The Gulf Tanker War Nadia El-Sayed El-Shazly, 2016-07-27 In the

1984 Tanker War Iraq used its superiority in airpower as an instrument in naval warfare in a strategy designed to end combat Iraq hoped to weaken Iran's economy and internationalize the war to force it to cease fighting or remove the government negotiations would follow with Baghdad in a position of strength Although the Iran Iraq War was first and foremost a ground war an argument can be made that the Tanker War contributed to the 1988 ceasefire

Getting Ready for Nuclear-Ready Iran, 2005 Little more than a year ago the Nonproliferation Policy Education Center NPEC completed its initial analysis of Iran's nuclear program Checking Iran's Nuclear Ambitions Since then Tehran's nuclear activities and public diplomacy have only affirmed what this analysis first suggested Iran is not about to give up its effort to make nuclear fuel and thereby come within days of acquiring a nuclear bomb Iran's continued pursuit of uranium enrichment and plutonium recycling puts a premium on asking what a more confident nuclear ready Iran might confront us with and what we might do now to hedge against these threats These questions are the focus of this volume The book is divided into four parts The first presents the findings of the NPEC's working group on Iran It reflects interviews with government officials and outside specialists and the work of some 20 regional security experts whom NPEC convened in Washington to discuss the commissioned research that is contained in this book Some of this report's findings to keep Iran and others from overtly deploying nuclear weapons or leaving the Nuclear Nonproliferation Treaty NPT are beginning to gain official support The U S Government the International Atomic Energy Agency IAEA and an increasing number of allies now support the idea that states that violate the NPT be held accountable for their transgressions even if they should withdraw from the treaty There also has been increased internal governmental discussion about the need to clarify what should be permitted under the rubric of peaceful nuclear energy as delineated under the NPT The remaining report recommendations which were presented in testimony before Congress in March of 2005 remain to be acted upon
