The Last Integrationist Jake Lamar, 1997-08-19 Jake Lamar's combustible visionary provocative novel explores the ambiguities of race in America as the first black politician with a real shot at the White House fights for his political career and ultimately his own soul

*European Integration Perspectives in Times of Global Crises* Andreas Kellerhals, Tobias Baumgartner, Corinne Reber, 2023-04-06 With its White Paper on the Future of Europe the European Commission initiated a debate on fundamental reforms of the Union's structures in 2017 The paper outlined five reform scenarios ranging from a reduction and refocusing of the EU's competences to deeper integration in the spirit of a United States of Europe However the White Paper ultimately had no tangible impact as none of the proposed scenarios were implemented Nevertheless current global challenges including health crises climate change energy resource management shifting global power dynamics and related security issues underscore the growing need for a strong and united Europe The idea of an ever closer union as enshrined in the preamble of the 1992 EU Treaty could be experiencing a revival Against this backdrop the 13th Network Europe Conference examined the significance of the European integration project in times of global crisis Discussions focused on key policy challenges the EU's relationships with its eastern and southern neighbors and its role in relation to global actors such as China and Russia The publication features contributions from Michael Ambühl Jelena Ceranic Perisic Viorel Cibotaru Christelle Genoud Christos V Gortsos Iris Goldner Lang Nora Meier Peter Christian Müller Graff Eva Pils Clara Portela and Peter R Rodrigues Network Europe was founded in 2003 by the Europa Institute at the University of Zurich with support from the Swiss government It serves as a forum for scholarly exchange on legal and political aspects of European integration bringing together researchers from across Europe

**Integration Requirements for Immigrants in Europe** Tamar de Waal, 2021-06-17 Based on legal philosophical research and informed by insights gleaned from empirical case studies this book sets out three central claims about integration requirements as conditions for attaining increased rights ie family migration permanent residency and citizenship in Europe 1 That the recent proliferation of these mandatory integration requirements is rooted in a shift towards individualised conceptions of integration 2 That this shift is counterproductive as it creates barriers to participation and inclusion for newcomers who will most likely permanently settle and is normatively problematic insofar as it produces status hierarchies between native born and immigrant citizens 3 That the remedy for this situation is a firewall that disconnects integration policy from access to rights The book draws on perspectives on immigrant integration in multiple EU Member States and includes legal and political reactions to the refugee migrant crisis

**The Effects of Greater Economic Integration Within the European Community on the United States** United States International Trade Commission, 1991

**Bulgaria in Global Value Chains: Leveraging Integration with the EU** Giacomo Magistretti, Iglia Vassileva, 2024-06-24 As a small open economy Bulgaria benefits from economic exchanges with global partners However after a boost before the Global Financial Crisis and EU accession its

integration in global value chains has been growing only modestly in recent years and it remains particularly low when it comes to links with EU partners To capitalize from the integration with the EU Single Market and exploit the opportunities that will come from joining the euro zone and the Schengen area Bulgaria should focus on enhancing its non cost competitiveness by improving its governance and investing in infrastructure and human capital *Rethinking Free Trade, Economic Integration and Human Rights in the Americas* María Belén Olmos Giupponi, 2017-01-26 This monograph offers the first systematic overview of the protection of human rights in trade agreements in the Americas Traditionally trade agreements in the Americas were concerned with economic questions and paid little attention to human rights However in the wake of the new regionalism which emerged at the end of the last century more clauses addressing social issues such as labour rights and environmental standards were inserted in trade agreements As economic integration increased a framework for the protection of human rights evolved This book argues that this framework allows for human rights protection on a transnational level while constructing regional identities Looking at the four key regional integration processes namely the Caribbean Community the Central American Integration System the Andean Community of Nations and the Southern Common Market and also at the North American Free Trade Agreement it shows how the integration process has reached a considerable degree of consolidation Writing on key sources in English for the first time this book will be essential reading for all free trade and human rights scholars Naturalisation: A Passport for the Better Integration of Immigrants? OECD, 2011-03-31 This conference proceedings provides the papers presented at the This conference proceedings provides the papers presented at the OECD European Commission joint seminar on Naturalisation and the Socio Economic Integration of Immigrants and their Children held in October 2010 in Brussels *Challenging the Paradoxes of Integration Policies* Fabiola Pardo, 2017-08-29 This book traces Latin American migration to Europe since the 1970s Focusing on Amsterdam London and Madrid it examines the policies of integration in a comparative perspective that takes into account transnational national regional and local levels It examines the entire mechanism that Latin American migrants confront in the European cities they settle and provides readers with a theoretical framework on integration that addresses the concepts of multiculturalism interculturality transculturality and transnationalism This work is based on rich qualitative data from in depth interviews focus groups and participant observation complemented by a substantial documentary and legislative analysis It reveals that current policies are limited and migrants are excluded in most of the formal venues for integration In addition the book shows the many ways that migrants negotiate the constraints and imperatives of integration In Western Europe today immigrants are largely assuming the entire responsibility of their integration This book provides readers with much needed insight into why European integration policies are not responding to the needs of immigrants nor to society as a whole *International Handbook on the Economics of Integration* Miroslav N. Jovanović, 2011-01-31 International Handbook of Economic Integration edited by Miroslav Jovanovi provides timely and rich academic contributions

to considerations of the widest array of integration related issues European integration has been providing an inspiration to a number of academics and researchers The Handbook is a recognition of the dynamic and strong solidarity of the European integration At the same time the European Union often provided an example for integration schemes throughout the world which spread enormously since the mid 1990s Leading experts from all continents contributed to this Handbook which will be a valuable input into academic and policy making discussions and actions Jos Manuel Barroso President of the European Commission Miroslav Jovanovi s publication represents a rich contribution to the complex issue of regional integration its benefits its shortcomings and its relationship with multilateral trade opening It sheds light over an issue which is the subject of intense discussions in trade circles Pascal Lamy Director General of the WTO Much has been written on trade agreements as a mechanism to integrate the markets of two or more countries often inspired by the European example In recent years attention has increasingly focused on the importance of economic geography as a determinant of industrial location This book combines the two strands of analysis bringing together leading experts in the fields of economic geography and international trade The result is an outstanding compilation of papers that illuminate how policies and economic forces affect the location of economic activity in an integrated Europe Bernard Hoekman Director The World Bank US The open multilateral trading system is a tremendous success of the past half century and has contributed greatly to the world s unprecedented rate of economic growth Over the past two decades however preferential trading arrangements have proliferated raising questions as to how compatible they are with the open multilateral system and what policies might be adopted to improve outcomes The essays in this volume detail the emergence of PTAs and provide comprehensive and up to date analyses of the state of play of preferential arrangements in all regions of the world The volume will provide a useful reference for all those wanting to understand existing preferential arrangements and their role in the international economy today Anne O Krueger Johns Hopkins University and Stanford University US Economic integration is a complex and multifaceted giant with a myriad aspects ranging from regional and global concentration and dispersal of economic activity to social and political consequences for individuals and communities in developed and developing countries alike This landmark three volume collection of chapters by leading authors drawn from many fields is a worthy and timely contribution to the analysis of a phenomenon with profound implications for the future world economy and its governance James Zhan Director Investment agriculture and environment and quantitative studies of integration effects A removal of barriers for the mobility of factors in certain integration arrangements among countries has an impact on the mobility of capital firms and individuals within the group Various aspects of this factor mobility are analysed in eight detailed chapters The second theme of the Handbook is devoted to agriculture and environment This is of great global relevance as the Common Agricultural Policy of the EU has been a bone of contention in international relations over several decades Finally seven quantitative studies of the effects of integration attempt to measure various potential benefits of regional integration efforts Contributors
