Photography and Cultural Heritage in the Age of Nationalisms Ewa Manikowska, 2020-09-08 The second half of the 19th century was a time of extensive political upheaval in central east Europe that saw the negotiation of conflicting territorial claims in the region by the Russian Austrian and Prussian empires The post WW1 settlement gave rise to the formation of the independent nation states of Poland Lithuania Ukraine Latvia and Belarus Less well know is that this same period was also an era of keen photographic activity During this time of empire state and nation building cultural heritage was a potent vehicle and a provider of collective memory and identity This innovative account analyses the relationship between politics history cultural heritage and photography in central east Europe between 1859 and 1945 To understand the work photographs do in the construction of cultural heritage the author analyses a wide range of little known photographic archives created by contemporary professional and amateur photographers Their work was extensively exploited in contemporary debates appearing in albums books journals exhibitions museum exhibits postcards and newspapers aimed at both scientific and popular and national and international publics An extensive analysis of how photographic practices and outcomes were applied borrowed copied

appropriated and transmitted shows how photography was used to exert or subvert power on the one hand and as a tool in constructing and negotiating group identities on the other By weaving photography and its patterns of making dissemination and archival survival through major historical narratives this volume reveals the centrality of photography and visual discourse at pivotal moments of modern history *Armies of Ivan the Terrible* David Nicolle, Viacheslav Shpakovsky, 2024-12-19 It is generally assumed that the military reforms which propelled Russia into the modern world were due solely to the genius of Peter the Great In fact his reforms were built upon changes that had taken place during the previous 200 years since the creation in 1550 of Russia's first full time military force the *streletsi* by Ivan IV the Terrible This account traces Russia's armies from that beginning through the creation of paid regular regiments from 1630 up to the reign of Peter the Great It is illustrated with rare early drawings photos of surviving artifacts and dazzling colour reconstructions of exotic military costumes Photo Archives and the Idea of Nation Costanza Caraffa, Tiziana Serena, 2014-12-16 Das lange 19. Jahrhundert der Nationalstaatenbildung ist auch das Jahrhundert der Erfindung der Fotografie wie auch der Geburt der modernen Archivwissenschaften Die Fotografie wurde bald von den Nationalstaaten in ihrem Bedürfnis nach bildlicher Visualisierung in den Dienst genommen Nach dem II Weltkrieg dem Zerfall der kolonialistischen Systeme und schließlich dem Fall der Berliner Mauer erlangten nationale Fragen erneut Aktualität nun in einem globalen Rahmen Die Beiträge in diesem Band untersuchen den Zusammenhang zwischen Fotografie Fotoarchiven und der Idee der Nation wobei das Objektiv sich nicht auf einzelne Ikonen sondern auf die weitreichende Dimension des Archivs richtet Russian Fractals in Indigenous Artifacts Abdul Karim Bangura, Leonid A. Zhigun, 2025-06-22 This book is the first comprehensive work on Russian Fractals in indigenous artifacts While existing works focus on universal phenomena such as liquid crystal or finance none explore the intersection between Fractals and Russia *Russian Fractals in Indigenous Artifacts* therefore investigates how indigenous Russian cultures have a wonderful Fractal heritage that was originally tied to socially just and ecologically sustainable social practices including those of indigenous northern groups such as the Yakut Fractal designs originally allowed unalienated value both human and nonhuman to be visible thereby enabling just and sustainable living This book also examines how the tsarist elite encouraged the creation of unique creative masterpieces developing and strengthening traditional crafts and art of indigenous people hence Fabergé or imperial architecture Today the challenge for contemporary Russia is to reestablish the relationship between the social and ecological sustainability of indigenous cultures and practices for which we can now provide modeling and analysis Lay attempts at this have only limited success as they have based the attempts on a purely religious basis which recognizes the ecological aspects but often succumbs to authoritarian nationalism However the free accession of indigenous peoples to Russia for the sake of national liberation has had a positive effect on enriching them with spirituality and creativity by Fractal artifacts through friendly exchanges with one another In *Russian Fractals in Indigenous Artifacts* Bangura and Zhigun express why there is a need for a forward thinking Fractal renaissance in Russia bringing

together contemporary computational and scientific analyses with these ecologically and socially sustainable traditions
