Termination of Price Wars Michael Bungert,2012-12-06 The aim of Dr Bungert s dissertation research is in general to invent a new approach to the termination of conflict in interdependent mixed motive situations More specifically the conflict situation was in form of a price war setting Dr Bungert based some of his investigation on the concept of competitive market signaling concept Research conducted over the past decade or so allows to argue that competitive signaling provides interesting explanations of factors and structures that may be relevant to firm/business interaction in competitive markets and thus to conflict resolutions in general In addition Dr Bungert combines approaches of game theory and social psychology in experimental research into a very creative framework More precisely Dr Bungert managed not only to solve the research problem assigned he did so by employing most commonly used members of the marketing mix such as pricing couponing or advertising Naturally thus his work can be expected to have immediate managerial relevance and bearing Further the methodology employed experiments logit probit analysis etc is clearly reflective of state of the art research methods in the marketing discipline **Pricing Lives** Ariel Colonomos,2023-07-31 This book discusses how human lives are equated with the material and argues that pricing lives lies at the core of the political in fact as in Plato or Hobbes and in the Weberian ethics of responsibility measurement is considered to be one of its central features Ariel Colonomos argues that this measure relies primarily on human lives and interests and that the material equivalence to lives is twofold The equivalence is a double equation as we pay for lives and we pay with lives This double equation constitutes the measurement upon which the political equilibrium of a society depends and is thus a key constitutive part of the political The book adopts two approaches both with an interdisciplinary perspective one explanatory and the other normative First it explains the nexus between existential goods and material goods drawing on a detailed analysis of several case studies from contemporary politics both domestic and international Second it discusses normatively the material valuation of human lives and the human value of material goods Value attribution and the question of the material equivalent to lives are of relevance not only for political theory and

philosophy but also for sociology history international relations and legal studies

Kick the Latch Kathryn Scanlan,2022-09-27 About one woman s fine hard

life at the racetrack Kick the Latch with its ruthless concision and artful mysteries is lightning in a bottle Kathryn Scanlan s Kick the Latch vividly captures the arc of one woman s life at the racetrack the flat land and ramshackle backstretch the bad feelings and friction the winner s circle and the racetrack bar the fancy suits and fancy boots and the particular language of grooms jockeys trainers racing secretaries stewards pony people hotwalkers everybody with economy and integrity Based on transcribed interviews with Sonia a horse trainer the novel investigates form and authenticity in a feat of synthesis reminiscent of Charles Reznikoff s Testimony As Scanlan puts it I wanted to preserve amplify exaggerate Sonia s

idiosyncratic speech her bluntness her flair as a storyteller I arrived at what you could call a composite portrait of a self

Whittled down with a fiercely singular artistry Kick the Latch bangs out of the starting gate and carries the reader on a careening joyride around the inside track
