A Basic Classical and Operatic Recordings Collection on Compact Discs for Libraries Kenyon C. Rosenberg, 1990. Lists classical and operatic recordings that are specifically available in the new and desirable compact disc format. Individual titles are graded for their appropriateness to specific types and sizes of libraries. The main portion covers some 160 composers whose works are important in constituting a nuclear library collection of serious music. There are over 1,200 titles included and individually numbered and fully cross-referenced and graded. For numerous works, two or more performances are cited in order to provide the librarian with greater choices. Monophonic works are specifically indicated. Many of the works are annotated. Slavonic Dances, Op. 72, for Piano (4 Hands). Antonin (composer) Dvořák, 1982. *Accessible Orchestral Repertoire* Daniel Chetel, 2020-06-15. Accessible Orchestral Repertoire is a reference volume for conductors who lead non-professional symphonic orchestras, offering practical and insightful commentary on music appropriate for intermediate and advanced youth, community, and collegiate orchestras. Modeled on and complimentary to Daniels Orchestral Music, it is a repertoire and programming resource for youth, academic, and community orchestras. The works included in this book are a combination of well-known warhorses and lesser-known gems, clear favorites for young or amateur players and as well as more challenging pieces. Functioning like an annotated bibliography, entries on individual works include information about the composer, instrumentation, movement length, and publisher. Each entry also features notes regarding the particular pedagogical, stylistic, logistical, and technical strengths and challenges of the specific work. Accessible Orchestral Repertoire will help every conductor in the process of selecting repertoire that will both feature and enrich any individual non-professional ensemble for which thoughtful and strategic programming is required.

This second edition, edited and substantially expanded by Christopher and Katherine Fisher, brings the volume into the 21st century, adding over 500 new or updated composer entries and nearly 1,000 new work entries to the volume, a testament to the renewed interest in piano duet playing. Entries are arranged alphabetically by composer and include both pedagogical and concert repertoire. The annotations and the grade level indications provide piano teachers a wealth of instructional guidance. The book also contains updated appendices listing collections and duet works with voice and other instruments. This new edition features a title index and a list of composers by nationality, making it a convenient and indispensable resource.
