The Last Lords Of Palenque The Lacandon Mayas Of The Mexican Rain Forest:

The Last Lords of Palenque Victor Perera, Robert D. Bruce, 1985 Presents a firsthand account of life among the Lacandon Indians of Nah in southern Mexico which is a community whose genealogy has been obscured by the absence of a written tradition and may be traced back linguistically and culturally to the great Maya civilization *The Forest of the Lacandon Maya* Suzanne Cook, 2016-03-15 The Forest of the Lacandon Maya An Ethnobotanical Guide with active links to audio video recordings serves as a comprehensive guide to the botanical heritage of the northern Lacandones Numbering fewer than 300 men women and children this community is the most culturally conservative of the Mayan groups Protected by their hostile environment over many centuries they maintain autonomy from the outside forces of church and state while they continue to draw on the forest for spiritual inspiration and sustenance In The Forest of the Lacandon Maya An Ethnobotanical Guide linguist Suzanne Cook presents a bilingual Lacandon English ethnobotanical guide to more than 450 plants in a tripartite organization a botanical inventory in which main entries are headed by Lacandon names followed by common English and botanical names and which includes plant descriptions and uses an ethnographic inventory which expands the descriptions given in the botanical inventory providing the socio historical dietary mythological and spiritual significance of most plants and chapters that discuss the relevant cultural applications of the plants in more detail provide a description of the area s geography and give an ethnographic overview of the Lacandones Active links throughout the text to original audio video recordings demonstrate the use and preparation of the most significant plants **The Oxford Handbook of Museum Archaeology** Alice Stevenson, 2022 This Handbook provides a transnational reference point for critical engagements with the legacies of and futures for global archaeological collections It advances museum archaeology as an area of reflexive research and practice addressing the critical issues of what gets prioritized by and researched in museums by whom how and why **Yucatán's Maya Peasantry and the Origins of the Caste War** Terry Rugeley, 2010-01-01 Conflicts between native Maya peoples and European derived governments have punctuated Mexican history from the Conquest in the sixteenth century to the current Zapatista uprising in Chiapas In this deeply researched study Terry Rugeley delves into the 1800 1847 origins of the Caste War the largest and most successful of these peasant rebellions Rugeley refutes earlier studies that seek to explain the Caste War in terms of a single issue Instead he explores the interactions of several major social forces including the church the hacienda and peasant villagers He uncovers a complex web of issues that led to the outbreak of war including the loss of communal lands substandard living conditions the counterpoise of Catholicism versus traditional Maya beliefs and an increasingly heavy tax burden Drawn from a wealth of primary documents this book represents the first real attempt to reconstruct the history of the pre Caste War period In addition to its obvious importance for Mexican history it will be illuminating background reading for everyone seeking to understand the ongoing conflict in Chiapas The Living Maya Robert Sitler, Ph.D., 2012-04-10 Author Robert Sitler s immersion in Mayan culture began with

a transformative spiritual experience more than three decades ago in the ruins of Palenque Mexico Led by a local to a nearby Mayan village Sitler discovered firsthand what traditional Mayan life was like a community of people living in peace with each other and their physical surroundings In *The Living Maya* he shares this experience and many that followed In the process he immerses readers in a rich indigenous culture and offers a fresh view of the 2012 phenomenon focusing on the valuable lessons Mayan culture can teach us in this time of transition Personal anecdotes are interwoven with factual information about the roots of traditional Mayan customs and traditions presenting a rare multifaceted view of their simple yet profound way of life The book showcases Mayan infant care community building ties to nature attitudes toward the elderly and orientation to spirituality In *The Living Maya* Sitler shows how following the Mayan way can help us ground our lives in harmony with nature broaden our perspectives on human existence connect us with our capacity for compassion and use the vaunted cataclysm of 2012 as a unique chance for growth

Unwriting Maya Literature Paul M. Worley, Rita M. Palacios, 2019-05-07 *Unwriting Maya Literature* provides an important decolonial framework for reading Maya texts that builds on the work of Maya authors and intellectuals such as Q'anjob'al Gaspar Pedro González and Kaqchikel Irma Otzoy Paul M. Worley and Rita M. Palacios privilege the Maya category ts'ib over constructions of the literary in order to reveal how Maya peoples themselves conceive of artistic creation This offers a decolonial departure from theoretical approaches that remain situated within alphabetic Maya linguistic and literary creation As ts'ib refers to a broad range of artistic production from painted codices and textiles to works composed in Latin script as well as plastic arts the authors argue that texts by contemporary Maya writers must be read as dialoguing with a multimodal Indigenous understanding of text In other words ts'ib is an alternative to understanding writing that does not stand in opposition to but rather fully encompasses alphabetic writing placing it alongside and in dialogue with a number of other forms of recorded knowledge This shift in focus allows for a critical reexamination of the role that weaving and bodily performance play in these literatures as well as for a nuanced understanding of how Maya writers articulate decolonial Maya aesthetics in their works *Unwriting Maya Literature* places contemporary Maya literatures within a context that is situated in Indigenous ways of knowing and being Through ts'ib the authors propose an alternative to traditional analysis of Maya cultural production that allows critics students and admirers to respectfully interact with the texts and their authors *Unwriting Maya Literature* offers critical praxis for understanding Mesoamerican works that encompass non Western ways of reading and creating texts [The Postclassic to Spanish-Era Transition in Mesoamerica](#) Susan Kepecs, Rani T.

Traditional histories of North and South America often leave the impression that Native American peoples had little impact on the colonies and empires established by Europeans after 1492 This groundbreaking study which spans more than 300 years demonstrates the agency of indigenous peoples in forging their own history and that of the Western Hemisphere By putting the story of the indigenous peoples and their encounters with Europeans at the center a new history of the New World emerges in which the Native Americans become vibrant and vitally important components of the British French Spanish and Portuguese empires In fact their presence was the single most important factor in the development of the colonial world By discussing the great encounter of peoples and cultures this book provides a valuable new perspective on the history of the Americas
