilingual reading Yiddish Hebrew and German they were meant less for religious use than to promote educational and cultural goals Not only did translations give Jews vernacular access to their scripture without Christian intervention but they also helped showcase the Hebrew Bible as a work of literature and the foundational text of modern Jewish identity This book is the first in English to offer a close analysis of German Jewish

translations as part of a larger cultural project Looking at four distinct waves of translations Abigail Gillman juxtaposes translations within each that sought to achieve similar goals through differing means As she details the history of successive translations we gain new insight into the opportunities and problems the Bible posed for different generations and gain a new perspective on modern German Jewish history *Selections from the German Poets, with interlinear translations, notes and complete vocabularies, and a dissertation on mythology* by F. Toward a Science of Translating? Stefan Felber, 2025-03-27

Eugene A Nida is one of the pioneers and founders of modern translation theory, coining the terms dynamic equivalence and formal equivalence and energetically promoting the former though in his latter years preferring the term functional equivalence. Originally formulated for the Bible Translation efforts amongst people groups without the Bible, Nida's theories of translation have also been widely influential in Translation Studies, making this presentation of Eugene A Nida's life 1914-2011 and assessment of his works especially timely and significant.

Stefan Felber is a German Old Testament scholar, former seminary professor and author of the German-only *Wesen und Würde des Wortes: Biblisch-theologische Grundlagen für das Verständnis von Sprache und Kommunikation* (The Nature and Dignity of the Word: Biblical Theological Foundations for Understanding Language and Communication), *Zwischen Babel und Jerusalem: Aspekte von Sprache und Übersetzung* (Among Other Works), *As such*, he is uniquely qualified to offer this fair-minded and masterful yet critical evaluation of Nida's model of translation, doing so from a rich variety of disciplines including exegesis, theology, philology and philosophies of language. Whether one agrees or disagrees with either Nida or Felber, I highly recommend this rigorous and wide-ranging exposition for advancing informed dialogue and promoting further understanding and advances in Translation Studies.

Professor Tom McCormick, Tyndale University College, Toronto: Although the theory of Dynamic or Functional Equivalence was the most widely used method in global Bible translation after the Second World War, there has been no comprehensive study of its foundations and how it was developed by Eugene Nida. Filling this gap is one of the great merits of Felber's study. Felber, while showing great respect for Nida, critically evaluates Dynamic Equivalence from various perspectives: exegetical, theological, philosophical and linguistic. This multi-dimensional, nuanced approach provides the reader with thought-provoking and helpful insights that further the discussion in important ways. Felber's study is a must-read for all who deal with language and translation in theology and the church in Bible translation and mission.

Prof. Dr. Markus Zehnder, Internationale Hochschule Bad Liebenzell, Evangelische theologische Fakultät, Leuven, Angerskolen, Kristiansand: Stefan Felber's *Toward a Science of Translating* is a landmark study in Biblical Translation Theory, focussing on Eugene Nida (1914-2011), who for many years was a central figure in the American Bible Society and the United Bible Societies. Nida has been described as probably the world's leading scholar on translation, and his theory of Dynamic or Functional Equivalence provided a leading paradigm for Bible translators for decades. In this thorough analysis of his work and its reception, Felber highlights a number of weaknesses as well as some strengths affiliated with Nida's theory, promoting translation theory based on reader-oriented thought for thought patterns rather than traditional source-oriented analysis of textual form and content. Felber's evaluation raises a critical question: Are facets of the biblical text pertaining to biblical language and hermeneutics, theology and the transcendent downplayed in

Nida's addressee oriented approach to translation I hope this book will be widely read by translators biblical scholars and others interested in translation of the Bible Dr Tomas Bokedal Associate Professor of New Testament and Early Christianity NLA University College Norway Docent of New Testament Exegesis Lund University Sweden *Translation and Translating in German Studies* John L. Plews, Diana Spokiene, 2016-11-08 *Translation and Translating in German Studies* is a collection of essays in honour of Professor Raleigh Whiting, a well loved scholar of German literature an inspiring teacher and an exceptional editor and translator Its twenty chapters written by Canadian and international experts explore new perspectives on translation and German studies as they inform processes of identity formation gendered representations visual and textual mediations and teaching and learning practices Translation as a product and translating as a process function both as analytical categories and as objects of analysis in literature film dance architecture history second language education and study abroad experiences The volume arches from theory and genres more traditionally associated with translation i.e. literature philosophy to new media dance film and experiential education and identifies pressing issues and themes that are increasingly discussed and examined in the context of translation This study will be invaluable to university and college faculty working in the disciplines in German studies as well as in translation cultural studies and second language education Its combination of theoretical and practical explorations will allow readers to view cultural texts anew and invite educators to revisit long forgotten or banished practices such as translation in auto biographical writing and in the German language classroom
