

The Bridges

**Skies the gray of crystal.
A strange design of bridges,
some straight, some arched,
others descending at oblique angles to the first;
and these figures recurring
in other lighted circuits of the canal,
but all so long and light that the banks,
laden with domes, sink and shrink.**

**A few of these bridges
are still covered with hovels,
others support polls,
signals, frail parapets.**

**Minor chords cross
each other and disappear;
ropes rise from the shore.**

**One can make out a red coat,
possibly other costumes
and musical instruments.
Are these popular tunes,
snatches of seigniorial concerts,
remnants of public hymns?**

**The water is gray and blue,
wide as an arm of the sea.
A white ray falling from high
in the sky destroys this comedy.**
