The Kingdom Of Leon Castilla Under Queen Urraca 1109 1126:

The Kingdom of Leon-Castilla Under Queen Urraca, 1109-1126 Bernard F. Reilly, 1982-01-01 **Kingdom of Leon Castilla Under Queen Urraca** Bernard F. Reilly, 1982 Savannah Republican , 1865 Medieval Iberia Olivia Remie Constable, Damian Zurro, 2012 For some historians medieval Iberian society was one marked by peaceful coexistence and cross cultural fertilization others have sketched a harsher picture of Muslims and Christians engaged in an ongoing contest for political religious and economic advantage culminating in the fall of Muslim Granada and the expulsion of the Jews in the late fifteenth century The reality that emerges in Medieval Iberia is more nuanced than either of these scenarios can comprehend Now in an expanded second edition this monumental collection offers unparalleled access to the multicultural complexity of the lands that would become modern Portugal and Spain The documents collected in Medieval Iberia date mostly from the eighth through the fifteenth centuries and have been translated from Latin Arabic Hebrew Judeo Arabic Castilian Catalan and Portuguese by many of the most eminent scholars in the field of Iberian studies Nearly one quarter of this edition is new including visual materials and increased coverage of Jewish and Muslim affairs as well as more sources pertaining to women social and economic history and domestic life This primary source material ranges widely across historical chronicles poetry and legal and religious sources and each is accompanied by a brief introduction placing the text in its historical and cultural setting Arranged chronologically the documents are also keyed so as to be accessible to readers interested in specific topics such as urban life the politics of the royal courts interfaith relations or women marriage and the family **Faith and Sword** Alan G. Jamieson, 2006-06-26 In today's tense geopolitical climate terrorist groups avow their allegiance to the Islamic faith in their edicts while the president of the United States undertakes controversial wars in Islamic nations and openly refers to his Christian faith as a key component of his decision making With the recent surge in terrorist acts and military confrontations as well as ever strengthening fundamentalist ideologies on both sides the Christian Muslim divide is perhaps more visible than ever but it is not new Alan G Jamieson explores here the long and bloody history of the Christian Muslim conflict revealing in his concise yet comprehensive study how deeply this ancient divide is interwoven with crucial events in world history Faith and Sword opens with the tumultuous first centuries of the conflict examining the religious precepts that framed clashes between Christians and Muslims and that ultimately fueled the legendary Crusades Traversing the full breadth of the Arab lands and Christendom Jamieson chronicles the turbulent saga from the Arab conquests of the seventh century to the rise of the powerful Ottoman Empire and its fall at the end of World War I Faith and Sword then explores the complex dynamics that emerged later in the twentieth century as Christendom was transformed into the secular West and Islamic nations overthrew European colonialism to establish governments straddling modernity and religiosity From the 1979 Iranian revolution to the Lebanon hostage crisis to the present day war in Iraq Faith and Sword reveals the essence of this enduring struggle and its consequences **How Medieval Europe was Ruled** Christian

Raffensperger,2023-09-06 The vast majority of studies on rulership in medieval Europe focus on one kingdom one type of rule or one type of ruler This volume attempts to break that mold and demonstrate the breadth of medieval Europe and the various kinds of rulership within it How Medieval Europe was Ruled aims to demonstrate the multiplicity of types of rulers and polities that existed in medieval Europe The contributors discuss not just kings or queens but countesses dukes and town leadership We see that rulers worked collaboratively with one another both across political boundaries and within their own borders in ways that are not evident in most current studies of kingship inhibited by too narrow a focus The volume also covers the breadth of medieval Europe from Scandinavia in the north to the Italian peninsula in the south Iberia and the Anglo Normans in the west to Rus Byzantium and the Khazars in the east This book is geared towards a wide audience and thus provides a broad base of understanding via a clear explanation of concepts of rule in each of the areas that is covered The book can be utilized in the classroom to enhance the presentation of a medieval Europe survey or to discuss rulership more specifically for a region or all of Europe Beyond the classroom the book is accessible to all scholars who are interested in continuing to learn and expand their horizons Calixtus the Second, 1119-1124 Mary Stroll,2004 This new

interpretation of the reign of Calixtus II 1119 1124 challenges the conventional analysis explaining why this life long opponent of the emperor Henry V agreed to compromise over imperial investitures of bishops in the Concordat of Worms of 1122 Interfaith Relationships and Perceptions of the Other in the Medieval Mediterranean Sarah Davis-Secord,Belen Vicens,Robin Vose,2021-12-16 This book is a collaborative contribution that expands our understanding of how interfaith relations both real and imagined developed across medieval Iberia and the Mediterranean The volume pays homage to the late Olivia Remie Constable s scholarship and presents innovative thought provoking interdisciplinary investigations of cross cultural exchange ranging widely across time and geography Divided into two parts Perceptions of the Other and Interfaith relations this volume features scholars engaging with church art literature historiography scientific treatises and polemics in order to study how the religious Other was depicted to serve different purposes and audiences There are also microhistories that examine the experiences of individual families classes and communities as they interacted with one another in their own specific contexts Several of these studies draw their source material from church and state archives as well as jurisprudential texts and span the centuries from the late medieval to early modern periods **Anne de France and Her Family**

(1325-1522) Zita Eva Rohr,2025-08-24 This book demonstrates that premodern elite and royal women were critical to the geopolitical success of late medieval territorial monarchies the progenitors of early modern states It aims to communicate the un exceptionality of female political influence in medieval and early modern Europe Manifesting sophisticated and informed leadership in times of challenge and transformation women such as Anne de France her matrilineal line and the elite women and girls in her orbit were key to early modern government politics and diplomacy Through a longue dur e case study this book examines generations of a premodern matriline culminating in Anne beginning with Elisabetta di Carinzia

and her daughter Elionor de Sic lia continuing with Elionor s daughters in law moving into the territories of the insular and peninsular kingdoms of Naples into France with Elionor s granddaughter Yolande d Aragon and into England with Yolande s granddaughter Marguerite d Anjou to influence and underwrite powerful and influential territorial monarchies Together these women and the others discussed in this study form an important part of Anne de France s matrilineal heritage providing her with a historical template of lived political experience on which to construct her own gendered political theory and practice

Narrative, Piety and Polemic in Medieval Spain Alun Williams, 2024-03-21 This book presents an original perspective on the variety and intensity of biblical narrative and rhetoric in the evolution of history writing in Le n Castile during the twelfth and thirteenth centuries It focuses on six Hispano Latin chronicles two of which make unusually overt and emphatic use of biblical texts Of particular importance is the part played by the influence of exegesis that became integral to scriptural and liturgical influence both in and beyond monastic institutions Alun Williams provides close analysis of the text and comparisons with biblical typology to demonstrate how these historians from the north of Iberia were variously dependent on a growing corpus of patristic and early medieval interpretation to understand and define their world and their sense of place Narrative Piety and Polemic in Medieval Spain sees Williams examine this material as part of a comparative exploration of language and religious allusion showing how the authors used these biblical liturgical elements to convey historical context purpose and interpretation

The King's Other Body Theresa Earenfight, 2012-02-24 Queen Mar a of Castile wife of Alfonso V the Magnanimous king of the Crown of Aragon governed Catalunya in the mid fifteenth century while her husband conquered and governed the kingdom of Naples For twenty six years she maintained a royal court and council separate from and roughly equivalent to those of Alfonso in Naples Such legitimately sanctioned political authority is remarkable given that she ruled not as queen in her own right but rather as Lieutenant General of Catalunya with powers equivalent to the king s Mar a does not fit conventional images of a queen as wife and mother indeed she had no children and so never served as queen regent for any royal heirs in their minorities or exercised a queen mother s privilege to act as diplomat when arranging the marriages of her children and grandchildren But she was clearly more than just a wife offering advice she embodied the king s personal authority and was second only to the king himself She was his alter ego the other royal body fully empowered to govern For a medieval queen this official form of rulership combining exalted royal status with official political appointment was rare and striking The King s Other Body is both a biography of Mar a and an analysis of her political partnership with Alfonso Mar a s long busy tenure as lieutenant prompts a reconsideration of long held notions of power statecraft personalities and institutions It is also a study of the institution of monarchy and a theoretical reconsideration of the operations of gender within it If the practice of monarchy is conventionally understood as strictly a man s job Mar a s reign presents a compelling argument for a more complex model one attentive to the dynamic relationship of queenship and kingship and the circumstances and theories that shaped the institution she inhabited

Tanner, 2019-01-09 For decades medieval scholarship has been dominated by the paradigm that women who wielded power after c 1100 were exceptions to the rule of female exclusion from governance and the public sphere This collection makes a powerful case for a new paradigm Building on the premise that elite women in positions of authority were expected accepted and routine these essays traverse the cities and kingdoms of France England Germany Portugal and the Latin Kingdom of Jerusalem in order to illuminate women's roles in medieval power structures Without losing sight of the predominance of patriarchy and misogyny contributors lay the groundwork for the acceptance of female public authority as normal in medieval society fostering a new framework for understanding medieval elite women and power **The Contest of Christian and Muslim Spain 1031 - 1157** Bernard F. Reilly, 1996-01-09 This book is the first account of the period to consider both Christian and Muslim Spain The author discusses the various societies cultures and governments of Muslim and Christian Iberia in the centuries of their critical confrontation Beginning with the disintegration of the caliphate at Cordoba in the early eleventh century the book traces the decline of the Muslim taifa states and describes and explains their conquest first by the Murabit and then the Muwahhid
