Holmes,2024-04-30 In *Win or Else* Larry E Holmes shows us how Soviet football culture regularly disregarded official ideological and political imperatives and skirted the boundaries between socialism and capitalism In the early 1920s the

Soviet press denounced football as a bourgeois sport that was injurious to both mind and body. Within that same decade, however, it blew up becoming the most popular spectator sport in the USSR and growing into a fiercely competitive business with complex regional and national bureaucracies, a strong international presence, and a conviction that victory on the field was also a victory of Soviet supremacy. Writing as both historian and fan, Holmes focuses his study on the provincial Kirov team Dinamo from 1979 to 1985 when the club played at both its worst and its best. Spurred by a dismal 1979 season, the team's administrators and regional authorities had two options: obey Moscow's edict to reduce expenditures on professional sports or seek out new and often illicit funding sources to fill out a team of champions. Drawing on rich archival materials as well as newspapers and interviews with former players, *Win or Else* reveals the foundations of Soviet sports culture and the hazards that teams faced both in victory and in loss.

Trevor Ford Neil Palmer, 2016-08-15 A biography that celebrates this trailblazer of British football while also shedding light on the myths and truths that surround one of British football's greatest forwards. Fully authorised by the Ford family and supported by Aston Villa, Sunderland and Cardiff City.

Post-Fandom and the Millennial Blues Steve Redhead, 2002-11-01 Soccer fandom has traditionally been seen as an important part of adolescent, generally male identity making. In *Post-Fandom and the Millennial Blues*, Steve Redhead shows how this tradition of youth culture of fandom has been eroded in the last years of the twentieth century by the more fleeting style-conscious allegiances inspired by television, films, and music. The clubs that young people follow are determined by advertising and popular music; the games that they watch are brought to them by the globalized culture of television, as in the World Cup staged in America; even their fears of so-called soccer hooliganism are determined by media-engendered moral panics at a time when the phenomenon itself seems to be dying away.

Power Play Raymond Boyle, 2009-05-21 The fully revised and updated version of this classic text examines the link between three key obsessions of the 21st century: the media, sport, and popular culture. Gathering new material from around the 2007 Rugby World Cup, the Beijing Olympics, and the rise of new sports stars such as boxing's Amir Khan and cycling's Victoria Pendleton, the authors explore a wide range of sports as well as issues including nationalism, gender, race, political economy, and the changing patterns of media sport consumption. For those interested in media and sport, the second edition combines new and original material with an overview of the developing field of media sport and examines the way in which the media has increasingly come to dominate how sport is played, organized, and thought about in society. It traces the historical evolution of the relationship between sport and the media and examines the complex business relationships that have grown up around television sponsors and sport. Covers the following topics: the history of media in sport, television sport and sponsorship, why sport matters to television, sports stars, sports journalism, fans, and the audience, sport in the digital media economy.
