Communication Technologies (ICT) by West African Educators Toure, Kathryn,2016-08-06 West African teachers and
professors who are appropriating information and communication technologies ICT are making it part and parcel of
education and everyday life In Mali and beyond they adapt ICT to their milieus and work as cultural agents mediating
between technology and society They yearn to use ICT to make education more relevant to life facilitate and enhance African
participation in global debates and scholarly production and evolve how Africa and Africans are projected and perceived In
sum educators are harnessing ICT for its transformative possibilities The changes apparent in student teacher relations more
interactive and classrooms more dialogical suggest that ICT can be a catalyst for pedagogical change including in document
poor contexts and ones weighed down by legacies of colonialism Learning from the perspectives and experiences of
educators pioneering the use of ICT in education in Africa can inform educational theory practice and policy and deepen
understandings of the concept of appropriation as a process of cultural change The Publishers Weekly ,1926
