**Walking and the Aesthetics of Modernity** Klaus Benesch, François Specq, 2016-08-31 This book gathers together an array of international scholars critics and artists concerned with the issue of walking as a theme in modern literature philosophy and the arts Covering a wide array of authors and media from eighteenth century fiction writers and travelers to contemporary film digital art and artists books the essays collected here take a broad literary and cultural approach to the art of walking which has received considerable interest due to the burgeoning field of mobility studies Contributors demonstrate how walking far from constituting a simplistic naïve or transparent cultural script allows for complex visions and reinterpretations of a human's relation to modernity introducing us to a world of many different and changing realities

**Walks in the World** Roger Gilbert, 2014-07-14 In the twentieth century no form of experience has been more frequently taken up by poets eager to capture both the openness and fluidity of life and the aesthetic closure of an artwork than that of a walk Examining the walk poem Roger Gilbert contends that at its heart is the desire to keep what we have lived What is the appeal of the walk poem for modern American poets According to Gilbert it provides a ready made frame within which to explore the full range of individual consciousness as it responds to and reflects on the world immediately at hand The unstructured plotless character of the walk allows poets to move freely from place to place image to image thought to thought Suggesting that the walk poem strikes a compromise between the American obsession with process or movement and more traditionally mimetic concerns Gilbert shows how it enables the poet to apprehend the world as horizon rather than landscape Through perceptive and extended analyses of walk poems by Frost Stevens Williams Roethke

Bishop O Hara Snyder Ammons and Ashbery he uncovers a spectrum of representational strategies for transforming passing experiences into the more lasting substance of poetry Walks in the World addresses anyone who takes poetry seriously Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Ecopolitical Homelessness Gerard

Kuperus,2016-05-26 While our world is characterized by mobility global interactions and increasing knowledge we are facing serious challenges regarding the knowledge of the places around us We understand and navigate our surroundings by relying on advanced technologies Yet a truly knowledgeable relationship to the places where we live and visit is lacking This book proposes that we are utterly lost and that the loss of a sense of place has contributed to different crises such as the environmental crisis the immigration crisis and poverty With a rising number of environmental political and economic displacements the topic of place becomes more and more relevant and philosophy has to take up this topic in more serious ways than it has done so far To counteract this problem the book provides suggestions for how to think differently both about ourselves our relationship to other people and to the places around us It ends with a suggestion of how to understand ourselves in an eco political community one of humans and other living beings as well as inanimate objects This book will be of great interest to researchers and students of environmental ethics and philosophy as well as those interested in the environmental humanities more generally **Jerry Snyder's Guitar School, Method Book 1** Jerry Snyder, Well respected

(State)., People v. Belton, 160 MICH 416 (1910) , 160 **Sustainable Poetry** Leonard M. Scigaj, 2021-12-15 Focusing on the work of A R Ammons Wendell Berry W S Merwin and Gary Snyder author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base so a sustainable poetry does not restrict interest to language Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking But critics trained in poststructuralist language theory often fail to explore the substance of ecopoetry Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry marked by its concern with balancing the interests of human beings with the needs of nature Just as science learned that the earth was not the center of the universe ecopoetry insists on the recognition that humans are not at the center of the natural world Hansen-Snyder Company v.
