ravenous townspeople out of their minds with drug lust Mix and BANG See why producer Don Murphy Transformers calls The Killing Jar The most fun you can have legally **Must a Violence** Oni Buchanan, 2012-10-01 Oni Buchanan explores the problem of violence against the undefended elemental self through a variety of emotional and linguistic responses The violation itself is unspecified but involves the forced transformation from an instinctual animal self housed in the body and in the senses into a socialized time based citizen familiar with death decay and systemic injustice This exploration plays out through the twin challenges of perception and compassion Perception can bind us to the known world or cut us loose in dangerous horrific territory Compassion for other creatures wild or domesticated and sometimes both is born of perception of the hard limits and surprising insights encountered by attending to the bodies gestures and plights of others In Must a Violence the tones and personalities vary widely but trust is always placed in the five senses These poems gather and relay extraordinary sense data from inaudible sounds to long absent smells These deeply musical poems demand the reader attend to their sounds to the waveforms repetitions durations and delicate interrelationships of words In sounding out the problem of how to respond to violence and to the betrayal and domestication of that which is wild this book counters with aesthetic violence and disruption of its own opening the self to the unexpected powers of the senses and to encounters between wildness and domestication within the self Though never easy this openness creates the possibility for an all enveloping love that touches and joins all animals both nonhuman and human The Killing Jar Ann Brandvig, Rick Becker, 2014-04 PI Georgia Lamb has experienced life's absurdities and thought nothing could surprise her But murder by bees She's skeptical until bizarre pranks running from grotesque to deadly begin As each new victim's worst fear becomes reality she is drawn into the festering secrets of two families Before she can solve the mystery Georgia has to confront demons from her own past Crackling with humor The Killing Jar lures readers down a twisting path of greed jealousy and passion The Science of Forensic Entomology David B.
