Situated Lives Gender And Culture In Everyday Life:

Situated Lives Louise Lamphere, Helena Ragoné, Patricia Zavella, 1997 Utilizing rich ethnographic accounts and first person narratives the contributors to this work examine how ordinary people are responding to the complexities of living in today's world Among the issues discussed are counseling surrogate motherhood the abortion debate and cultural and economic domination in Jamaica and on the U S Mexican border Feminist Anthropology Pamela L. Geller, Miranda K. Stockett, 2007-06-19 Feminist Anthropology probes critical issues in the study of gender sex and sexuality While feminist anthropology is often perceived as fragmented this vital new work establishes common ground and situates feminist inquiries within the larger context of social theory and anthropological practice **The Bioarchaeology of Socio-Sexual Lives** Pamela L. Geller, 2016-07-28 This volume uses bioarchaeological remains to examine the complexities and diversity of past socio sexual lives This book does not begin with the presumption that certain aspects of sex gender and sexuality are universal and longstanding Rather the case studies within extend from Neolithic Europe to pre Columbian Mesoamerica to the nineteenth century United States highlight the importance of culturally and historically contextualizing socio sexual beliefs and practices The Bioarchaeology of Socio Sexual Lives highlights a major shortcoming in many scholarly and popular presentations of past socio sexual lives They reveal little about the ancient or historic group under study and much about Western society's modern state of heteronormative affairs To interrogate commonsensical thinking about socio sexual identities and interactions this volume draws from critical feminist and queer studies Reciprocally bioarchaeological studies extend social theorizing about sex gender and sexuality that emphasizes the modern conceptual and discursive Ultimately The Bioarchaeology of Socio Sexual Lives invites readers to think more deeply about humanity's diversity the naturalization of culture and the past's presentation in mass media communications Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and

each entry is followed by Cross References In the electronic version the Reader s Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

Gender and Economics in Muslim Communities Ebru Kongar, Jennifer C. Olmsted, Elora Shehabuddin, 2017-08-25 Bringing together feminist analyses of economic processes and outcomes with feminist critiques of Orientalism this book examines the diverse economic realities facing women in a range of Muslim communities. This approach pays special attention to the role of Islam in economic analyses of gender equality and women's well-being in Muslim communities while at the same time challenging biased and inaccurate accounts that essentialize Islam. Nuanced case studies conducted in Bangladesh, Iran, Israel, Nigeria, and Turkey illustrate the historical and institutional diversity of Muslim communities and draw vivid pictures of the everyday economic lives of Muslim women in these communities. These studies are complemented by quantitative analyses that extend beyond inserting Islam as a dummy variable. The contributions represent a wide range of disciplines including anthropology, economics, gender studies, political science, psychology, and sociology. By placing critiques of Orientalist scholarship in direct dialogue with scholarship on economic development in Muslim contexts, this diverse collection illustrates how different methods and frameworks can work together to provide a better understanding of gender equality and women's well-being in Muslim contexts. In doing so, the authors aim to facilitate conversations among feminist scholars across disciplines in order to provide a more nuanced picture of the situation facing women in Muslim communities. This book was originally published as a special issue of *Feminist Economics*.

Gender Ironies of Nationalism

Tamar Mayer, 2012-10-12 This book provides a unique social science reading on the construction of nation, gender, and sexuality and on the interactions among them. It includes international case studies from Indonesia, Ireland, former Yugoslavia, Liberia, Sri Lanka, Australia, the USA, Turkey, China, India, and the Caribbean. The contributors offer both the masculine and feminine perspective, exposing how nations are comprised of sexed bodies and exploring the gender ironies of nationalism and how sexuality plays a key role in nation building and in sustaining national identity. The contributors conclude that control over access to the benefits of belonging to the nation is invariably gendered: nationalism becomes the language through which sexual control and repression is justified; masculine prowess is expressed and exercised. Whilst it is men who claim the prerogatives of nation and nation building, it is for the most part women who actually accept the obligation of nation and nation building.
