controllers strike and other evidence on pay and labor relations in government unions Finally Adie examines the experiences of Canada and Great Britain with privatization of government companies He then offers a comprehensive and controversial reform plan for the U S Postal Service with no further monopoly privileges or taxpayer subsidies He argues that private companies should be free to compete with the Postal Service and it in turn should be free to compete in all phases of the communications business Without privatization and deregulation the Postal Service is doomed to continuing inefficiency rising costs worsening labor relations and an increasing loss of customers to more innovative and efficient service providers Competition would give the Postal Service a chance to enter the 21st ce Dinosaurs Spencer G.
