Between these pages you will find the 100 best fishing stories and 200 best fishing tips of 1999 and you will meet some of the world's best offshore fishermen. If you plan to fish the world famous Kona grounds or just visit the historic towns along the Kona Coast, be sure to read this book first. Each volume of the Kona Fishing Chronicles takes you through a year in the life of the picturesque villages, ports and fishing grounds along the west coast of Hawaii's Big Island. When you've finished this month by month guide, you will feel as though you are among familiar faces and you will understand and appreciate what makes Kona fishing unique and so inviting. The lee coast of Hawaii Island is uniquely blessed. Mauna Kea, Mauna Loa and Hualalai block the trade winds and provide a gentle and calm conditions for fishing boats of all sizes from kayaks to sportfishing yachts. The steep slopes of these dormant volcanoes drop sharply down through the mid Pacific depths and bring the open ocean habitat of billfish, tuna and other offshore gamefish right up to the beaches. Prevailing east to west currents create huge eddies that spin baitfish into undersea ledges formed by lava flows cooled to solid rock. The result is a remarkably rich fishing grounds. Big fish hunt in calm water a few minutes run from port. Indeed, giant marlin and tuna have been caught within sight of the buoys marking the harbor entrances. Each week of each year Kona produces thrilling fishing adventures for novices who visit to fulfill their dream vacation of a lifetime and big game veterans who travel the world following the bite. The mountain slopes are home to a large population of recreational fishermen. They live the daily lives of any community of doctors, lawyers, teachers, secretaries, plumbers, carpenters, shopkeepers and business people but turn to the sea for unparalleled sport. I have fished Kona since 1969. Soon after moving to the Big Island, I began writing the events and stories of Kona fishing in a weekly column published in the daily newspaper West Hawaii Today. This volume is a compilation of the WHT columns published during 1999 with one exception. "Technology Took Over" first appeared in Hawaii Fishing News. Each column appears in almost exactly the same form as when first printed. I have resisted the temptation to re-write events from the longer lens of hindsight. Rather, I have given you the chance to watch the fishing year unfold just as it happened. The dates on the sections indicate the dates the items were written and not when they were published. If you are new to Hawaii fishing, you will find entertaining stories that draw you into the methods and techniques perfected on the Kona fishing grounds. Readers who are long time residents will enjoy recognizing friends and reliving familiar exploits. For future generations, this book will serve as one volume in a history of sportfishing Kona style. The big fish list is a weekly feature of the WHT column. It tracks the largest catch of each of 16 major species for the year to date. For this yearly compendium, I pondered the idea of reducing the number of lists to just one at the end of each month. This brought protests from some of the anglers who proudly held the lead for just a few weeks and then had to give it up by the end of the month. Much of the data was gathered by the dedicated dockworkers who help anglers and captains throughout

Ford, George Mellen, 1913      Understanding Religious Change in Africa and Europe: Crossing Latitudes Nathan Irmiya Elawa, 2020-04-15 This book examines and compares the religious experience of an African group with a European one. It offers an ethnographical investigation of the Jukun of north central Nigeria. The author also organically weaves into the narrative the Christianization of the Irish in a comparative fashion. Throughout he makes the case for an African Christianity connected to a Celtic Irish Christianity and vice versa as different threads in a tapestry. This work is a product of a synthesis of archival research in three continents, interviews with surviving first generation Christians who were active practitioners of the Jukun indigenous religion and with former missionaries to the Jukun. On the Irish side it draws from extant primary sources and interviews with scholars in Celtic Irish studies. In addition, pictures, diagrams, and excerpts from British colonial and missionary journals provide a rich contextual understanding of Jukun religious life and practices. The author is among the emerging voices in the study of World Christianity who advocate for the reality of polycentres for Christianity. This perspective recognizes voices from the Global South in the expansion of Christianity. This book serves as a valuable resource for historians, anthropologists, theologians, and those interested in missions studies, both scholars and lay readers seeking to deepen their understanding of World Christianity.
