The Brain, the Mind, and the Person Within Mark P. Cosgrove, 2018 The brain with its nearly one hundred billion neurons is the most complex structure in the universe, and we are living in a period of revolutionary advancements in neuroscience. Yet scientists and skeptics often frame these findings in ways that challenge the Christian worldview. Many professionals and popularizers claim that human beings are their brains and that all human behavior and experience are merely byproducts of brain physiology.

In *The Brain, the Mind, and the Person Within*, professor of psychology Mark Cosgrove not only explains what the brain is and what it does but also corrects common misinterpretations and demonstrates that what we know about the brain coheres with the teachings of Scripture. He contends that humans are unities of soul and body in which both the spiritual and the physical interact. From this perspective, he presents informative overviews of contemporary debates about the brain, including consciousness, free will, God, spots, personhood, and life after death. The better we understand the brain, the better we understand ourselves and our exquisite design that reflects the wisdom of the Creator. Thoughtful readers will find this to be a fascinating, accessible survey of this unique part of the body and the profound theological and technological issues surrounding it.

Literary Epiphany in the Novel, 1850-1950 S. Kim, 2012-09-14 This book studies literary epiphany as a modality of character in the British and American novel. Epiphany presents a significant alternative to traditional models of linking the eye, the mind, and subject formation, an alternative that consistently attracts the language of spirituality even in anti-supernatural texts. This book analyzes how these epiphanies

become spiritual and how both character and narrative shape themselves like constellations around such moments This study begins with James Joyce inventor of literary epiphany and Martin Heidegger who used the ancient Greek concepts behind epiphaneia to re define the concept of Being Kim then offers readings of novels by Susan Warner George Eliot Edith Wharton Virginia Woolf and William Faulkner each addressing a different form of epiphany **The Kingdom of the Cults** Walter Martin,Ravi Zacharias,2003-10 Newly updated this definitive reference work on major cult systems is the gold standard text on cults with nearly a million copies sold **Encyclopedia of Southern Literature** Mary Ellen Snodgrass,1997 In alphabetical entries the author presents literature motifs historical eras writers titles and genres as a method of defining and exemplifying the region s contributions to American and world literature Preface p ix **Subject to Biography** Elisabeth Young-Bruehl,1998 This book pays tribute to 14 women who donated millions of dollars to causes close to their hearts

"Born Again": A Portrait and Analysis of the Doctrine of Regeneration within Evangelical Protestantism Stephen J. Hamilton,2017-04-03 Stephen J Hamilton attempts to create a portrait of born again Christianity by providing a general introduction to the doctrine of regeneration including its development in modernity as well as short exegeses of relevant scriptural texts followed by a close reading of four theologians Philipp Jakob Spener Jonathan Edwards Friedrich D E Schleiermacher and Charles G Finney who all associate the doctrine of regeneration with an experience of presence in the individual believer In light of these analyses he then traces a general theological structure of the born again understanding of regeneration including a catalogue of theological issues over which there is significant disagreement in order to create a topography of born again theologies In the final section he applies these results to contemporary conversion narratives of non theologians It is in such conversion narratives the author argues that theologians can discover an implicit lived theology that reveals how doctrines are perceived and put into practice among Christians Accordingly this is to be understood as the result of the creative reciprocity between often tacit theological convictions and the experiences of the Christian life The final chapter as a coda to the entire work offers some concluding reflections on the present cultural and political situation in the USA pertaining to born again Christianity and argues against any oversimplifications of the relationship between born again theologies culture and politics **Routledge Library Editions: Puritanism** Various Authors,2021-08-31 Originally published between 1930 and 1988 many of the volumes in this set are based upon years of painstaking archival research in private and published papers They provide many insights into the Puritan world of the early 17th Century and Analyse the economic depression in the mid 1600s and the resultant unemployment and poverty which caused social upheaval Discuss the importance of the divisions among the Puritans for political processes within both the church and wider society Examine the motivation of the Puritans who emigrated Discuss the impact the Puritan family had on the spiritual development of the Anglo American world [The Mississippi Quarterly](#) ,1981 **The Quaker World** C. Wess Daniels,Rhiannon Grant,2022-11-04 The Quaker World is an outstanding comprehensive and lively introduction to this complex Christian

denomination Exploring the global reach of the Quaker community the book begins with a discussion of the living community as it is now in all its diversity and complexity The book covers well known areas of Quaker development such as the formation of Liberal Quakerism in North America alongside topics which have received much less scholarly attention in the past such as the history of Quakers in Bolivia and the spread of Quakerism in Western Kenya It includes over sixty chapters by a distinguished international and interdisciplinary team of contributors and is organised into three clear parts Global Quakerism Spirituality Embodiment Within these sections key themes are examined including global Quaker activity significant Quaker movements biographies of key religious figures important organisations pacifism politics the abolition of slavery education industry human rights racism refugees gender disability sexuality and environmentalism The Quaker World provides an authoritative and accessible source of information on all topics important to Quaker Studies As such it is essential reading for students studying world religions Christianity and comparative religion and it will also be of interest to those in related fields such as sociology political science anthropology and ethics **Encyclopaedia of Humanities and Social Sciences** ,1992 **The Register of the Kentucky Historical Society** Kentucky Historical Society,1982
