Sticking Together Yaakov Kop, Robert E. Litan, 2004-05-13 Founded in 1948 amid bloodshed and the near devastation of the Jewish people after the Holocaust modern Israel is something of a miracle In a little more than fifty years of existence the country has evolved into a significant economic and military power both feared and resented by its Arab neighbors in the volatile Middle East In *Sticking Together* an Israeli and an American examine the major challenges confronting Israel within its own borders These challenges well known to Israelis but relatively little known elsewhere have emerged in part out of the country's experience with large scale immigration Like the United States Canada and Australia Israel has tried to melt different peoples into a cohesive nation While its citizens have forged common bonds under circumstances of adversity particularly constant threats from Palestinians and from neighboring Arab countries the fabric of Israeli society is torn by four major schisms between immigrants and native Israeli between Jews and Arabs between secular and religious Jews and between Jews of different cultural and national backgrounds such as Ashkenzim and Sephardim Gradually and often with great difficulty Israelis have learned to accommodate and respect the deep differences among its population To borrow a culinary analogy Israeli society much like American society has become more salad bowl than melting pot *Sticking Together* examines the many challenges confronting Israel's experience with pluralism and in the process draws lessons that might prove useful to other societies that struggle to accommodate the needs of highly diverse populations

institutions the Israeli state of affairs is one of choice while initiating changes to reform and overhaul the Israeli institutional system is possible it is also perilous To cope with that duality Israeli political leadership on all sides has developed a variety of mechanisms that allow them to provide the policy output needed so as to maintain the status quo This book examines these mechanisms as they exist in different facets of government work and explains their output and persistence Examples include coalitional making and breaking the ways in which ruling coalitions maneuver in parliament and policy design and implementation The book also explores the problem that exists in Israel's governability the lack of a strategic high order far sighted decision making Finally it offers a method of electoral reform that can address both of these systemic maladies
