*The Kon-Tiki Man* Christopher Ralling, 1991      *Kon-Tiki Man Thor Heyerdahl*, Christopher Ralling, 1991      *Kon-Tiki Thor Heyerdahl*, 2013-12-24 Am going to cross Pacific on a wooden raft to support a theory that the South Sea islands were peopled from Peru Will you come Reply at once That is how six brave and inquisitive men came to seek a dangerous path to test a scientific theory On a primitive raft made of forty foot balsa logs and named Kon Tiki in honor of a legendary sun king Heyerdahl and five companions deliberately risked their lives to show that the ancient Peruvians could have made the 4 300 mile voyage to the Polynesian islands on a similar craft On every page of this true chronicle from the actual building of the raft through all the dangerous and comic adventures on the sea to the spectacular crash landing and the native islanders hula dances each reader will find a wholesome and spellbinding escape from the twenty first century      **A Hero for the Atomic Age** Axel Andersson, 2010 Nomination for Best Foreign Film at the 2013 Academy Awards In English and many other languages the name Kon Tiki has become a byword for adventure and the exotic The journey of the Kon Tiki from Peru to Polynesia in 1947 became one of the founding myths of the postwar world In the voyage of six Scandinavians and a parrot on a balsa raft across the Pacific Ocean the classic journey of discovery was re invented for generations to come Kon Tiki spoke of heroism masculinity free spirited rebellion against scientific dogmatism and the promise of an attainable exotic world while it updated these mythological staples to fit the times After years of relentless media exploitation of the 101 day raft journey Heyerdahl emerged as the protagonist in a legend that helped to create a new postwar West A Hero for the Atomic Age tells the story of how Heyerdahl organized an expedition to sail a balsa raft from Callao in Peru to the Tuamotu Islands in French Polynesia and explains how he turned this physical crossing into an epic narrative that became imbued with a universal appeal The book also addresses for the first time the problematic nature of Heyerdahl s theory that a white culture bearing race had initiated all the world s great civilizations      *Señor Kon-Tiki; the Biography of Thor Heyerdahl* Arnold Jacoby, 1967 The voyage of Kon Tiki just two decades ago was one of the great true adventures of our century For its daring leader Thor Heyderahl this expedition was the turning point of a life already crowded with excitement Now overnight he was an international celebrity but a man half obscured by the shadow of his own achievement Millions new his name but few knew the man behind the voyage In this definitive biography Arnold Jacoby focuses on that man He tells of Heyerdahl s boyhood youth of the experimental year when he and his bride returned to nature on a remote Pacific island to see if modern man was better off than primitive man and of his wartime experiences in the Free Norwegian Army One theme recurs throughout those years Heyerdahl s growing conviction that accepted scientific opinion about the origins of the South Sea islanders was incorrect But his own theories brought only scorn from the scientific community until he set out to prove himself right in the only way possible by recreating the Pacific voyage he knew must once have take place The Kon Tiki and subsequent expeditions to Easter Island and the Galapagos won Heyerdahl renown and perhaps more importantly scientific

respect The behind the scenes stories of these achievements and their aftermath are all part of this fascinating book inside jacket *Thor Heyerdahl's Kon-Tiki in a New Light*, 2014 Pre-Columbian Trans-Oceanic Contact Jerald

hundreds and even thousands of years before Christopher Columbus was born **The Kon-Tiki Expedition** Thor

Heyerdahl, 1996 This is the story of how Thor Heyerdahl and five other men crossed the Pacific Ocean on a balsa wood raft in an extraordinary bid to prove Heyerdahl's theory that the Polynesians undertook the same feat on such a craft over 1000 years ago **8 Men and a Duck** Nick Thorpe, 2007-11-01 8 Men and a Duck charts the hilarious and unnerving Pacific

voyage as it rolls between waves of high drama and high farce from the five day launch off a Chilean beach to the bungled phone call that triggered a naval rescue alert to the sad fate of Pedro the duck to the constant race against the inexorable sinking of the soggy hull On a fateful South American bus trip journalist Nick Thorpe overheard some fellow passengers discussing an improbable plan to sail 2 500 miles from northern Chile to Easter Island on the Viracocha a boat made of reeds The crew's aim in reviving this pre Incan boat building technology was twofold to reopen the controversial migration theories of Thor Heyerdahl who sailed his boat the Kon Tiki from Peru to Polynesia in 1947 and to have one heck of an adventure in the process Thorpe talked his way on board Captain Phil Buck's Viracocha only to find himself plagued by uncertainty Why did the crew include a tree surgeon a jewelry salesman and two ducks What happened to the navigator Did anybody actually know how to sail And most important where was the life raft Despite the best efforts of storms and sharks and fast moving freighters an alarming lack of sailing qualifications and a rival explorer dogging the adventure at every turn the crew members of the Viracocha lived to tell their extraordinary tale right through to its wickedly unexpected conclusion Nick Thorpe's account is by turns funny touching and thrilling a story of friendship fate and the unlikely distances people will go for real adventure **The Kon-tiki Expedition, by Thor Heyerdahl (2 Cassettes) Abridged** Thor Heyerdahl, Tim\*

Piggot-Smith, **The Impossible Voyage of Kon-Tiki**, 2015 Combining history with culture the ocean with exploration and risk with triumph this rich offering is the only picture book account of Thor Heyerdahl's world famous Kon Tiki expedition during which he sailed a raft 5 000 miles from the coast of South America to the islands of the South Pacific Publisher

**The Kon-Tiki Expedition by Raft Across the South Seas** Thor Heyerdahl, 1950 Paradise Lust Brook

Wilensky-Lanford, 2011-08-02 A certainly weird strangely wonderful and often irresistible search to find the real Garden of Eden The New York Times Book Review Where precisely was God's Paradise St Augustine had a theory So did medieval monks John Calvin and Christopher Columbus But when Darwin's theory of evolution changed our understanding of human origins shouldn't the desire to put a literal Eden on the map have faded away Not so fast This gloriously researched pluckily written historical and anecdotal assay of humankind's age old quixotic quest for the exact location of the Biblical garden Elle explores an obsession that has consumed scientists and theologians alike for centuries To this day the search continues taken

up by amateur explorers clergymen scholars engineers and educators romantic seekers all who started with the same simple sounding Bible verses only to end up at a different spot on the globe Sri Lanka the Seychelles the North Pole Mesopotamia China Iraq and Ohio Inspired by an Eden seeker in her own family Wilensky Lanford approaches her subjects with respect enthusiasm and conscientious research San Francisco Chronicle as she traverses a century spanning history provoking surprising insights into where we came from what we did wrong and where we go from here And it all makes for a lively journey Kirkus Reviews

**The Survival of Easter Island** Jan J. Boersema, 2015-04-13 In this book Jan J Boersema reconstructs the ecological and cultural history of Easter Island and critiques the hitherto accepted theory of the collapse of its civilization The collapse theory advanced most recently by Jared Diamond and Clive Ponting is based on the documented overexploitation of natural resources particularly woodlands on which Easter Island culture depended Deforestation is said to have led to erosion followed by hunger conflict and economic and cultural collapse Drawing on scientific data and historical sources including the shipping journals of the Dutch merchant who was the first European to visit the island in 1722 Boersema shows that deforestation did not in fact jeopardize food production and lead to starvation and violence On the basis of historical and scientific evidence Boersema demonstrates how Easter Island society responded to cultural and environmental change as it evolved and managed to survive

In Search of Origins Garry Trompf, 2005-01-01 Religion is an integral part of our life The answer to the question what is religion is subjective Since the word religion and its cognates are common coinage across the literate world most of us will have a fair appreciation of the term s connotations Considering students and scholars alike are lacking an introductory textbook on the origins of religion in modern Western theory and archaeological practice this work is designed to fill the lacuna Historians of ideas and social science are often not clear as to how any given theory of religion might pertain to the known archaeological record while exponents of prehistoric religion have worked with surprisingly narrow definitions of religious life Many will locate the kernel of the matter in practice or in an active spirituality Today the pressures of the global village have forced many of us to take off our blinkers and do some cross cultural homework Religious Studies has emerged as an academic discipline or intellectual pursuit with one of its functions being to facilitate mutual understanding between traditions and to ensure that the varieties of religious belief and experience are fairly appraised The series of which this book is a part will be historically rather than theologically oriented This book will cover such a vast area for investigation and it is designed to help students find their own way through the forest pick the trees which interest them and learn how to scrutinise them in depth Religious Studies is a multi disciplinary activity and one is encouraged to turn over as many stones as possible to look at religions from as many different angles as possible the psychological anthropological sociological geographical ecological political economic and the like with some awareness of current theological debates as well This book gives scope to the comparative method and all the great religions are treated side by side with points of comparison and contrast drawn This book begin with the large question of the origins

and prehistory of religion including the bearing anthropological study has on this question before giving space to the larger traditions themselves The comparative method is applied not only between such enormous aggregates of phenomena as let us say Buddhism and Islam but between these and small scale tribal traditions as well The book highlights that some religions will be difficult to separate from cultures because they amount to a total way of life An attempt is made to try to interpret religion both as culture and as a distinctive set of forces in interaction with culture or perhaps even against prevailing cultural forms This book has been designed to help students find for themselves possible answers to existential or theological questions but only as a side effect to historical and phenomenological study and as the author says provide no such answers on a platter
