Paradigms and Methods in Early Medieval Studies C. Chazelle, F. Lifshitz, 2016-04-30 The articles in this volume by scholars all pursuing careers in the United States concern the theoretical approaches and methods of early medieval studies Most of the issues examined span the period from roughly 400 to 1000 CE and regions stretching from westernmost Eurasia to the Black Sea and the Baltic This is the first volume of essays explicitly to reassess the heuristic structures and methodologies of research on early medieval Europe Because of its geographic chronological thematic and methodological diversity and scope the collection also showcases the breadth of early medieval studies currently practiced in the United States

Moses the Egyptian in the Illustrated Old English Hexateuch (London, British Library Cotton MS Claudius B.iv) Herbert R. Broderick, 2017-11-15 In *Moses the Egyptian* Herbert Broderick analyzes the iconography of Moses in the famous illuminated eleventh century manuscript known as the Illustrated Old English Hexateuch A translation into Old English of the first six books of the Bible the manuscript contains over 390 images of which 127 depict Moses with a variety of distinctive visual attributes Broderick presents a compelling thesis that these motifs in particular the image of the horned Moses have a Hellenistic Egyptian origin He argues that the visual construct of Moses in the Old English Hexateuch may have been based on a Late Antique no longer extant prototype influenced by works of Hellenistic Egyptian Jewish exegetes who ascribed to Moses the characteristics of an Egyptian Hellenistic king military commander priest prophet and scribe These Jewish writings were utilized in turn by early Christian apologists such as Clement of Alexandria and Eusebius of Caesarea Broderick's analysis of this Moses imagery ranges widely across religious divides art historical religious themes and classical and early Jewish and Christian sources Herbert Broderick is one of the foremost historians in the field of Anglo

Saxon art with a primary focus on Old Testament iconography Readers with interests in the history of medieval manuscript illustration art history and early Jewish and Christian apologetics will find much of interest in this profusely illustrated study

Oliver O'Donnell, 2019-10-14 Described in the New York Times as the greatest art historian America ever produced Meyer Schapiro was both a close friend to many of the famous artists of his generation and a scholar who engaged in public debate with some of the major intellectuals of his time This volume synthesizes his prolific career for the first time demonstrating how Schapiro worked from the nexus of artistic and intellectual practice to confront some of the twentieth century's most abiding questions Schapiro was renowned for pioneering interdisciplinary approaches to interpreting visual art His lengthy formal analyses in the 1920s Marxist interpretations in the 1930s psychoanalytic critiques in the 1950s and 1960s and semiotic explorations in the 1970s all helped open new avenues for inquiry Based on archival research C Oliver O'Donnell's study is structured chronologically around eight defining debates in which Schapiro participated including his dispute with Isaiah Berlin over the life and writing of Bernard Berenson Schapiro's critique of Martin Heidegger's ekphrastic commentary on Van Gogh and his

confrontation with Claude Lévi-Strauss over the applicability of mathematics to the interpretation of visual art O'Donnell's thoughtful analysis of these intellectual exchanges not only traces Schapiro's philosophical evolution but also relates them to the development of art history as a discipline to central tensions of artistic modernism and to modern intellectual history as a whole Comprehensive and thought provoking this study of Schapiro's career pieces together the separate strands of his work into one cohesive picture In doing so it reveals Schapiro's substantial impact on the field of art history and on twentieth century modernism

 Florence Abstraction in Medieval Art Elina Gertsman, 2025-10-01 Abstraction haunts medieval art both withdrawing
 figuration and suggesting elusive presence How does it make or destroy meaning in the process Does it suggest the failure of
 figuration the faltering of iconography Does medieval abstraction function because it is imperfect incomplete and
 uncorrected and therefore cognitively visually demanding Is it conversely precisely about perfection To what extent is the
 abstract predicated on theorization of the unrepresentable and imperceptible Does medieval abstraction pit aesthetics
 against metaphysics or does it enrich it or frame it or both Essays in this collection explore these and other questions that
 coalesce around three broad themes medieval abstraction as the untethering of the image from what it purports to represent
 abstraction as a vehicle for signification and abstraction as a form of figuration Contributors approach the concept of
 medieval abstraction from a multitude of perspectives formal semiotic iconographic material phenomenological
 epistemological **Aesthetics and the Incarnation in Early Medieval Britain** Tiffany Beechy, 2023-06-15 This rich study
 takes Insular art on its own terms revealing a distinctive and unorthodox theology that will inevitably change how scholars
 view the long arc of English piety and the English literary tradition Drawing on a wide range of critical methodologies
 Aesthetics and the Incarnation in Early Medieval Britain treats this era as a contact zone of cultural clash and exchange
 where Christianity encountered a rich amalgam of practices and attitudes particularly regarding the sensible realm Tiffany
 Beechy illustrates how local cultures including the Irish learned tradition received the Word that was made flesh the central
 figure of Christian doctrine in distinctive ways the Word for example was verbal related to words and signs and was not at all
 ineffable Likewise the Word was often poetic an enigma and its powerful presence was not only hinted at as St Augustine
 would have it but manifest in the mouth or on the page Beechy examines how these Insular traditions received and expressed
 a distinctly iterable Incarnation Often disavowed and condemned by orthodox authorities this was in large part an implicit
 theology expressed or embodied in form such as art compilation or metaphor rather than in treatises Beechy demonstrates
 how these forms drew on various authorities especially important to Britain Bede Gregory the Great and Isidore most
 prominent among them Beechy s study provides a prehistory in the English literary tradition for the better known
 experimental poetics of Middle English devotion The book is unusual in the diversity of its primary material which includes
 visual art including the Book of Kells obscure and often cursorily treated texts such as Adamn n s De locis sanctis On the holy
 lands and the difficult esoterica of the wisdom tradition **Illuminating the Word in the Early Middle Ages** Lawrence

Nees,2023-10-05 This richly illustrated study addresses the essential first steps in the development of the new phenomenon of the illuminated book which innovatively introduced colourful large letters and ornamental frames as guides for the reader's access to the text Tracing their surprising origins within late Roman reading practices Lawrence Nees shows how these decorative features stand as ancestors to features of printed and electronic books we take for granted today including font choice word spacing punctuation and sentence capitalisation Two hundred photographs nearly all in colour illustrate and document the decisive change in design from ancient to medieval books Featuring an extended discussion of the importance of race and ethnicity in twentieth century historiography this book argues that the first steps in the development of this new style of book were taken on the European continent within classical practices of reading and writing and not as usually presented among the non Roman barbarians Anglo-Saxon England: Volume 35 Malcolm Godden,Simon Keynes,2008-01-17 Anglo Saxon England is the only publication which consistently embraces all the main aspects of study of Anglo Saxon history and culture linguistic literary textual palaeographic religious intellectual historical archaeological and artistic and which promotes the more unusual interests in music or medicine or education for example Articles in volume 35 include Record of the twelfth conference of the International Society of Anglo Saxonists at Bavarian American Centre University of Munich 16 August 2005 Virgil the Grammarian and Bede a preliminary study Knowledge of whelk dyes and pigments in Anglo Saxon England The representation of the mind as an enclosure in Old English poetry The origin of the numbered sections in Beowulf and in other Old English poems An ethnic dating of Beowulf Hrothgar's horses feral or thoroughbred thelthryth of Ely in a lost calendar from Munich Alfred's epistemological metaphors eagan modes and scip modes Bibliography for 2005 **The Absent Image** Elina Gertsman,2021-06-22 Winner of the 2022 Charles Rufus Morey Award from the College Art Association Winner of the 2023 Otto Gröndler Book Prize from Western Michigan University Guided by Aristotelian theories medieval philosophers believed that nature abhors a vacuum Medieval art according to modern scholars abhors the same The notion of horror vacui the fear of empty space is thus often construed as a definitive feature of Gothic material culture In The Absent Image Elina Gertsman argues that Gothic art in its attempts to grapple with the unrepresentability of the invisible actively engages emptiness voids gaps holes and erasures Exploring complex conversations among medieval philosophy physics mathematics piety and image making Gertsman considers the concept of nothingness in concert with the imaginary revealing profoundly inventive approaches to emptiness in late medieval visual culture from ingenious images of the world's creation ex nihilo to figurations of absence as a replacement for the invisible forces of conception and death Innovative and challenging this book will find its primary audience with students and scholars of art religion physics philosophy and mathematics It will be particularly welcomed by those interested in phenomenological and cross disciplinary approaches to the visual culture of the later Middle Ages *Sensuous Surfaces* Jonathan Hay,2010-06-25 Sensuous Surfaces is a systematic introduction to the decorative arts in Ming and Qing dynasty China

Jonathan Hay's analysis takes in both material and technique and also issues of patronage and taste which together formed a loose system of informal rules that affected every level of decoration in early modern China from an individual object to the arrangement of an entire residential interior. By engaging the actual and metaphoric potential of surface, this system guided the production and use of the decorative arts during a period of explosive growth which started in the late sixteenth century and continued until the mid nineteenth century. The system made a fundamental contribution to the sensory education of China's early modern urban population both as individuals and in their embodiment of established social roles. *Sensuous Surfaces* is also a meditation on the role of pleasure in decoration. Often intellectually dismissed as merely pleasurable, Hay argues that decoration is better understood as a necessary form of art which can fulfil its function only by engaging the human capacity for erotic response. Featuring around 280 colour images of a wide range of early modern Chinese objects and art works, this book will engage anyone with an interest in decoration, art, China, or the experience of pleasure itself. The Jewish Bible David Stern, 2017-09-25 In *The Jewish Bible: A Material History*, David Stern explores the Jewish Bible as a material object: the Bibles that Jews have actually held in their hands from its beginnings in the Ancient Near Eastern world through to the Middle Ages to the present moment. Drawing on the most recent scholarship on the history of the book, Stern shows how the Bible has been not only a medium for transmitting its text, the word of God, but a physical object with a meaning of its own. That meaning has changed as the material shape of the Bible has changed from scroll to codex and from manuscript to printed book. By tracing the material form of the Torah, Stern demonstrates how the process of these transformations echo the cultural, political, intellectual, religious, and geographic changes of the Jewish community. With tremendous historical range and breadth, this book offers a fresh approach to understanding the Bible's place and significance in Jewish culture. *Res Hung Wu, Jaś Elsner*, 2013-02-04 *Res 61-62* includes Chinese coffins from the first millennium B.C. and early images of the afterworld by Alain Thote. Art and personhood by Björn Ewald. Western Han sarcophagi and the transformation of Chinese funerary art by Zheng Yan. Reading identity on Roman strigillated sarcophagi by Janet Huskinson and other papers. **The Sympathy of Things** Lars Spuybroek, 2016-04-21 If there is one thing we can learn from John Ruskin, it is that each age must find its own way to beauty, writes Lars Spuybroek in *The Sympathy of Things*, his ground-breaking work which proposes a radical new aesthetics for the digital era. Spuybroek argues that we must undo the twentieth century and learn to understand the aesthetic insights of the nineteenth-century art critic John Ruskin from which he distils pointers for the contemporary age. Linking philosophy, design, and the digital with art history, architecture, and craft, Spuybroek explores the romantic notion of sympathy, a core concept in Ruskin's aesthetics, re-evaluating it as the driving force of the twenty-first-century aesthetic experience. For Ruskin, beauty always comprises variation, imperfection, and fragility—three concepts that wholly disappeared from our mindsets during the twentieth century but which Spuybroek argues to be central to contemporary aesthetics and design. Revised throughout and with a new foreword by philosopher Brian Massumi, this is

a new edition of a seminal work which has drawn praise from fields as diverse as digital architecture and speculative realism and will continue to be influential as it wrests Ruskin's ideas out of the Victorian era and reconstructs them for the modern age

Qing Encounters Petra ten-Doesschate Chu, Ning Ding, 2015-10-01

Qing Encounters Artistic Exchanges between China and the West examines how the contact between China and Europe in the eighteenth and early nineteenth centuries transformed the arts on both sides of the East West divide. The essays in the volume reveal the extent to which images, artifacts, and natural specimens were traded and copied, and how these materials inflected both cultures' visions of novelty and pleasure, battle and power, and ways of seeing and representing. Artists and craftspeople on both continents borrowed and adapted forms, techniques, and modes of representation, producing deliberate, meaningful, and complex new creations. By considering this reciprocity from both Eastern and Western perspectives, *Qing Encounters* offers a new and nuanced understanding of this critical period.
