## So Ist Es:

*Adalbert Stifter's Late Prose* Helena Ragg-Kirkby, 2000 Provides a view of the late Stifter as a forerunner of twentieth century modernism Adalbert Stifter has always been viewed as a natural heir to the Great Classical tradition even by those critics who detect disturbing subtexts in his fiction But he should be viewed quite differently however well disguised he is in truth a closet modernist and a major trailblazer for Kafka and the Absurd This is most evident in his late fiction which has been almost universally ignored dismissed or disparaged by his critics His last novel *Witiko* in particular has been conspicuously neglected by both nineteenth and twentieth century critics Ragg Kirkby demonstrates largely by way of close reading that this is Stifter's extreme masterpiece Beneath the surface of Biedermeier stuffiness is a vision of fracture emptiness meaninglessness and mania not only more radical than that of any other 19th century author but arguably more radical than that of any 20th century author precisely because there is such a disjuncture between text and sub text In his final novel Stifter simply leaves the future behind Helena Ragg Kirkby is a lecturer in German at the University of Sheffield
