Giovanna Lelli

The Lamp Of Beauty:

The Lamp of Beauty John Ruskin, 1995-09-21 John Ruskin was arguably the most important critic of the 19th century. His influence affected the course of British art and architecture and this book provides in a single volume his finest essays, teachings, and appreciations of works of art.

The Lamp of Beauty John Ruskin, 1980 This revival of a famous Phaidon series brings together in an elegant format some of the best known writings of renowned artists, critics, and interpreters of our cultural tradition. Each book, an acknowledged classic, provides insights not only into the worlds of the arts and cultural history but also into the creative and intellectual preoccupations of its author and his time. These Phaidon editions have an introduction and notes by a distinguished editor and a wide range of illustrations specially chosen to complement the text.

The True and the Beautiful in Nature, Art, Morals, and Religion John Ruskin, 1860 *The True and the Beautiful* John Ruskin, Louisa Caroline Tuthill, 1859

A World History of Architecture Marian Moffett, Michael W. Fazio, Lawrence Wodehouse, 2003 The Roman architect and engineer Vitruvius declared *firmitas*, *utilitas*, and *venustas*—firmness, commodity, and delight—to be the three essential attributes of architecture. These qualities are brilliantly explored in this book, which uniquely comprises both a detailed survey of Western architecture, including Pre-Columbian America, and an introduction to architecture from the Middle East, India, Russia, China, and Japan. The text encourages readers to examine closely the pragmatic, innovative, and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers. Artistic, economic, environmental, political, social, and technological contexts are discussed so as to determine the extent to which buildings met the needs of clients, society at large, and future generations.

Values of Beauty Paul Guyer, 2005-06-20 This book discusses the context and content of aesthetics as they relate to philosophical history and imagination.

Returning to the Source Osho, 2023-04-19 Zen is dhyana in China; it became Chan and then from China it had to be taken to Japan because in China also it soon became impossible to find a man who was ready to receive it. This Kaku brought it from China to Japan. Just as Bodhidharma took it from India to China, Kaku brought it from China to Japan.

The Experimental Psychology of Beauty C.W. Valentine, 2015-06-05 Originally published in 1962, the experimental study of aesthetics was a field particularly associated with the name of C.W. Valentine, who in this book provided a critical review of research carried out since the end of the nineteenth century, principally by British and American psychologists. The investigations described, many of them conducted by the author, are concerned with individual responses to what is commonly regarded as beautiful in painting.

music and poetry an important distinction being made between the perception of objects as beautiful as opposed to pleasing The reactions of children and adults and of people having different ethnic and social backgrounds are explored in a variety of experiments dealing with specific elements including colour form and balance in painting musical intervals discord harmony melody and tempo and rhythm metre imagery and associations in classical and romantic poetry Other experiments seek to disclose the temperamental and attitudinal factors underlying individual differences in the judgement and appreciation of specific works of art Of particular interest are the studies of responses to modern paintings poems and musical compositions The findings throw light on the development of discrimination and taste and suggest the possibility of some common factor in the appreciation of these three arts It was felt that critics as well as psychologists and aestheticians would find much to encourage reflection and to stimulate further research

Aesthetics in a Multicultural Age Emory Elliott, Lou Freitas Caton, Jeffrey Rhyne, 2002-01-10 Aesthetics in a Multicultural Age examines a variety of significant multidisciplinary and multicultural topics within the subject of aesthetics Addressing the vexed relation of the arts and criticism to current political and cultural concerns the contributors to this volume attempt to bridge the two decades old gap between scholars and critics who hold conflicting views of the purposes of art and criticism By exploring some of the ways in which global migration and expanding ethnic diversity are affecting cultural productions and prompting reassessment of the nature and role of aesthetic discourse this volume provides a new evaluation of aesthetic ideas and practices within contemporary arts and letters

Knowledge and Beauty in Classical Islam Giovanna Lelli, 2020-10-18 This volume offers an aesthetic reading of the Muqaddima by Ibn Khaldun d 1406 a text that has been studied up to the present as a work on historiography It argues that the Muqaddima is also a comprehensive treatise on classical Arab Islamic culture and provides a picture of classical Arab Islamic aesthetics in its totality The theme of the book is the intrinsic connection between beauty and knowledge in the Muqaddima Whenever Ibn Khaldun deals with the problem of knowledge and science he also deals with the problem of sensual beauty as an instrument or an obstacle to attain it Ibn Khaldun's philosophy of history is necessarily also an aesthetics of history His key notion of

group feeling the physical ethic and aesthetic virtue of Bedouin societies is at once the origin of the ascent of centralised States and the cause of their ruin It represents a tragic contradiction that applies to the history of the Maghreb but then takes a universal value It reflects a range of other contradictions inherent to the system of classical Arab Islamic aesthetics These contradictions undermine the aesthetic system of the Muqaddima from within and provide decisive elements for the emergence of modern aesthetics Offering a comparative approach the volume is a key resource to scholars and students interested in Arabic and Islamic studies philosophy aesthetics and global history
