Accessions, pt.[1]-94* British museum dept. of pr. books, 1884      *Music at the Maison royale de Saint-Louis at Saint-Cyr* Deborah Kauffman, 2018-07-24

The history of music at the Maison royale de Saint Louis at Saint Cyr the famous convent school founded by Madame de Maintenon and established by Louis XIV in 1686 as a royal foundation is both rich and intriguing its large repertory of music was composed expressly for young female voices by important composers working within significant contemporary musical genres liturgical chant sacred motets theatrical music and cantiques spirituels While these genres reflect contemporary styles and trends at the same time the works themselves were made to conform to the sensibilities and abilities of their intended performers Even as Jean Baptiste Moreau's music for Jean Racine's biblical tragedies Esther and Athalie shows a number of similarities to contemporary tragédies lyriques it departs from that more public genre in its brevity generally simpler solo writing and the integral use of the chorus The musical style of the choral numbers closely parallels that of other choral music in the repertory at Saint Cyr The liturgical chant sung in the church was composed by Guillaume Gabriel Nivers and is an example of plain chant musical a type of new ecclesiastical composition written during the seventeenth and eighteenth centuries primarily for female religious communities in France The large repertory of petits motets short sacred Latin pieces for solo voice mostly composed by Nivers and Louis Nicolas Clément are simpler and more restrained than works by their contemporaries A close study of the motets reveals much about changes to musical style and performance practices at Saint Cyr during the eighteenth century The cantique spirituel a song with a spiritual text in the vernacular French language played a significant role in both the education and recreation of the girls at Saint Cyr Cantiques composed for the girls vary widely in terms of their style and difficulty ranging from simple strophic melodies to more sophisticated works in the style of contemporary airs In all cases the stylistic features of the music for Saint Cyr reflect a careful consideration of the needs and capabilities of the young singers of the school as well as an awareness of the rigorous requirements of Madame de Maintenon who kept a close watch over the propriety of all things relating to the piety behavior and image of her charges      *Reeled In: Pre-existing Music in Narrative Film* Jonathan Godsall, 2018-10-09

How and why is pre-existing music used in films What effects can its use have on films and their audiences And what lasting impact can appropriation have on the music *Reeled In* is a comprehensive exploration of these questions considering the cinematic quotation of Beethoven symphonies Beatles songs and Herrmann scores alike in films ranging from the early sound era to the present day and in every role from main title theme to music playing in bar Incorporating a discussion of such factors as copyright and commerce alongside examination of texts and their effects this broad study is a significant contribution to the scholarship on music in screen media demonstrating that pre-existing music possesses unique attributes that can affect both how filmmakers construct their works and how audiences receive them to an extent regardless of the music's style genre and

so on This book also situates the reception of music by film and by audiences experiencing that music through film as significant processes within present day culture while more generally providing an illuminating case study of the kinds of borrowings adaptations and reinventions that characterize much of today s art and entertainment     **Grove's Dictionary of Music and Musicians** George Grove,1916     **The International Cyclopedia of Music and Musicians** Oscar Thompson,1975     **General history of the science and practice of music.
