A Companion to Martin Buber

Paul Mendes-Flohr,2025-06-25 A definitive international guide to the thought of the most important twentieth century Jewish philosopher In his 1923 essay I and Thou the philosopher theologian and activist Martin Buber introduced a philosophy of dialogue that achieved a global interdisciplinary resonance For Buber dialogue was more than a conversation dialogue discloses something essential about our orientation and our lives with one another This companion assembles twenty six scholars from a dozen countries to explore Buber s international reputation and legacy in education interfaith relations Judaism philosophy politics and psychology The result is an essential guide to one of the most influential Jewish thinkers of the twentieth century *Collected Essays: Man's place in nature* Thomas Henry Huxley,1894

The Religious

Existentialists and the Redemption of Feeling Anthony Malagon,Abi Doukhan,2019-06-27 Traditional philosophizing has generally depended upon reason as its primary access to truth Subjective experiences such as feelings the passions and emotions have typically been viewed as secondary to reason untrustworthy or both The Religious Existentialists and the Redemption of Feeling revisits how the movement of existentialism via the religious existentialists has contributed to a rethinking of the role of subjective experience in contrast to the rationalist and idealist traditions thus reframing the importance of feelings in general for the philosophical enterprise as a whole Through the considerations of a variety of thinkers this collection provides a fresh look at the contributions of twentieth century existentialists thereby re contextualizing the very notion of existentialism offering a powerful and genuine re evaluation of the significance of subjectivity and underscoring the continued relevance of the religious existentialists **Collected Essays** Thomas Henry Huxley,1894

One Man Talking: Selected Essays of Shao Xunmei, 1929-1939 Paul Bevan,Susan

Daruvala,2023-07-19 Shao Xunmei poet essayist publisher and printer played a significant role in the publication and dissemination of journals and pictorial magazines in Shanghai during the 1920s and 1930s His poetry has been translated by several prominent scholars through the years but remarkably few of his essays have received the same attention and this is the first collection of his prose writings to be published in English Shao has been described by a phalanx of scholars as the most seriously underestimated modern cultural Chinese figure This collection of his writings joins several recent publications that aim to raise Shao s literary and historical profile It will appeal to a broad swathe of readers interested in the transnational and transcultural dimensions of twentieth century experience that have become so important for contemporary scholarship The essays in this book some of which were selected by the writer s daughter Shao Xiaohong include long essays such as One Man Talking and A Year in Shanghai as well as several shorter essays on subjects as diverse as the caricatures of Miguel Covarrubias woodblock printing and pictorial magazines all of which were published in Shao s own magazines

Although his essays may be less well known than those of other writers of the same period without his unique and valuable contribution the literary artistic and poetic worlds of twentieth century Shanghai would have been very different indeed

The Promise of Dialogue Louise Phillips, 2011 Presents a theoretical framework for analysing the dialogic turn in the production and communication of knowledge that builds bridges across three research traditions dialogic communication theory action research and science and technology studies This title provides an account of the dialogic turn through case studies

Political Ethics and The United Nations Manuel Froehlich, 2007-10-29 Based on a wealth of sources files and interviews and including previously unpublished material this book explores the foundations of the political ethics of Dag Hammarskjöld the second Secretary General of the United Nations examining how they influenced his actions in several key crisis situations Hammarskjöld's political innovations such as the creation of peacekeeping forces the use of private diplomacy and the concept of the international civil service were bold attempts at translating the aims and principles of the UN charter into concrete thought and action Kofi Annan described Hammarskjöld's approach as a useful guideline to dealing with the problems of a globalized world Offering a topical perspective on a subject that has not recently been explored this book analyzes Hammarskjöld's successes and failures in a way which offers insights into contemporary problems and in doing so provides a significant and original contribution to UN studies *Political Ethics and The United Nations* will be of interest to students of the United Nations peace studies and international relations in general

Expressing the World Anthony Rudd, 2003 This thoughtful book argues that skepticism the view that reliable knowledge is beyond our grasp is unavoidable unless knowledge is thought of not as merely an intellectual matter but as crucial to practical activity and emotional life Author Anthony Rudd ties this idea to the work of Wittgenstein and Heidegger exploring important similarities between the former's reminders of the expressive character of human experience and the latter's account of ways to experience the physical world expressively

Heidegger and His Jewish Reception Daniel M. Herskowitz, 2020-10-08 In this book Daniel Herskowitz examines the rich intense and persistent Jewish engagement with one of the most important and controversial modern philosophers Martin Heidegger Contextualizing this encounter within wider intellectual cultural and political contexts he outlines the main patterns and the diverse Jewish responses to Heidegger Herskowitz shows that through a dialectic of attraction and repulsion Jewish thinkers developed a version of Jewishness that sought to offer the way out of the overall crisis plaguing their world which was embodied as they saw it in Heidegger's life and thought Neither turning a blind eye to Heidegger's anti-Semitism nor using it as an excuse for ignoring his philosophy they wrestled with his existential analytic and what they took to be its religious ethical and political failings Ironically Heidegger's thought proved itself to be fertile ground for re-conceptualizing what it means to be Jewish in the modern world

Reimagining Curriculum Studies Donald S. Blumenfeld-Jones, 2022-04-12 This book addresses the crucial issue of how we value and deploy the idea of freedom that underlies contemporary curriculum studies Whether we are conventional curriculum thinkers who value knowledge

development or favor a Deweyan individualist orientation toward curriculum or are a critical social justice curriculum thinker at the heart of all these orientations and theorizing is the value of freedom The book addresses freedom through novel sources the work of Martin Buber on education Julia Kristeva on the uses of imagination and the female male dialectic Emmanuel Levinas unique approach to ethics and more Readers will find new ways to understand freedom and the world of ethical life as informing curriculum thinking It provides a more ecumenical vision that can draw our differences together It helps readers to reconsider ourselves in fruitful ways that can bring more relevance and substance to the field **The**

Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens, 2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917 1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his counseling theory and practice demonstrates that it was shaped and informed by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling Dialogue as a Collective Means of Design Conversation Patrick M. Jenlink, Bela H.

Banathy, 2007-11-24 Dialogue as a Collective Means of Design Conversation is the second volume edited by Patrick M Jenlink and Bela H Banathy to offer a cross disciplinary approach to examining dialogue as a communicative medium In this Compendium the contributing authors set forth their ideas experiences and perspectives as the path of a learning journey a journey of new meaning of new understanding and of becoming self aware of design conversation as future creating and consciousness evolving In particular this volume comes at a time when we as a global society are faced with the question of how we shape our actions and in turn shape our future through conversation that is focused on resolving global conflict and fostering world peace The volume evokes in the reader a realization that our greatest potential rests in no small measure with our collective capacity for cultural creativity and in our capacity to achieve new levels of consciousness through dialogue and design conversation **Presence in the Online World** Leslie Jeffrey, Agnieszka (Aga) Palalas, Karen Robert, Yuk-Lin Renita Wong, 2023-12-06 Presence in the Online World A Contemplative Perspective and Practice Guide for Educators is an edited collection that addresses the question of how we can bring the insights of contemplative pedagogy into the space of online learning While the digital space can be one of distraction and disconnection contemplative pedagogy

offers time honored practices that focus on cultivating mindful presence awareness transformative growth and deep connection These practices can help learners and educators tune into both their inner and outer worlds at a variety of levels emotional physical intellectual and spiritual The volume s contributors who come from diverse disciplines offer their reflections on their experiences bringing the contemplative and the online together during the tumultuous pandemic years of emergency remote blended and online teaching They provide both practical guidance in introducing contemplative practices in the online or blended classroom and insights into the meaning of presence and the possibilities for deep connection in an online world Together their contributions demonstrate how students and teachers can cultivate a holistic presence with each other and to their shared human conditions as they navigate the virtual classroom [The Handbook of Communication Ethics](#) Amit Pinchevski, Patrice M. Buzzanell, Jason Hannan, 2024-12-02 The second edition of this handbook offers a thoroughly updated overview of the different approaches and perspectives in communication ethics today Extending the path paved by its predecessor this handbook includes new issues and concerns that have emerged in the interim from environmentalism to artificial intelligence from disability studies to fake news It also features a new structure comprised of three sections representing a wide array of communication ethics traditions contexts and debates Rather than focusing exclusively on a subset of ethics such as interpersonal communication rhetoric or journalism as do other handbooks of ethics in communication this collection provides a valuable resource for those who seek a broader basis on which to study communication ethics This handbook is a must read for faculty graduate students and advanced undergraduate students in all areas of communication studies as well as in neighboring disciplines such as rhetoric media studies sociology political science cultural studies and science and technology studies **Selected Essays and Letters** National Assessment of Educational Progress (Project), 1972 **A Rhetorics of the Word** George Pattison, 2019-11-28 A Rhetorics of the Word is the second volume of a three part philosophy of Christian life It approaches Christian life as expressive of a divine calling or vocation The word Church ekklesia and the role of naming in baptism indicate the fundamental place of calling in Christian life However ideas of vocation are difficult to access in a world shaped by the experience of disenchantment The difficulties of articulating vocation are explored with reference to Weber Heidegger and Kierkegaard These are further connected to a general crisis of language manifesting in the degradation of political discourse Arendt and the impact of new communications technology on human discourse This impact can be seen as reinforcing an occlusion of language in favour of rationality already evidenced in the philosophical tradition and technocratic management New possibilities for thinking vocation are pursued through the biblical prophets with emphasis on Buber s and Rosenzweig s reinterpretation of the call of Moses Saint John and Russian philosophies of language Florensky to Bakhtin Vocation emerges as bound up with the possibility of being name bearers enabling a mutuality of call and response This is then evidenced further in ethics and poetics where Levinas and Hermann Broch The Death of Virgil become major points of reference In conclusion the themes of calling and the name

are seen to shape the possibility of love the subject of the final part of the philosophy of Christian life A Metaphysics of Love

Judaism and the Visual Image Melissa Raphael, 2009-02-19 The widespread assumption that Jewish religious tradition is mediated through words not pictures has left Jewish art with no significant role to play in Jewish theology and ethics Judaism and the Visual Image argues for a Jewish theology of image that among other things helps us re read the creation story in Genesis 1 and to question why images of Jewish women as religious subjects appear to be doubly suppressed by the Second Commandment when images of observant male Jews have become legitimate even iconic representations of Jewish holiness Raphael further suggests that devout beholding of images of the Holocaust is a corrective to post Holocaust theologies of divine absence from suffering that are infused by a sub theological aesthetic of the sublime Raphael concludes by proposing that the relationship between God and Israel composes itself into a unitary dance or moving image by which each generation participates in a processive revelation that is itself the ultimate work of Jewish art
